

ARE DETAINED

and Steerage Passengers of the China Must Remain in Quarantine.

ner May Be Towed to Vancouver After Being Thoroughly Fumigated.

Empress of China is still in quarantine and is liable to remain there at least two weeks. Dr. Watt, superintendent of quarantine, has decided in view of the fact that there are well developed cases of smallpox on all the passengers, every cabin stowage, as well as every member of the crew of the ship, must remain in quarantine for two weeks.

Interview With an English Volunteer Who Witnessed the Frightful Stampede.

London, April 30.—The Times this morning publishes an interview with an English volunteer who witnessed the stampede of the Greeks from Tyrnavos to Larissa, Pharsalos and Volo. After describing the horrors of this retreat the volunteer continues:

forces at Janina to remain on the defence until they are reinforced or ordered to co-operate in Thessaly. Although there is no good reason to believe Bulgaria and Serbia will disturb the peace, the Turkish government is studying a plan of campaign to be followed in the event of Bulgarian and Serbian aggression. It is rumored that a large force of Turkish troops are being quietly gathered at Smyrna with a view of landing in Crete to expel Col. Vaasso.

Athens, April 30.—The courage of the Greek army is reviving. Crown Prince Constantine is visiting the various camps and inspiring confidence, and hope is general. Mavromichali, late chief of the Greek staff, has left the Greek camp and is returning to Athens. In Trochada the Greeks have two battalions of infantry, several batteries of artillery, and a squadron of cavalry. The Turkish authorities are striving to prevent excesses by the Turkish soldiers in the towns. The Turks have destroyed six guns found at Larissa.

Constantinople, April 30.—The report that Osman Pasha is on his way to Janina, Ephesus, with 30,000 additional troops, is confirmed.

Athens, April 30.—The headquarters staff of the Greek army Pharsalos have been completely changed. Gen. Macris and Col. Saponatsakis, Mitrakis and Antonides have resigned and started for Athens.

St. Petersburg, April 30.—Count Muraviev, Russian minister of foreign affairs, and Count Goluchowski, Austrian minister of foreign affairs, have dispatched an identical note from Russian and Austrian representatives to Bulgaria, Serbia, Rumania, Bucharest, Roumania and Cetinje, Montenegro, expressing the satisfaction of the correct attitude which the government of these countries presented during the present crisis, adding that this attitude harmonizes all the more with the wishes of the two sovereigns, the Czar and Emperor Francis Joseph, as they are firmly determined to uphold universal peace and the principle of the status quo.

Alexandria, Egypt, April 30.—Four hundred Greek volunteers sailed today for Athens, and a thousand more leave for the Greek capital to-morrow by special steamer.

Constantinople, April 30.—The Turkish government has issued the following announcement: "So far from being repulsed, we have reached the depot line. There the Englishmen left me, wishing me good luck. Under the circumstances I had good luck indeed. Displayed as I was in succeeding in entering a train."

London, April 30.—The Home correspondent of the Daily Chronicle says that the Italian foreign office in Greece has privately addressed France, England and Russia for the purpose of enforcing mediation between the belligerents.

London, April 30.—The Daily Telegraph's correspondent at Athens has an interview with M. Deligoris, during which he says that no medicine which she had ever used was "much good."

of the Associated Press at Larissa with the Turkish says that on arrival of the Turkish troops they saved all the guns of the fortress intact, and obtained possession of immense quantities of ammunition of all kinds.

The abandonment of such a strong position is incomprehensible. News of the occupation of Volo by the Turkish forces is momentarily expected here. "Eleven more Greek canoes" the correspondent adds, "were found along the road south of Larissa."

A Jew just arrived at Larissa from Volo says that the place is deserted. All is quiet here, most of the Jews having returned to Larissa.

Two battalions of Turkish infantry are guarding the railroad station at Larissa, where I found the remains of the hospital stores which had been abandoned by the Greeks at the last moment. The inhabitants of Larissa say the Greeks seized all the horses and carriages. Even the local newspaper men fled on foot.

Many amusing scenes were witnessed in Larissa this morning. For instance, I met an ugly Turkish soldier, suborned and dully, solemnly parading the road under a fine lady's parasol, which he had picked up on the road.

Some of the residents still remain hidden, and the same is the case with some of the Greek officers. All of the latter who were made prisoners are paroled.

London, April 30.—The evening news publishes a dispatch from Constantinople dated to-day, which says that a Turkish battery occupied Volo yesterday evening. The dispatch adds that ten days delay has been granted Greeks who are desirous of leaving Constantinople.

Truth is a Necessity. Impure blood is the natural result of close confinement in house, school, or shop. Blood is purified by Hood's Sarsaparilla, and all the disagreeable results of impure blood disappear with the use of this medicine.

If you wish to feel well, keep your blood pure with Hood's Sarsaparilla. HOOD'S PILLS are the best family cathartic and liver medicine. Gentle, reliable, sure.

THE TRANSVAAL RAID.

Hon. Joseph Chamberlain Makes a Very Explicit Statement.

London, April 30.—The parliamentary committee which has been inquiring into the Transvaal raid resumed its sittings today in the committee room at Westminster Hall. The secretary of state for the colonies, Hon. Joseph Chamberlain, made a statement under oath, declaring in the most explicit manner that neither himself nor colleagues in the Colonial office had, until the day before the raid, the slightest suspicion of anything in the nature of an armed invasion of the Transvaal.

Rutherford Harris made a long statement of his distant connection with the movements in the Transvaal, and then, amid most intense interest, Mr. Chamberlain reviewed the evidence preceding the raid and concluded with making the statement under oath as already cited.

The Best Remedy for Rheumatism. From the Fairhaven, N.Y., Register. Mr. James Rowland, of this village, states that for twenty-five years his wife had been a sufferer from rheumatism. A few nights ago she was in such pain that she was nearly crazy. She sent Mr. Rowland for the doctor, but he had read of Chamberlain's Pain Balm and instead of going for the physician he went to the store and procured a bottle of it. His wife did not approve of Mr. Rowland's purchase at first, but on the next morning she was thoroughly and in an hour's time was able to go to sleep. She now applies it whenever she feels an ache or a pain and finds that it always gives relief. He says that no medicine which she had ever used was "much good."

SALISBURY SAYS NO.

Won't Consent to Open up the Behring Sea Fisheries Dispute Again.

London, April 30.—The foreign office has mailed the reply of the Marquis of Salisbury in answer to a request from Washington for a re-inquiry into the Behring Sea fisheries dispute. It is reported that the British premier's reply is in the negative, on the ground of expense. Washington asked for a prompt reply, which was hurriedly drawn up and dispatched this week.

Throat Trouble's Cured.

"I used Dr. Chase's Syrup of Limesed and Turpentine for severe throat trouble," writes Mrs. Hopkins, of 254 Barbara street, Toronto. "It proved most effective. I regard it as one of the best household remedies there is. It is easy and pleasant to take and drives out the cold with surprising celerity."

TUPPER AND THE TARIFF

Sir Charles is Extremely Solicitous About Guarding Great Britain's Interests

Conservatives to Move That England Be Requested to Impose Duties Favoring Canada.

Resignation of F. C. Gamble—Roy in Charge Temporarily—A Divorce Case.

Ottawa, April 30.—At an opposition caucus held this afternoon a large number of Conservatives were present. They decided not to move any amendment to the main resolution, but to move in committee an amendment providing that the preferential offer should be confined to Great Britain, and that something should be given to Canada in return for this concession. Sir Charles Tupper has already declared that the offer was wholly unconstitutional, and such an amendment will now look ridiculous. The resolution will also say that the Conservatives have always been in favor of preferential trade.

F. C. Gamble, engineer of public works in British Columbia, has resigned, and Mr. Roy, now at New Westminster, has taken charge temporarily. The divorce committee of the senate reported, after hearing the evidence, today to the Senate of granting it divorce to Estelle Lowry, of Hamilton.

The officials of the customs department were busy yesterday sending out instructions to collectors in connection with importing goods from Britain. The officials of the customs department with each entry that goods are the growth, product, or manufacture of British or Ireland. It is necessary for shippers of British goods to Canada to attach a certificate of origin to their shipments en route to Canada, the department will be disposed to allow collectors some discretion and will put a liberal interpretation upon the regulation, but when this requirement is fully known the rule will have to be strictly enforced.

Mr. Fielding announced that the preferential clause only applied to the Dominion of British Columbia. Halifax, April 29.—The opposition in Nova Scotia is now reduced to three members. The re-count held in Lunenburg resulted in Church, commissioner of works, being declared elected by three votes.

Toronto, April 29.—A special car, with twenty-eight railroad conductors from various parts of the Ontario division of the Canadian Pacific and Grand Trunk, left this morning for Los Angeles, California, to attend the annual meeting of the conductors of that city. The trip out will be made over the C.P.R., and the return through the United States.

Ottawa, May 1.—The governor-general has received a cable that the Imperial prize hitherto confined to the regular service is this year thrown open at Bixley to all branches of the naval and military services. Certificates of military instruction in cavalry of infantry, obtained prior to December 31, 1896, at military schools or from boards of officers will, for purposes of appointment or promotion, be considered as having lapsed.

"As the question has arisen as to whether or not mineral rights in the Sumpas dyking lands passed to the province by surface rights, an order in council has been passed stating that the transfer made to British Columbia of the Sumpas dyking lands by an order in council on October 17, 1888, at military schools or from boards of officers will, for purposes of appointment or promotion, be considered as having lapsed.

Not one in twenty are free from ailment caused by some little infection of the liver. The liver is the most important organ of the body, and its health is of the greatest importance. It is the source of life, and its failure is the cause of many diseases. It is the source of life, and its failure is the cause of many diseases. It is the source of life, and its failure is the cause of many diseases.

MATT JENNER DROWNED.

Poor Matt Jenner has come to his end at last after a varied and interesting life. He was a native of Ontario, and had been in California and British Columbia, the brave old man being drowned in yesterday's storm.

Matt Jenner left this city Saturday in a sailing boat for a visit to Pender Island, intending to return Monday. It was a brave feat, indeed, that would attempt to cross the gulf in an open boat in yesterday's storm, but this old man must have essayed to do so.

Yesterday afternoon a sail boat was seen in Blain harbor trying to make the shore. The wind was fierce and the sea running high, and some distance from land the boat capsized. Its sole occupant was an old man, who was clinging to the keel. Four times he was washed off, and as many times he regained his hold, but at last his strength failed and he sank. Attempts were made to launch a boat, but failed, owing to the surf and the frailty of the boat.

Subsequently both the body and the overturned boat were cast ashore. There were none to recognize the man, but in one of the pockets was found a bill head of G. Adams, grocer, of this city. This was a bill dated Saturday last, and was a memo of goods purchased at the store, the name of Matt Jenner appearing at the top. Mr. Adams was communicated with by telephone this morning and he at once decided that the drowned man was none other than old man Jenner.

The coroner at Whetson has the body in charge, and it is not known at present what disposal will be made of it. The deceased, who was aged about 70 years, was a native of Ontario, and came to this country in '59 from California to the gold fields of Cariboo. Of late years the old man had been steadily engaged in the last three years in fishing on the Fraser—Columbian.

Empress of China, and urged the strict enforcement of quarantine regulations. Mr. Fisher said every precaution will be taken to prevent the spread of the disease.

Senator Macdonald's bill to make May 24 a perpetual holiday uniformly passed its second reading in the senate.

To use the present stock of Snider ammunition the militia department will issue it free to regimental and other rifle associations, six rounds for each man. Customs officials have been instructed as follows: That no bituminous coal, slack or dust may be entered at 20 per cent, where there is a mixture of larger sizes of more than 5 per cent, no duty is to be collected on bags in which fire corn is imported.

The government has notified James Fisher, M.P.P., of Winnipeg, that the government expedition to Hudson's Bay will sail about May 20th, and he is to at once make preparations for the trip. Mr. Fisher is to accompany the expedition as representative of the Manitoba government.

Sergeant Major Williams, Sergeant A. S. Brown and Sergeant Snider have been selected from A troop, Manitoba dragoons, Portage la Prairie, to represent the troop in the Jubilee regiment.

There is much amusement in official circles here over the Dublin Nation's "warning" against immigration to Manitoba, as called from Dublin last night and appearing in the morning newspapers. The Nation warns the clergy and people of Ireland against what it characterizes as a nefarious scheme in Canada to induce Irish immigrants to settle in Manitoba, two immigration commissioners, it says, have been sent to reside permanently in Dublin and Belfast. Both of these are Catholics, because being of that faith they will be more likely to facilitate the scheme.

How many people are ashamed to go into company on account of a foul-smelling breath, caused from catarrh or cold in the head? They would study their own interests they would soon have sweet breath like their neighbors. There is one sure cure for catarrh and that is Dr. Chase's Catarrh Cure. Give one hour through the bowels, and you get immediate relief. Price, including blower, 25 cents.

THAT RIOT IN SHANGHAI.

Further Particulars Received by Steamer at Tacoma.

Tacoma, April 30.—The following Chinese riot has been received here. At Shanghai, on April 5th, one thousand striking coolies precipitated a riot and started to burn the city and assault the local militia. The civic authorities called on the volunteer militia, the number of 5,000 and signalled several warships in the harbor to send marines ashore. Very promptly parties were landed from the British warships Linnet and Plover, and from the United States ship Monocacy. Heavy guards were posted at the British and American consulates, the central police station and other important posts, while volunteers hurried to the scene to assist in the rioting. The fire companies of infantry assigned guard of the bridges. The Light Horse Cavalry Company rendered valuable aid in patrolling, and the artillery company drew up guns on the cathedral ramparts. The prompt action of the authorities alarmed the rioting coolies, who made one attempt to force in the line in the face of the marines and volunteers. One volley directed at the shins caused them to flee, leaving several wounded in the streets. The fire companies were kept busy all night extinguishing the fires set by the rioters. The strike was occasioned by an increase in the taxes imposed on the industry by the Shanghai municipality. The coolies were urged to resist by several Chinese agitators, who declared they could win by holding out.

Not one in twenty are free from ailment caused by some little infection of the liver. The liver is the most important organ of the body, and its health is of the greatest importance. It is the source of life, and its failure is the cause of many diseases.

THE POOR REMEMBERED.

Tenants of London Slums Will Rejoice on June 22nd.

London, May 1.—The Princes of Wales has written the Lord Mayor of London pointing out that in the schemes to commemorate the Diamond Jubilee in June, the poorest of the poor, the tenants of the London slums, have been overlooked. She says: "Might I plead that they also might share in the fetes of that blessed day, and so remember to the end of their lives that great and good Queen, whose reign, by the blessing of God, has been prolonged for 60 years. Let us therefore provide these unfortunate ones, these beggars and outcasts, with a dinner or some substantial meal during the week of jubilee commemoration. I have great pleasure in heading a subscription list for that purpose with £100."

GREECE NOT YET VANQUISHED.

Turks Defeated With Great Loss in a Fierce Fight at Velestino.

A Map that the Turks are preparing to Be

Every Able-Bodied Greek To Be Called Upon to Fight for His Country.

Athens, May 1.—Dispatches from Pharsalos, headquarters of the Greek army in Thessaly, give further particulars of the recent fighting between the Turks and Greeks at Velestino, 10 miles west of Volo, at the junction of the railroad connecting Volo with Larissa and Pharsalos.

The Turkish attacking force consisted of 8,000 infantry, 600 cavalry and 13 guns. The charges of the Turkish cavalry were firmly withstood by Greeks posted on Karnavasa hill. The entire Turkish regiment was decimated.

Four Turkish companies which attempted to charge were received with the combined rifle and shrapnel fire which moved down several hundred. The Greek irregulars co-operated with the regulars. Fifty Greeks were killed and five subalterns wounded.

A detachment of Turkish cavalry from Larissa approached the railway between Pharsalos and Domokos, which down is about ten miles south of Charsalos in the Greek rear. The Greek artillery opened fire upon the enemies' cavalry at long range, and after a heavy cannonading forced the Turks to retire, the Greek cavalry pursuing them.

The Turkish commander apparently wished to surprise the Greeks at Pharsalos and sent two army corps against them, one from Trikalis, the other from Larissa.

Athens, April 1.—It is reported here that Col. Vaasso is about to be recalled from the island of Crete.

London, April 1.—A dispatch to the Evening News from Athens says that M. Theotokis took the oath as minister of the interior yesterday evening and left the cabinet with the minister of war, Col. Tsamados, for Pharsalos, headquarters of the Greek army, where, it is reported, the Greek troops have repulsed a heavy attack.

Athens, May 1.—The Turks are preparing to besiege Arta.

London, May 1.—A dispatch from Athens says M. Ralli, the new Greek prime minister, has announced his intention of calling to arms every able-bodied Greek.

Candia, Crete, May 1.—The Italian and British admirals have arrived here to confer with the insurgent leaders.

CONSUMPTION CURED.
