RHEUMATISM FOR OVER 16 YEARS

No Return of the Trouble Since Taking "Fruit-a-tives"

408 Church St., Montreal.
"I was a great sufferer from Rheumatism for over 16 years. I consulted specialists; took medicine; used lotions; but nothing did me good. Then I began to use 'Fruit-a-tives,' and in 16 days the pain was easier and the Rheumatism much better. Gradually, 'Fruit-a-tives' overcame my Rheumatism; and now, for five years, I have had no return of the trouble. I cordially recommend this fruit medicine to all sufferers."

Why Every Thinking man or woman simply cannot help but give this appeal their utmost practical support.

Never was there a time when such a movement was more vitally necessary than during the present state of unrest throughout the world.

Reason No. 1.

BECAUSE OF THEIR COURAGE, HEROISM AND MILITANT METHODS

Ordinary uneducated men, and weak, timid women, fired by a passionate desire to bring God to their suffering fellowmen, have been transformed into valiant soldiers. They have gone alone and undaunted where others' hearts have failed them—out into the streets, down into slums, into sordid dens of iniquity, vice, and disease, among the despised, the shunned, the outcast, and the fallen, where danger and death have threatened on every side.

Reason No. 3.

BECAUSE OF THEIR PRACTICAL GODLINESS AND CHEERFUL WILLINGNESS

The world was slow to believe that it was possible for consecrated Christians to have a religion which made them ready at all times to serve in the most humble way and yet keep them so happy that they could smile, and sing their songs, and play their bands, and clap their hands, and shout their hearty Hallelujahs. But the Salvationists have amply demonstrated the fact.

Reason No. 5.

BECAUSE OF THEIR WORLD-WIDE EXPERIENCE IN OVER 50 DIFFERENT DEPARTMENTS OF SERVICE COVERING A WIDE RANGE OF HUMAN NEED THEY HAVE BECOME AN INDUSTRIAL ASSET OF NATIONAL AND INTERNATIONAL IMPORTANCE

In the quick and compelling emergencies of war, famine, public catastrophe, and all other causes contributing to public and industrial unrest, as well as in the day to day routine of work in times of peace, the Salvation Army has proved itself beyond all expectations, an invaluable industrial asset, balance wheel and safety valve.

Five Good Reasons

The Sum Asked has purposely been limited to an amount so small that it can readily be subscribed out of the current earnings of any community without being burdensome to anybody. The public have come to know that the Salvation Army never appeals unless there is real need.

Reason No. 2.

BECAUSE OF THEIR HUMILITY AND PERSONAL SACRIFICE

Long ago there disappeared entirely all thought that Salvationists were in the Army merely for personal notoriety or gain. As transparent as noonday has their selflessness and sacrifice become. No duty too obscure, too hard, too humble, too despised—no sacrifice whether personal, or family, or of worldly prospects, too great, so long as they could serve and bless their fellowmen.

Reason No. 4.

BECAUSE OF THEIR ECONOMY, EFFICIENCY AND BUSINESS METHODS

The sacrificial basis of their service enables the Salvation Army to make one dollar suffice where others require two or three. Their methods are so efficient that they have emerged triumphant from the severest tests of men and events in all parts of the world. Every fundamental principle and protection of sound business administration is rigidly observed. Financial statements, audited by outside firms of recognized standing, are always available. For these and many other reasons the biggest business men, the most powerful governments and the public generally have implicit confidence in the honesty, integrity, and business ability of the Salvation Army.

Plans For A Modern Incinerator

A special conference was called yesterday afternoon of representatives of the City Council, the local Board of Health and the Provincial Health Department, to discuss the launching of a clean-up campaign in the city. The manner of disposing of the large quantity of refuse which would result after such a campaign was gone into at some length, and Commissioner Frink expressed the hope that yesterday's meeting would be the final one for such a purpose. One of his pet schemes,

he said, was the introduction of a large and modern incinerator in this city. The matter had been gone into by him at some length during his incumbency at City Hall in 1910, he added, when experts had been brought from Upper Canada, and plans drawn up by them were now on file at City Hall. They

in the city of Westmount, P. Q., and it was only the question of funds which had held the matter in abeyance so long. The plans called for the installation of the plant at Portland Point, at the foot of Portland street, in the North End.

A lively discussion followed Commissioner Frink's remarks. Dr. Warwick

LOSERS' POOR ALIBI
Manager Blamed for Defeat of American Hockey Team.

New York, May 14.—Failure of the American Olympic hockey team to defeat the Canadians for first place at Antwerp is alleged by Captain Joseph McCormick, leader of the team, to have been due to a mistake by the Canadian manager, who is said to have allowed the team to rest on the day of the final game.

McCormick stated that the team treated them badly, forcing the members of the team to live in a third-class hotel in Antwerp, while he himself stayed at a first-class hotel.

The ordinary drinking water found in Belgium did not agree with them, the members of the team wished to drink bottled water, but this was refused them by the manager.

When they applied for bicycles with which to keep their training, the manager refused them it is also said the team captain, Captain McCormick, said that the decision of the manager to destroy the morale of the team and injured its playing ability in the crucial contest.

SUSSEX WILL HAVE MODERN ATHLETIC FIELD

Senator Fowler and Citizens Taking Hold and Giving Splendid Support to Movement.

While St. John is talking about providing an athletic field for its boys and young men other places are getting ahead and providing the field in question to the boys for the first year free of charge, otherwise than they would have to pay the town taxes on the property.

Record says: "Through the generosity of Senator George W. Fowler, coupled with that of merchants and citizens of Sussex, our town will without a doubt, in the near future, be in possession of one of the finest and best equipped athletic fields in Canada."

Senator Fowler was approached a short time ago by a joint committee from the Sussex Amateur Athletic Association, G. W. V. A. and Boy Scouts in regard to leasing from him the tract of land adjoining "The Willows" to be used for athletic grounds.

Senator Fowler agreed to lease the ground at a very moderate figure and would himself subscribe yearly to the Athletic Association one-third of the sum asked for rental.

"During his visit to Sussex last week he went one better than that and, promising the field in question to the boys for the first year free of charge, otherwise than they would have to pay the town taxes on the property."

Doubtless women are all 100 per cent. long-sighted, yet, why is it that the great desideratum of a business office is always a man?

Having to feed a man and then suffer for his indigestion is the eternal punishment which Eve brought on woman the day she started the thing by giving the apple to Adam and letting him eat it.
