

134130

Rt. Hon. Arthur Meighen, P.C., LL.D. #2 18, June 1958

over twenty-two years behind them had certainly been there too long but I don't think that the enormous majority of the present Government is a good thing. It did a good deal to paralyze its immediate predecessor. Now I see by to-day's reports that Manitoba has gone Conservative after nearly a generation of a Party calling themselves Liberal Progressive, whatever that means. Naturally at my age I am not worrying over the matter at all and with a few tranquilizers which I take it keeps me on an even keel so that I don't have a minute's worry as to who is in power. The way they are throwing around not millions but billions and have been ever since the war should give one something to think seriously about.

I have no doubt you are taking these matters philosophically yourself.

I trust you are keeping as well as you look and that all goes well.

With very kind regards, I am,

Faithfully yours,

A. J. Hardy
