Since that time attempts have been made to improve the acoustic properties of the building, but it still remains almost as much of an anachronism as the little Holden Chapel which stands in front of the college yard. By contrast with the Stadium and the Soidiers' Field, with accommodation for 35,000 spectators at the games, with a demand much exceeding the accommodations, one is led to ask whether, by any happy chance, the religious needs of the university will ever require seating room for one-half the students enrolled room for one-half the students enrolled aids, purely physical, have been resorted to. In the majority of cases they fail. But there is a sure cure—the expractice of the will combined with the practice of virtuous acts. The evil stimulus craved by body and mind must have a substitute. The only safe substitute is "actions fair and good."

A beautiful stole and muff of the same sider whether or not it were being performed correctly it would be possible to accomplish but little during the short span of life. A thousand acts are each day done unconsciously by every individual. The importance of forming correct habits, virtuous habits, is self-evident. A habit once formed is as difficult to break as it is to make a bent tree grow straight. As the twig is bent the tree is inclined; as the child acts the character of the mature man is moulded. The prisons of every land are filled with men who have been made what they are by the selfish acts, the cruel acts, the vicious acts of their childhood days. We speak of skill. What, after all, is skill but correct habit? Practice makes perfect; and by constant practice the apprentice becomes the master workman. Always the Best

The leading dictionaries define "Best" as "Good in the Highest Degree," "Most Excellent," "The Highest Perfect, etc." That means there can be positively nothing better than the "Best," though in present day times there seems to be a constant struggle to claim for goods that they are much better than "The Best."

It is ever the aim of this store to deal in "The Best." All the hair used is bought by our special European agent, who takes care to buy none but "The Best." All the workmanship put into the articles here is "The Best." and the fashioning and artistic taste and knowledge is undoubtedly Canada's "Best."
