## A PAGE OF NEWS ABOUT THE MARITIME

### VERDICT EXPECTED TODAY IN STEEVES' CASE; EVIDENCE OF PRISONER ENDS THE DEFENCE.

Clara Steeves, Daughter of the Accused, Swears Mother Had Boarded Up Windows in Sleeping Rooms During the Cold Weather—Prisoner Questioned as to Reason Dog Did Not Escape from Fire.

Moncton, N. B., July 15.—When the second trial of O. G. Steeves, charged with the murder of his wife, resumed this morning at Hope-well Cape the evidence of the prisoner was continued. He told about the windows in the house. The windows on the North Side of the house were not covered up. The barn was south of the house and had a window on the east side which was covered with wire netting. The barn had a hay mow, floor and three horse stalls. "I woke up on the morning of the tragedy when the clock struck," said Steeves. "I cannot say what time it was. I got up after I heard bells passing in the road. I dressed when I got up. I slept with my collar and tie on. I made a fire in the front stove and in the kitchen stove. Beatrice had got up and came down stairs. She was dressing her feet. Then I went to the barn. I took a sack that had some oats in one hand and a bag of sugar in the other hand and started for the barn.

#### Beatrice Was Called

"I heard my wife call to Beatrice to come back up stairs till the house got warm. When I got to the barn I opened the door and poured the oats for the horse in one corner of the stall. It was dark in the barn. I kept no track of the time I was at the barn, but I would think it was about ten minutes. I then heard some person calling. I took it to be my wife saying, 'Glad, the house is on fire. I ran for the house. Smoke was coming out of the window which was near the back of the barn. I ran to the south side of the house. One pane of glass was out of this window. I saw no flames as I passed the window. I opened the door into the hall and the door out of the hall and turned to the door leading into the main house.

#### Called to Family

"As I ran from the barn I called to them to get out of the house. I just heard my wife call once as I started from the barn. I heard no sound after I came out of the house. I ran around the house to the south side and there was no one there. I had no ladder there. The front window was not broken but I broke it by throwing a pall through it. I was greatly excited. I ran as fast as I could to Munroe's. He lives about eight rods from me.

Steeves stated that when he ran to Munroe's house he called as loud as he could that his house was on fire. He then ran back to the house and then back to Munroe's, still calling for help. He then saw a team coming. He walked towards them, met the Mellish team and went back behind them.

"I met smoke at the third door I opened, which led into the main house," said Steeves. "I was greatly excited when I joined the Mellish's at the fire.

**Fire Through Window**  
"I saw no sign of life around Munroe's. I made noise enough to arouse an ordinary sleeper." When he got back to the fire with the Mellish's the fire was coming out of the window. The side walls were burning while Mellish and himself were standing there. "I do not know what happened the bag that had the dishes in," said Steeves. "The bag that held the sugar was burned. I could not have got in the house when I came from the barn. I made an honest effort to get into the house. I did not set the fire. I had the land in the death of my wife or any of my children.

**Ready for Investigation**  
"I first went to the restaurant and got a coat to put on under my fur coat. I then went to Mrs. Fullerton and told my daughter, Clara, of the tragedy. I then came back to the house. I then saw three bodies. I recognized them. They were still burning.

"When I next left Pine Glen I went to telephone the undertaker to come and get the bodies. After the inquest I went to Crandall's. I saw Joseph Steeves that night. I think it was at his place. My brother, William, went up with me. I saw Joseph Steeves at Mrs. Crandall's next day. I told him I was twice as keen for an investigation as he was."

#### In the Afternoon

When court resumed this afternoon the cross-examination of the accused was continued, but nothing material new was brought out. Steeves was on the stand about six hours and a half, over half of this time being taken up by cross-examination. The accused left the stand wearing a somewhat weary look after his grueling cross-examination.

Two other witnesses were called for the defence. These were: A. W. Garland, of Coverdale, and the accused's daughter, Clara, who was the final witness. A new bit of evidence was given by the accused's daughter. She swore that some time prior to the fire she and her mother had boarded up the windows on the side of house next to the road, and in that part of the house where Mrs. Steeves and one or two of the children slept.

**Windows Boarded Up**  
The windows were boarded up during the cold weather. This was the only witness who swore positively that these windows were boarded up. During cross-examination this afternoon the accused was searching questioned to explain why the dog, which had been burned in the house, did not make its escape if, as the accused stated, he found the doors in the house slightly ajar when he returned to the burning building from the barn. The accused offered no explanation as to why the dog had not left the burning building.

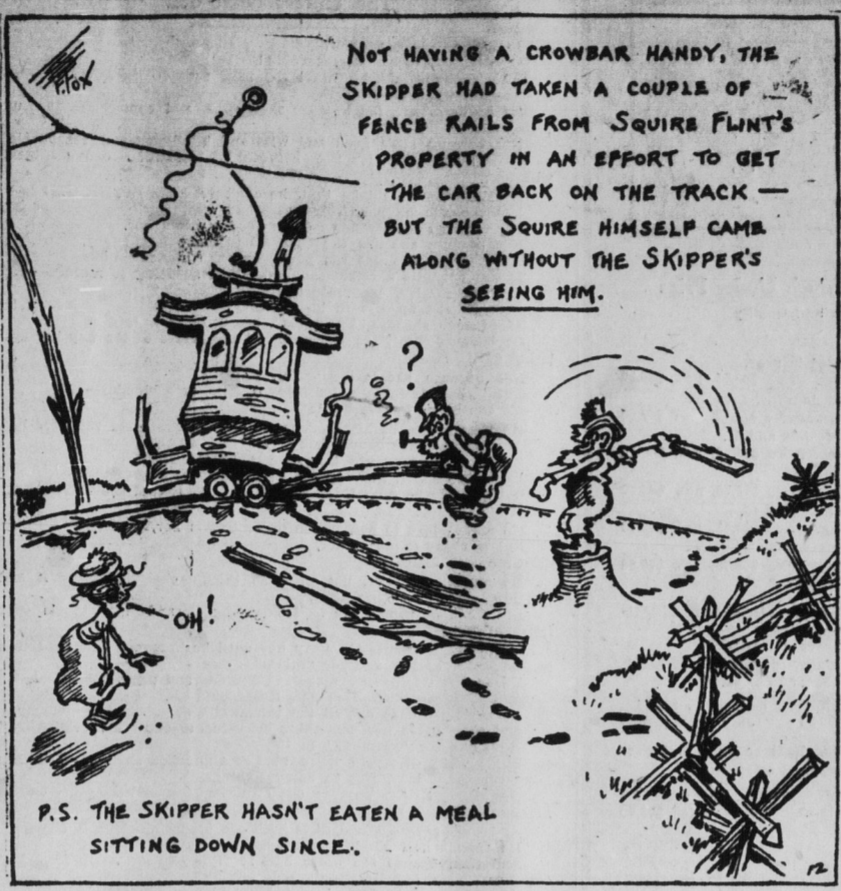

### FREEDOM OF OLD LONDON FOR MEIGHEN

Canada's Premier Signally Honored at the Guildhall by Empire Leaders.

(Continued from Page 1)  
We are a young nation just grown to a nation's stature. We have one neighbor, and one only, and that one an industrial colossus. It lies for four thousand miles along our border, producing what we produce and doing constant battle to forestall us in the world's markets. There is the big dominating fact that meets Canadians every morning. Save for the period of the great war commercial questions have absorbed our minds. To achieve a measure of independence in commerce and transportation has been the constant care of our statesmen. "Observations closely paralleling what I have said with regard to Canada might be made from the standpoint of the other dominions. We are not all replicas of Great Britain, and it is important that our divergent dominions be recognized and understood. But in this same divergence in the variety of our interests and in the very magnitude of our contrasting problems lies our ultimate strength. The experience we have gained all through these years in getting each other's viewpoint—sometimes falling, but I think always trying—has done the empire good. It has developed a breadth of view, a range of sympathy and an attitude for conciliatory compromise that has enabled British statesmen to render priceless service to mankind.

#### Need of The Day.

There are years ahead—should I say months ahead?—when these qualities will be needed as never before. It will be the hope of Britain's millions, in every quarter of the globe, that during these months, by calling into play the same spirit and the same challenge which has preserved the unity of this empire through the long and troubled past, her statesmen may be able now to contribute something of credit to the advancing, if not the unifying, at least the happiness and peace of the world. "The Times in its leader this morning eulogizes the Canadian Premier. After sketching his career and paying tribute to him as a 'consummate master of a simple and delicate choice of words,' it goes on to say: "Of the share that Premier Meighen has taken in the conference of the empire's prime ministers this is not the time to speak. When he leaves these shores the country will say reverently to him as a faithful and upright son of the empire, who stood by our side in the hour of trouble and leaves as he came amongst us—with good-will in his heart, in honoring his new freeman today, the city of London will do honor to itself."

### Riley Brooks People Want Railway Extended

This Section of Province Filling up Fast and Farmers After Railroad Facilities.

Special to The Standard.  
Aroostook Junction, N. B., July 15.—On Sunday, July 10th, an auto party of five left on a trip to the Forks of the Tobique, about 66 miles from Aroostook. Those who formed the party were Basil Cronk, chauffeur, who kindly lent his auto; Miles Cronk of Southamptown, N. B.; Edward Cronk of Perth Junction, and J. C. Langley of the C. P. R.  
After leaving Plaster Rock, on the 25 mile run to Riley Brook, there were no villages, but a constant succession of farms and settlements, along the Tobique Valley. Owing to the long-continued drought this summer the bed of the Tobique was almost dry in places, but the scenery was lovely, seen from the high level of the roads, a vast expanse of country was visible, fringed with dense woods, and the far distance Prince Mountain could be seen, "Blue Mountain" being wrapped in a haze of blue clouds which give it its name.  
Several farmers were interviewed to achieve a measure of independence in commerce and transportation has been the constant care of our statesmen. "Observations closely paralleling what I have said with regard to Canada might be made from the standpoint of the other dominions. We are not all replicas of Great Britain, and it is important that our divergent dominions be recognized and understood. But in this same divergence in the variety of our interests and in the very magnitude of our contrasting problems lies our ultimate strength. The experience we have gained all through these years in getting each other's viewpoint—sometimes falling, but I think always trying—has done the empire good. It has developed a breadth of view, a range of sympathy and an attitude for conciliatory compromise that has enabled British statesmen to render priceless service to mankind.

**Many Farms Occupied.**  
From Riley Brook to Nictaw, five miles, land was also under cultivation the whole way, and at Nictaw an excellent dinner was provided by Host Miller of the Miller Hotel, which is a fine hostelry, with a nice lawn sloping down to the Tobique river. From here the auto was only used a short distance, and a trail was found which led to the Forks of the Tobique, where there is a large salmon pool, and here we could see large salmon leaping several feet out of the water, which is very deep at the confluence of the two branches, the right one coming down the Serpentine river some 30 miles through the bush. A stalwart woodsman and guide named Ernie Ferguson, kindly ferried the party over the river to the Lodge of the Tobique salmon fishery, which is located in the dense woods which surround the Forks, and after enjoying the sport of watching the salmon fishing, a move was made back to the car and the long drive home. On the return trip a farmer named S. L. Lane showed some new potatoes, and informed our correspondent that he would be digging for the market in about a week.  
Capt. H. H. Hopkins and family and Mrs. D. B. Hopkins have left for an auto trip to Halifax, N. S., and were accompanied by Miss Alberta McIvor, who then proceeds to Prince Edward Island for her summer vacation.  
A most welcome shower of rain

### Milk Producers To Meet On Monday

Eighty Per Cent. Have Agreed to Form Assn.—Intend to Appoint a Manager.

Sussex, N. B., July 15.—The Milk Producers of Kings county will hold a mass meeting at Medley Memorial Hall, Sussex, on Monday evening, July 18th, at eight o'clock. The meeting follows a thorough canvass of the milk producing district of Kings, and over eighty per cent of those who are shipping milk have decided to form an association, the object of which will be to further the interests of the milk producers. Those who met here a few weeks ago to launch the reorganization of the association are most enthusiastic at the reception which had been accorded them. The meeting on Monday night will be held to perfect the arrangements for milk distribution. A manager will be selected, whose duty it will be to carry on all negotiations for the association, and to supervise the handling of all milk produced in this section. The outlook is that it will be the biggest gathering of the kind ever held in this country. The meeting is not restricted to those who have already signified their intention of joining. The organizers are anxious that all interested attend the meeting and then lead their assistants to a movement which can only result in many advantages to those who are directly interested.

Many physicians are telling mothers to be sure to get Purity Ice Cream for the sick and the very young.  
If Purity Ice Cream is prescribed for the sick it is not wise for you also who read this advertisement to go a bit out of your way if necessary, to get this purer Ice Cream? Surely the continued good health of everyone of us depends sufficiently on the purity of the things we eat to justify great care in selecting them.

### Mayflower Finishes First Fishing Trip

Gloucester, Mass., July 15.—The schooner Mayflower, built by Boston Boston interests for the fisheries and as a candidate to defend the international fishing vessel championship cup, finished her first trip yesterday. She arrived here from the banks with her hold full of fish, the result of catches made since her departure the last of April. It was estimated that the Mayflower's catch would amount to 250,000 pounds.

**SURE PROTECTION FOR YOU WHILE YOU TRAVEL**  
You may find the water bad, some poorly cooked food may excite trouble, a draught from a car window may give you an ache or pain—a cold room or damp sheets may cause rheumatic twinges. Remember this—any pain that is caused by congestion yields rapidly to Nerviline. When your stomach is sour and upset, just try the magical effect of twenty drops of Nerviline in sweetened water. It cramps taken in the dead of night, Nerviline will fix those awful cramps in a hurry. Keep a 35-cent bottle of Nerviline on hand—always.

**FILE A PROTEST**  
A petition, signed by residents of West St. John, who reside in the vicinity of the proposed site of the fuel oil station, Macintosh's Hollow, was yesterday forwarded to the mayor, protesting against establishment of the tanks, it was reported in the West End.

**45 KILLED IN RAILWAY WRECK, CANADIANS AMONG DEAD**  
Chicago-Toronto-Montreal Flyer Cut in Two by N.Y. Central Train  
New York, July 15.—A passenger train of the Chicago and North Western Railway, carrying 45 passengers, was cut in two by a New York Central freight train at a crossing near Chicago, today. The passenger train was traveling from Chicago to Toronto and Montreal. The freight train was traveling from New York to Chicago. The collision resulted in the death of 45 people, including 15 Canadians. The wreckage was a scene of horror. The passenger train was traveling at a high speed when it was struck by the freight train. The freight train was also traveling at a high speed. The collision was a head-on collision. ### SECOND BIG FIRE ON FLEET HOMESTEAD WITHIN ONE WEEK

Newcastle, N. B., July 15.—Nelson was again visited by fire early this morning when the two large barns on the Fleet homestead which was destroyed by fire on Sunday, were completely destroyed. The fire was not discovered until the buildings were about razed to the ground. A large quantity of mill supplies, wagons, etc., the property of William Sullivan, were destroyed. The lumber at Sullivan's mills were on fire several times but extinguished after a hard fight.

### Maritime Gets Splendid Showers

Forest Fires Checked by Downpour During Last 24 Hours in Provinces.

Fredericton, July 15.—Half an inch of rain fell here during a few hours this morning when there was a general downpour over the whole province of New Brunswick which ended an almost unprecedented drought and heat wave.

Inasmuch as this is St. Swithin's day those who believe in the old legend that if it rains today it will rain for forty days, now see a period of precipitation. The rain has put out forest fires, helped the crops and put an end to the heat. The rain today followed electric storms which swept down over the province late yesterday afternoon and last evening, after one heat wave had reached its pinnacle yesterday, with the maximum temperature here shooting up to 96 degrees, the highest recorded for some years in Fredericton. The last heavy rains here were on the 14th, 15th and 18th of June, with a shower on the 26th of June.

**At Amherst.**  
Amherst, N. S., July 15.—Rain began to fall last night shortly after midnight, and heavy showers fell in the early morning around four or five o'clock. Early this afternoon another shower began again. The rain here as in other parts of the country is particularly welcomed. A number of the farmers in Cumberland county and in the neighboring villages in New Brunswick had already started haying, despairing of rain. The crop as now cut is very light. In connection with the forest fires it is interesting to note that the municipality of Cumberland is already face to face with a forest fighting bill well over two thousand dollars.

**FILE A PROTEST**  
A petition, signed by residents of West St. John, who reside in the vicinity of the proposed site of the fuel oil station, Macintosh's Hollow, was yesterday forwarded to the mayor, protesting against establishment of the tanks, it was reported in the West End.

### BURNS TO DEATH WHEN HE STARTS FIRE WITH OIL

House Ablaze When Family Discovered Man Terribly Burned in the Yard.

### ARROW FROM BOW COST BOY AN EYE

Parrsboro Gets a Big Thunderstorm and Water Supply is Safe Again.

Parrsboro, N. S., July 15.—Edward Fullerton, of Halfway River, near here, died this afternoon of burns he received when he attempted to light the fire in the kitchen stove with oil. The oil exploded setting fire to the kitchen, and when members of the family rushed into the room they found Fullerton had gone into the back yard where he was attempting to tear off his blazing clothes. He was given immediate but unavailing treatment, while the fire in the house was put out. Fullerton is survived by a wife and family.

### Arrow Cost Eye

An arrow shot from a toy bow by the hand of a small playmate cost the ten-year-old son of Harold Ames, the sight of one eye today. The little boy was taken to the Amherst Hospital.

### Big Thunder Storm

A heavy thunder storm accompanied by the first rain in two months visited Parrsboro this morning and saved the situation as far as the town's water supply which is very low is concerned. Agriculturalists in the district greatly appreciated the rain which broke the drought that endangered their crops.
