

BIBLE CLASS.

The Bible Class under the teaching of our esteemed Pastor continues its good work. The subject of study for the first part of the year was international Sunday School lessons, but since the resuming of the Class after the summer holidays Mr. Murray has taken the shorter catechism as a text-book, and the lessons from it have been deeply interesting and cannot fail to be of spiritual benefit to the young men and women availing themselves of the instruction to be derived from a study of them. The attendance keeps steadily increasing, so much so, that just before the Christmas holidays we had decided to adjourn up-stairs to the body of the Church, as the room was crowded to its utmost capacity. The attendance of young ladies has always been good, but we are sorry to state that comparatively few of our young men avail themselves of the privilege of attending the class. The collections for the period during which the class has been held is \$48.43, which is to be applied to the schemes of the Church
