

WEEKLY WEATHER SYNOPSIS.

Victoria Meteorological Office.

July 11th to 17th, 1906.

The regular type of summer weather on the Pacific Coast has continued throughout the week; the barometric pressure being moderately high on the coast from California to British Columbia, and a vast area of low pressure overlying the Rocky Mountains region from Alberta to Arizona, and the adjacent southern states. Excepting thunder showers at Barkerville and light rain at Simpson and further north at Dawson and Atlin there has been no rainfall in this province. Temperatures have for the most part been above the normal, and in the Kootenays, the American plateau lands and in the Californian valleys the heat has again been excessive. This warm spell caused numerous thunderstorms during the week, of which two were in the province, seven in the Pacific states, and four in the Northwest. Winds have been for the most part light and calm, and occurred on two days along the coast. A heavy rain occurred at the Strait of Juan de Fuca, but the continuance of the present dry weather will undoubtedly cause them to be more frequent. East of the Rockies the weather towards the close of the week became cooler and more unsettled, and showers have been frequent.

At Victoria, there were 57 hours and 18 minutes of bright sunshine recorded, a daily average of 12 hours; the highest temperature was 55.6 on 12th; and lowest, 53.0 on 11th; no rain.

At Vancouver—Highest, 59.0 on 13th; lowest, 53.0 on 18th; no rain.

At Dawson—Highest, 80 on 12th; lowest, 50 on 11th; rain, 0.08 inch.

MEN RULE BY FORCE, WOMEN BY CHARM.

And yet because they live less strenuously, women neglect the early evidence of failing vigor.

The wise woman will not permit her charms to be robbed of their health. When she feels appetite failing, nerves getting on edge, color fading, she takes Ferrozone. How it sharpens the appetite. How quickly rich blood is available to restore color to the cheeks, buoyancy to the step.

Don't be debared from strength and spirit, don't give in to illness and despair. Ferrozone supplies tone and vigor through which all functions of womanly life are maintained and fortified.

From New Richmond, Que., comes the following statement of Mrs. Isabelle Bouscassat: "I take deep pleasure in testifying to the powerful influence of Ferrozone. For years my daughter had been pale and sickly—showed signs of advanced anaemia. Her lips got so white and her cheeks so devoid of color I feared consumption. I can certify Ferrozone made an excellent cure, and to-day my daughter's health is the best."

The mountains of misery can be saved by using Ferrozone, promptly, 50¢ a box, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

An excursion was held on Monday under the auspices of the Epworth League of the Methodist Episcopal Church. The City of Nanaimo left the C. P. R. wharf at 8 o'clock and circled the Equinault harbor once and around the Rocky Mountains region, and a very pleasant time spent by all in attendance.
