WILL ERECT SIGNS ALONG LAKE FRONT

Harbor Commission Disclaims Any Responsibility for Fatality on Civic Holiday.

The harbor commission disclaims any responsibility for the drowning of Theresa Cummings on Civic Holiday. Mr. Cousins also says that the dredges were not working within a shousand feet of the accident. The commission has decided to erect warning signs along the lake front, informing bathers of the impossibility of maintaining a uniform construc-tion along the lake front during dredging operations, and that they went

into the water at their own risk. He further pointed out that the commission might have discontinued all right to bathing along the beach but it would have meant hardship to nany during the hot weather. Many of the bathers were trespassers on private property and had no right to

SUNNYSIDE BRIDGE LIGHTING IMPROVED

Commissioner Chisholm Complies With Request of Ald. MacGregor.

In compliance with Ald. MacGregor's request, Commissioner Chishelm has improved the lighting of Sunnyside bridge with several 400 candle power lights. Many complaints had been received about the poor illumination at

the busy intersection of Queen street and Roncesvalles avenue. Ald. MacGregor has also received the assurance that the Dundas bridges will be similarly illuminated before Exhibition opens.

NEW VEIN SPECTACULAR. BOSTON CREEK, Aug. 9.—The new vein found on the Miller Inde-

pendence at Boston Creek is quite a spectacular one. This vein was located less than two weeks ago about feet north of the outcropping on the original No. 1 vein, from which about two tons of high-grade ore was shipped. About 15 feet of stripping has been done on the new vein, which was found within a short distance of the township line between Plcaud and Catherine. From the latter find some high-grade has been bagged and sent out to be tested. Underground work stopped about a month ago on account of shortage of water, but it is expected that operations will soon be

Funeral from his parents' residence, 558 Bathurst street, Toronto, Friday, at 2 p.m. Interment Mount Pleasant Cemetery.

CROWN ATTORNEY WAS ASTONISHED

Saw No Reason for Investigating Death of Herman Barry.

Recommending that all cases of vio-ent or uncontrollable delirium be sent to institutions having the necessary facilities for treatment, the jury at the inquest conducted last night by Coroner Dr. W. A. Young into the death on July 31 of Herman Barry, 35 years old, 26 Fern avenue, an ammunition inspector at the Steel and Radiation Company, returned a verdict assigning

the cause of death to pneumonia. The verdict was based upon the report of Dr. Andrew Harrington, who performed the autopsy and who testi-fled that no evidence of injury was found. He said death was due to pneumonia. The jury embodied the recommen dation in its verdict as a result of the

testimony, which showed that Barry, wher he was taken to the General Hospital from Lyndhurst Hospital could not be quieted. The first verdict of the jury contained a suggestion that cases of violent delirium should be gent to hospitals other than those in which women were in charge. The verdict was changed after the coroner explained conditions in the hospitals.

Did Not Examine Body.

Dr. H. H. Murray, to whom Barry went for treatment, and Dr. W. H. Campbell of the General Hospital staff asserted on the witness stand that the sick man had fractured ribs, but it was later learned that they based their belief upon no minute examination of

the body of the man That the inquest was useless was the opinion of Crown Attorney Thurston, who cross-examined the witness es. He expressed his astonishment that the hospital authorities should have thought it necessary to recom-mend an inquest when Barry died so apparently from natural causes.

The only witness whose testimony hinted of injury to Barry was William Schultz, who testified that Barry told
