**MURDERS IN CHICAGO AVERAGE ONE A DAY**

Chicago, Nov. 10.—In addressing the Chicago Association of Commerce, Edwin W. Sims, president of the Chicago Crime Commission, and former United States district attorney, declared that Chicago, with its population of 3,000,000, has more murders in a year than England, Scotland and Wales, with their 40,000,000 people.

He said last year the murders in Chicago averaged one a day.

"Crime in this city is as highly organized as a mail order business," said Mr. Sims. "There is not a police captain in the city today who, backed up by the prosecuting authorities and the courts, cannot reduce crime in his precinct 50 per cent in thirty days if he wants to. Crime conditions in Chicago are appalling."

A nugget of gold weighing more than three pounds and worth about \$1,000, has been found near Oroville, Calif., by a nucker in the employ of Stone & Webster, contractors for the construction of the Caribou power plant of the Great Western Power Company.

**GUM DECAY CAUSES TOOTH DECAY**

Healthy teeth need healthy gums to hug them. Else they will loosen in Pyorrhea. Tiny openings will come in the gums to act as the gateways of disease germs, which infect the joints or tonsils, or cause other ailments.

Forhan's prevents Pyorrhea, if used in time and used consistently. No mere toothpaste does. Are your gums tender? Are they bleeding? Are they sore? If so, you are certain to have Pyorrhea (Riggs' Disease). Four out of five people who are over forty have it.

To you we earnestly recommend Forhan's. It preserves the gums which hold the teeth secure.

Brush your teeth with it. Forhan's cleans the teeth scientifically—keeps them white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment.

Former Professor at Columbia University Drowns Himself—Had Been in Sanitarium

Stamford, Conn., Nov. 10.—Charles William Weick, 55 years old, a patient at the Stamford Hall Sanitarium and until recently a professor at Columbia University, in the School of Arts, committed suicide by drowning himself in a well adjoining the home of Frederick M. Wheeler of Den road.

No other person was near the place when Prof. Weick, throwing off his hat which was found a few feet from the well, jumped into it. Two hours later his body was recovered. As the water was only five feet deep and he was six feet three inches in height, apparently he had held his head in the water.

Prof. Weick came to the Wheeler home Wednesday at 2 a. m. He succeeded in arousing the family by rapping

loudly on a window. At that time, despite the cold weather, he had no coat. He told Mr. Wheeler that some one had stolen his coat, that he was a professor in Columbia University and that his wife was living in New York. His money had also been stolen, he said, and he could not get out of the city. Believing his story the owner of the house made him comfortable.

Mr. Wheeler offered him money for fare to New York, but he refused it. He spent all day Tuesday and Wednesday writing letters to his wife and daughter and reading papers. The Wheeler family did not notice anything queer about the man. When Mr. Wheeler came home at 7 p. m. from his duties, he found a note on the kitchen table thanking him for his kindness. Underneath the signature was scrawled, "in the well."

It was stated at the sanitarium that Prof. Weick had been a patient there for 14 months, suffering from depression due to overwork. In some unexplainable manner he escaped from the place.
