The reception in the Province building last Friday evening, was a success, despite the rain which fell heavily but steadily throughout. There were excellent decorations, flowers, ferns, beautiful palms from the N. S. Nursery, and Brander & Morie, under the superintendence of their foreman, M. Bowler, had done wonders in decorations with brief time at their disposal to arrange and supplement the up-holding to the greatest advantage. The entrance, steps and vestibule, and all the way to the Council Chamber were carpeted with red drapery, and the sides walked in with shrubbery and flowers. There were at least 400 visitors including many United States tourists. The scene was brilliant, interspersed with so many military uniforms. The invitation was to all who chose to come and thus to pay their respects to the Vice-Royal party, the only limitation being full uniform or evening dress for gentlemen, and evening dress for ladies.

Lord William Seymour entertained the visitors at dinner Monday evening. The following were present:

## "May good digestion wait on appetite and health on both."

That sentence from Shakespeare is a genuine benediction of the body. In this as in so many other things the intuition of his mighty mind seems to have foretold the facts which science has slowly discovered and is now making known. Science has shown that disease in any part of the body is almost always accompanied by weakness and failure of the digestive and assimilative organs. Under these conditions the stomach, liver and bowels fail in their appointed work. The result is a "dyspepsia" or "indigestion" which is the forerunner of disease. It is often in organs apparently remote from the real cause. Vitality is lowered. There is a dull and aching feeling often accompanied by headache. The heart may seem affected. There may be lack of ambition and energy with mental depression. With such symptoms as these "delay is dangerous." Such a condition affords the favorite starting point for consumption. It is useless to "doctor" for the symptoms. The remedy that reaches the cause must reach the cause of disease. The greatest medicine for all diseases of the stomach and other digestive and nutritive organs is Dr. Pierce's Golden Medical Discovery. It restores the appetite, re-establishes a sound digestion, purges out the bilious poisons which infect the blood, carries off waste and builds up sound and healthy tissues. The "Discovery" is a stimulant. It contains no alcohol or whisky. No other medicine has so great a record of cures, therefore accept no substitute.

Dr. Pierce's Pellets cure constipation.

Fisher has been leased by Captain Davidson an English Gentleman who is going to make Fredericton his home; Captain Davidson and wife are expected next week.

The marriageable ex-captain of Queens ward having returned from a pleasant visit to F. E. I. his square epistles are noticeable now as having the Charlotteville post mark, the date is not publicly announced.

It is said that a charming lady of the Winter Port residing on Queen street may before winter close her white robes make the old city her permanent home, she visited here last autumn.

Pleasant happenings are down for September. A popular young lady on Brunswick street will shortly be led to the altar, and then to Carleton county her future home.

Another lady on same street, West End, will also change her name; she goes to "London."

Brunswick street seems to be a favorite place for cupid for the name of another young lady on that street is coupled with that of a prosperous young merchant from Stanley.

The Misses Beverly and Miss Black are touring in the upper provinces taking in Quebec, Montreal, Ottawa, Toronto and Niagara Falls.
