THE WEATHER

Toronto, August 19.—The shallow depression which for some days has been over the Great Lakes has passed to the St. Lawrence Valley and quite an important disturbance is now moving eastward across Manitoba.

The weather today has been showery from Eastern Ontario to the Maritime Provinces, and fine in other parts of the Dominion.

FINDS SIBERIANS DISTRUST AMERICA

Phil Norton Declares That States Are Unpopular With All Classes.

BLAMES BROKEN PROMISES

Acting Director of Information Committee Sees Japan Penetrating Country Economically.

The United States was the most popular of all nations with the Siberians when we entered Siberia in the first place after joining the Allies but this country is not hated and ridiculed from Ekaterinburg to Vladivostok, according to Phil Norton, acting director of the Russian Division of the Committee on Public Information, who arrived in New York recently from Siberia.

The United States is unpopular for a variety of reasons, which include curiously accidents and anti-American propaganda, but mainly because Americans made great promises and preparations to benefit Siberia and then did practically nothing to fulfill Siberian expectations, Mr. Norton said.

At present, Mr. Norton asserted, Japan is penetrating every corner of Siberia economically and obtaining such control facilities that, if American business is inactive another year, American firms will find difficulty in doing business in Siberia except through Japanese intermediaries.

The people of Siberia were so enthusiastic about America, when our representatives first entered the country," he said, "and such big demonstrations took place in their honor that the other Allies became jealous. This popularity was lost through a series of mistakes and accidents and turned into indignation and dislike by propaganda of promises to the people of Siberia, followed by our apparent abandonment of our good intentions toward them."

Resented Prinkipo Plan

"The world that this country had taken the lead in inviting the Bolsheviks to negotiate at Prinkipo caused a wave of indignation from one end of Siberia to another. The non-Bolsheviks looked on the Bolsheviks as murderers and worse, and revolted at the idea of treating with them. As a matter of fact, the Bolsheviks are worse than they are painted in the most sensational accounts you have received in this country. So far from there being any exaggeration of Bolshevik horrors, no writer has in his most sensational descriptions been able to equal the reality. America has been under suspicion from the time the Prinkipo plan was suggested, and this has been deepened by the absence of any clear-cut policy since then."

Psychology Misperceived

Lack of appreciation of Russian psychology attended nearly every move on the part of this country, Mr. Norton said, so that, while aiming only to serve and help Russia, the American program accomplished nothing except to injure America in the esteem of the Siberians. "For instance," he said, "a large issue of roubles was printed in this country for the benefit of the Kolchak government. But a switch in our policy occurred and when the roubles arrived they were not allowed to leave the steamer. This was taken as a fresh repudiation of the Kolchak government. After a long delay the money was finally allowed to enter. Now this occurred I don't know, but

War Trade Board

None of these promises was ever fulfilled. "We were going to feed and clothe every man, woman and child in Siberia, according to American promises. Then the War Trade Board went out of existence, with nothing done."

"Such promises by individuals might not have caused so much damage, but the War Trade Board officially asked the Committee on Public Information to get data on the needs of the multitude of villages in Siberia, in the way of clothing and other necessities. This was laboriously gathered by the Russians at our request and transmitted to the Publicity Committee, but by the time the data were received the War Trade Board had gone out of business and had no use for the figures. The Committee on Public Information in Siberia was kept busy from then on, explaining why they took such information, if they didn't want to do anything with it."

Suspicious of Our Policy

"It is difficult to understand how thoroughly the Japanese are laying the foundation for their future in Siberia. They have purchased municipal utilities, pretentious buildings, power sites, mines and other sources of wealth. Their buyers and observers are everywhere in Siberia, carrying on a marvellous propaganda, which is winning the favor of the Siberians for Japan in spite of the fact that Siberians fear her. They have made false steps in some cases in flooding the country with inferior goods and in obtaining titles to public utilities, land and mines in these unsettled times by methods which many of the far-sighted Japanese deplore."

HER LITTLE GIRL HAD DYSENTERY

Bowels Moved as Many as 25 Times a Day.

Dysentery manifests itself with varying degrees of intensity, but in well marked cases the attack is commonly preceded by some amount of diarrhoea, which gradually increases in severity and is accompanied with gripping pains in the abdomen. The discharge from the bowels succeeded each other with great frequency, and the matter passed from the bowels which at first resembles those of ordinary diarrhoea, soon change their character, becoming scanty, mucous or slimy, and subsequently mixed with, or consisting wholly of blood. Never neglect what at first appears to be a slight attack of diarrhoea or dysentery may not in cure the first symptoms by the use of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Jno. V. Tanton, R. R. No. 3, Warford, Ont., writes:—"My daughter was taken down, two years ago, with dysentery, and I could find no help for her until I got a bottle of Dr. Fowler's Extract of Wild Strawberry. She was only two years old, and ate something different to what she was used to. She had as many as twenty-five movements a day, and mostly blood. We had the doctor several times, but no relief came until we used 'Dr. Fowler's.' I would not be without it in the house for a good bill."

But a switch in our policy occurred and when the roubles arrived they were not allowed to leave the steamer. This was taken as a fresh repudiation of the Kolchak government. After a long delay the money was finally allowed to enter. Now this occurred I don't know, but

Common Council Met Yesterday

The Stand Erected at Reed's Point Given to Improvement Leagues—Voted Money to Pay Celebration Bills—Firemen Present Claims.

The City Council met yesterday, gave the children's stand at Reed's Point to the East and West End Improvement Leagues, and voted money to pay some supplementary bills in connection with last week's celebration.

A communication was received from the Fire Fighters' Union asking leave to send a delegation before the council to present claims for improved conditions and more pay.

Commissioner Jones moved that the council be notified that the council would receive a delegation.

Com. Fisher—I think the communication should have come through the commissioner of safety.

Com. Jones withdrew his motion and the matter was referred to Com. Thornton with the understanding that all the commissioners should attend when the fire-fighters presented their case for more pay.

E. A. Davidson wrote that the Motor Agency and Repair Company wished to erect a gasoline tank at 69 City Road; referred to Commissioner of Safety.

Com. Bullock said he had applications from the West Side Improvement League and East End Improvement League for the stand erected at Reed's Point for the school children. The value of the material was about \$400, and it would cost \$100 to remove it.

Com. Jones said the South End Improvement League should have its share of the stand.

Com. Fisher said the leagues could no doubt utilize the material for stands and shelters, but he thought they should take care that any benches erected were entirely free to the public.

Com. Bullock said he had no objection to giving every part of the city a fair deal, but the structure was said to be too small to divide in thirds. The East End League said they would not take anything less than half. If they could not come to an agreement the stand would be torn down by the city, and the material reserved for city use.

The mayor said they had made considerable grants to both the West and South End Leagues, but had given no money to the East End.

Com. Fisher—The public works department have given the East End assistance in getting their grounds in shape; value about \$150.

Com. Jones said there was no justice or fair play in leaving out the South End.

Com. Bullock—If Com. Thornton was here he would be putting up a strong claim for the North End, but to divide it in four would be no good.

Com. Bullock's motion to divide the stand between the West and East End was carried, the leagues removing it at their expense.

A communication was received from Moncton asking the city to authorize a visit of St. John firemen to that city on Labor Day; referred to commis-

BENSON'S Corn Starch

Pie Fillings!

A little Benson's Corn Starch should be introduced into juicy fruit pies, such as rhubarb, cherry, etc., to prevent running over.

Orange Cream Pie (see Recipe below) is not difficult to make and will prove a happy addition to your dessert recipes. Serve custards, blanc mange, sauces, gravies, cakes and puddings made with Benson's Corn Starch. Write for booklet.

PIE CRUST

Take 1/2 cup flour with 1/2 cup of Benson's Corn Starch, 1/2 cup water, 1/2 tablespoonful of salt, 1/2 cup cold water, 1/2 teaspoonful salt. Mix flour, corn starch, and baking powder in a bowl, add shortening, rub fine through flour, add last water and salt. Turn onto board, roll straight into smooth and use as desired.

ORANGE CREAM PIE

Place in saucpan over the fire, 1 tablespoonful Benson's Corn Starch, 1/2 cup water, 1/2 tablespoonful of sugar and 1/2 teaspoonful of Lily White Corn Syrup. Boil five minutes, 1/2 cup cold water, 1/2 teaspoonful salt, 1/2 cup cold water, 1/2 teaspoonful salt. Line greased pie pan with very thin pie crust, brush out with beaten egg, and sprinkle with bread crumbs. Pour in above mixture and bake in medium oven till crust is light brown.

Beat the whites of the eggs very, very stiff; add one table-spoonful of powdered sugar. Arrange by spoonfuls on top of pie and set in hot oven to brown a nice color. Serve cold.
