## Chamois Vests That Fit.

There's no question about the value of chamois vests as lung protection, but most of them are so ill shaped and poorly constructed as to produce irritation instead of comfort. We have a line of vests that it is a pleasure to wear and a comfort as well. They are perfectly form fitting and so put together that no weight comes on the seams. Our prices on these chamois vests are so reasonable that you really have no excuse for exposing yourself to danger by not wearing one. Prices range from

One of the features of the last regular meeting of Thames Lodge, No. 101, S. O. E. B. S., was the presentation of an address and a handsome gold watch as a token of esteem and regard of the brethren towards Bro. C. F. Chanter, who has been secretary of the Lodge for 14 years. The address was read by Bro. T. A. Smith and the presentation made on behalf of the Lodge by District Deputy Bro. W. A. Moore. Bro. Chanter, who was taken by surprise, made a very feeling response, which was followed by short speeches from several of the members present, all showing the esteem in which the Brother is held by the members of Thames Lodge.

It measures 17-1/2 inches around and weighs one pound and nine ounces. The apple was at the top of the tree and it is a wonder how it clung to such a tender stem.

J. L. Scott and Peter McKnight visited Mr. Scott's farm in Tilbury, near Jeanette's Creek yesterday, to investigate a well which was put down for water. They found that there was no water to speak of, but there are excellent indications of oil. Mr. McKnight says the strata is excellent for oil. Mr. Scott will drill at once for it.

### DIPHTHERIA EPIDEMIC.

Report Presented to the Provincial Board of Health.

Toronto, Nov. 19.—The Provincial Board of Health commenced their quarterly meeting yesterday afternoon at the Parliament buildings. Those present were Dr. Kitchen, St. George, Chairman; Dr. P. H. Bryce, Toronto, Secretary; Dr. Cassidy, Toronto; Dr. Oldright, Toronto; Dr. Bruchroy, Peterboro'; Dr. Thompson, Strathroy; Dr. Douglas, Cobourg.

Dr. P. H. Bryce, Provincial Medical Health Superintendent, in his report said that the Province had been remarkably free from common endemic diseases, the deaths numbering only 1,992, or 12.5 per 1,000. The death rate from consumption was lower than usual, but nearly double all the rest. Smallpox was almost wholly absent, but diphtheria, in its distribution rather than its frequency, was ominous of an increase when the schools opened, and the result had been as feared. The returns for October to date from 52 municipalities reporting show 464 cases and 54 deaths, against 240 cases and 30 deaths in 38 municipalities in September, and 122 cases and 24 deaths in 27 municipalities in August. Reports during November indicate its continued appearance. The local health authorities seemed to be more than ever awake to their responsibilities. In Toronto the cases increased from 51 in August to 118 in October, with 14 deaths. Of 770 cases up to October 31 in Toronto, 445 were treated in hospitals, and the death rate was 12.72. The extension of the Isolation Hospital is expected to be completed in three months' time. A medical inspector of schools has been appointed, whose duty it will be to follow up the suspects from the school-rooms.

All reading notices of local announcements must be received at this office not later than noon of the day on which it is desired that they appear.

### A NEW DEPARTURE

Messrs. Westman Bros. are installing in Mr. J. G. Kerr's new residence a hot water furnace specially designed for the use of Gas Coke as fuel.

This furnace is guaranteed to require no attention using Coke than a furnace of similar capacity using best quality of hard coal, and about the third cost of fuel will be saved.

The installation illustrates the growing popularity of Gas Coke.

Many citizens are now using this fuel in furnaces, base burners, grates, ranges, etc., with the greatest satisfaction and economy.

The Gas Company delivers Gas Coke in any quantity, promptly. Try it!
