T. G. FLEWELLING,

Teacher of the **TRINITARY SYSTEM OF MUSIC,**

148 James St., Hamilton, Ont.

This new system for learning the piano or organ as taught by us, is a scientific course, differing from the ordinary methods because they have no governing rules. This theory has all the facts in music reduced to a system. It brings all the points of theory, principle and practice before the learner that he can tell when right or wrong. There is nothing like it for quick learning. It gives all the signs in music and the rules to govern them; and answers all questions correctly. It saves easily one-half of the time of any other process, is easy to learn and to teach. True because systematic. We want smart young men and women to study and teach this new and beautiful system. It has no rival to fear. We have 3 studies for the key board that explains it all.

We have 3 studies for the book that explains any composition. We have 3 answers to every question that tells the whole story. We have sufficient faith in our new discovery and copyright to offer \$100 to any person who will name any other plan so concise or perfect. Catechism 50 cents mailed free. Send for circulars. Can teach by correspondence.

T. G. FLEWELLING.
