"TEMPUS FUGITS"

Excuse us, but this is the 481st day of the North Renfrew vacancy.

THE FAIR

The Great Peninsular Exhibition is in full swing. The "open sesame" has been said and the "big doin's"

Everybody-and everybody's friend is there and they all appear to be thoroughly enjoying themselves.

The success of the Fair is assured. An unparralleled exhibit, peerless attractions, and delightful weather have brought out a record-breaking cro.wd.

It is a case of merit rewarded. The directors have worked long and hard, and the consummation of their efforts is most encouraging and satisfactory.

Don't miss the Fair!

A DEFAULTING DEBTOR

One turns, with profound regret from the enterprise, activity and busimess ability demonstrated by the Council in the decision and prompt measures taken to bring about the establishment of the car shops in this city, to the reprehensible and unworthy manner of dealing with their indebtedness to the membership of the citizen soldlery of Chat-

The letter written by Lieutenant-Colonel Rankin, and published in yesterday's Planet, was a strong one -but scarcely stronger than the facts

The 24th Kent Regiment is one of the best advertisements our city posesses. It is, too, essentially her own, for it is made up of her own soms.

They have done-and do-credit to their town.

The city council encouraged the formation of the regiment by the promise of a small remuneration to every young catizen who entered its ranks. This debt is now overdue-and the Council proposes to default payment on the technicality that their promise, recorded on their minutes, does not legally bind them.

Is this a position that any alderman would take in his own private business relations?

Is the position-as Colonel Rankin queries-one of diplomacy or duplicity ?

We trust the aldermen will consider this matter-not from the position of astute politics, not from the position of shrewd dealing, not even from the position of common justice and fair dealing to the soldiers, but from the potent and proud position

Is there no member of the City Council of Chatham in the year 1903 alderman had a better proposition enough to be honest and fearless atle assurance of additional advanemough to do right; who is prepared tages to be gained. to stand up at his seat in the council But this was frankly admitted to be

Honesty or Right.

VICTORIA AVENUE

Almost day by day one's sympathetic ears are attuned to sad and melancholy musings on the wretched and delapidated condition of Victoria avenue. Even Alderman Edmondson will soon have a dawning conviction that this fashionable thoroughfare is a rival of Emma street in the demand for attention and redress.

The Planet has received scores complaints, more or less indignantand has published them from time to

On reviewing them the fact is noted that some eighty per cent. of their number were registered by residents and land owners upon that street.

This fact suggests the remedyisn't it about time Victoria avenue was taking her place in the process sion of progress? Isn't it time for the asking of tenders for another permanent and up-to-date pavement

Surely no class of citizens is better able to take a place in the vanguard of the movement for public improvement than the residents of the enue; no class of citizens can better afford to set the example

sisability of a stroll of observation and deal with it in the city's best interests, deliberately and definitely.

Shun the "open matter" suggestion and Saturday of this week.

not sink to the axle and it went be necessary to haul the horses out with block and tackle there-on such young, modest and enterprising thoroughfares as Cross street, for in

It may cause him to take to thinking deeply-and, perhaps, after a while, to doing a little something on his own account, and for the bene fit of posterity.

Chatham is proud of Victoria ave nue, its splendid residences and its beautiful lawns and boulevards, but-Well, we'd all be prouder of it to be sure, if we could get up there, once in a while, to see what it looks

A GOOD MOVE

Mayor McKeough and the City Council are to be congratulated on their decision to have a representative civic deputation visit General Manager Carpenter and the officers of the Pere Marquette Bailroad and vigorously present the advantages of this thriving municipality as the location of their proposed car shops.

In suggesting such a course The Planet was sincerely convinced of the good results it would bring aboutand it is a keen satisfaction to note His Worship and the aldermen so promptly and heartily taking the

The deputation suggested by the Council includes Mayor McKeough, Ald. Marshall and Ald. Piggott from the Council, and Major G. P. Scholfield, ex-Mayor Hugh Malcolmson and President W. H. Hadley from the Board of Trade.

This deputation is strong, enterrising and representative.

We earnestly hone that the gentle men named, re-inforced, perhaps, by others, will do their duty by themselves and their city in this respon sible capacity.

They will bring results-and our city will reap the benefit.

THE TELEPHONE FRANCHISE

Haven't our civic representatives nade a bit of a bad bungle in the handling of the Bell Telephone Comoany franchise?

This matter is one of the important -if not the most important-of the year. Up to Monday night it was handled in an above-board, businesslike way that commanded the confidence and commendation of the ratepayers. The civic Finance committee submitted a straight business proposition and the company, after deliberation, accepted the same.

The position of the city was much improved under this agreement. It obtained greater concessions than ever before-and better than those in any other centre. It meant to the citizens in round figures the sum of \$2,000 during the term of the franchise-quite a tidy consideration to a community sporting a 25-mill tax rate.

This agreement was 'presented to the Council for ratification-and was turned down.

Quite right-if there was some thirg further to be gained for the city; quite right-if some objecting -Mayor or Alderman-who is brave that was workable and gave reason-

and dictate the course he believes is impossible. The opponents of the proposed agreement stated quite free- Alex. McClure and his wife It would be a long-lived source of ly that it was, in their opinion, no cords of this year were to be irre- arrangement; that the committee

They merely desired to decline the \$2,000 proposition and leave the Telephone contract "an open matter." This is a dangerous doctrine, neith-

er conducive to the good of the city nor of the aldermen themselves Wherefore, if the best terms obtainable have been secured, is there further delay? Why is the whole matter not closed up in a straight-forward, business-like manner? What is to be gained by procrastination

By rejecting the proposition the city loses some \$2,000 in cash and equivalent, and gains-nothing. The Telephone Company continues busi ness at the old stand as usual.

now ?

One doesn't like the "open matter" stand of the aldermen under the circumstances. The ratepayers are acsustomed to look forward to the handling of such agreements as the telephone franchise as tests of the probity, and business capacity of their Council. This one has been openly discussed since last January.

Fortunately, confidence has always been expressed that our present representatives were of the calibre to handle the problem capably and uprightly-and the expectation is still expressed that they will live up to the standard set upon them.

It is to be earnestly hoped, then, We would suggest to the "kicking" that, at their next meeting, the alderident of Victoria avenue the ad- men will again take up th's matter

No Appetite Means loss of vitality, vigo

or tone, and is often a precursor of prostrating sickness. This is why it is serious. The best thing you can do is to take the great alterative and tonic Hood's Sarsaparilla Which has cured thousands

as dangerous and unbusiness-like. The refusal to enrich the city coffers by \$2,000 and the "open matter" talk don't sound well-especially if spoken together.

The people have confidence in the sagacity and integrity of their representatives and it would occasion keen regret if they permitted themselves to be "led into temptation." Let wisdom, business capacity and sturdy uprightness govern in the matter. Let it be dealt with prompt-
