**Liniment Found to Be Powerful Germicide**  
Originally, Absorbine Jr. was sold only as a pain reliever and an embrocation. It was quickly discovered that the liniment was positive death to all forms of germ life, and it is now used as a mouth wash, for wound dressing and for all disinfecting purposes.  
Another surprise was yet in store. A Wm. Pratt of Springfield, Mass., applied Absorbine Jr. to a varicose vein to relieve the intense pain. Not only did the pain leave, but he noticed every day the swollen vein becoming smaller. The treatment was kept up and, today, Mr. Pratt's legs, though he has never used anything else on them, are as smooth as when he was a boy. It has now been proved that Absorbine Jr. is an actual specific for varicose veins, leg ulcers, boils, pyorrhea and a number of other ailments and injuries besides that for which it was first prepared. Nothing serves so many every day purposes and nothing is better entitled to its place in every home. When it is needed, it will be needed in a hurry. Don't wait for someone to be hurt. Get it at your druggist's today. \$1.25 everywhere.

## Old Clothes, A Hammock And A Pipe

Where are you going to spend your vacation? How about a summer cottage on some placid silver lake—or some old farmhouse where you can wear your old clothes and lazy around in a hammock with your pipe and a good book?

If these ideas appeal to you, it will be worth your while to read the want ads in The Times-Star.

You'll find notices of summer cottages for rent, of accommodations at farmhouses and other advertisements of interest to the vacationist.

## TO FOCUS THOUGHT ON MAGNA CHARTA

Appeal Circulated to Observe Third Sunday in June as Liberty Day.

An appeal has been sent out for the general observance of the third Sunday in June as "Liberty Day" to commemorate the signing of Magna Charta at Runnymede on June 15, 1215, which was virtually the recognition of the great principle of individual freedom as now known as English speaking peoples the world over. Last year, it is stated, there were 30,000 churches, Sunday schools and newspapers that observed the day and it is hoped that this year there will be at least 80,000. The movement for this annual observance was started 14 years ago by J. W. Hamilton, of St. Paul, Minn., who is the founder, executive secretary and treasurer of the International Magna Charta Day Association. Membership in the association is open to every man, woman and child of the British Isles, United States, Canada, Newfoundland, South Africa, Australia and New Zealand and to those residing in other countries. There is no fee for membership and the only obligation entailed is that the member shall take time on Magna Charta Sunday to think of what the great charter has gone for liberty and to speak of the day to others. The president of the association is Rev. William J. Johnstone, D. D., L. D. The association is urging that the field of Runnymede be placed in charge of a national trust and that a temple of liberty be erected there with stones contributed from all parts of the seven nations. It has been said of Magna Charta that "to have produced it, to have maintained it, to have preserved it constitute the immortal claim of England upon the esteem of mankind." The association in urging commemoration of the day on which it was signed has in mind the essential and actual solidarity of the seven countries. The unity of the seven nations is held to be something inherent in the race and British and American friendship to be the greatest asset left to civilization today. C. W. Romans, who is most actively interested in the local observance of Magna Charta Day, has sent requests to clergymen in the city asking for pulp reference and is himself conducting a campaign on behalf of the commemoration of the anniversary.

## ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain—How to Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well. Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Not all Englishmen drop their "h's," of course. To many of them such clipped words as "out" and "orse" sound as unpleasant as they do to us. The story is told that on one occasion a case having to do with a horse was being tried before Justice Darling and the plaintiff's attorney kept referring to the animal as a "horse." Justice Darling stood it as long as he could, then he said: "Mr. X,

was the animal a large horse or a little one?"

"Oh, a little one, my lord."

"Then Mr. X, for the remainder of the case let us call it a pony."—Boston Transcript.
