**MONTREAL OFFICE** 

Ar. S. P. Stearns, Manager of Montreal Office, say there is Great Need for "Medical Examination in this

Life Assurance Society, in an inter-

commence in Montreal, and he thought they would prove successful. The examinations were to begin on July 1, but all arrangements had not been completed and so far no one had yet applied for an examination. The privilege, however, is extended to all policyholders of, three years' standing, and there is no cost connect-ed with it. In the following places salaried examiners have been appoint-d to hold the examinations: Albuquer-ercase in the Number of Built

<text><text><text><text><text><text><text><text><text><text><text> Mr. Joseph Versailles Considers the Increase in the Number of Build ing Permits in the City in as Good Sign If there is one man in Montreal who believes in always looking on the bright side of things, it is Mr. Joseph Ver-sailles, real estate broker and banker. When asked this morning by a repre-sentative of the Journal of Commerce, if he did not consider it discouraging that the compute of the building parthat the amount of the building per-mits issued for the first six months of

mits issued for the first six months of the year had fallen off greatly in value, to those during the same, period hast year, Mr. Versailles said that on the contrary he considered it a very good sign, as the number of permits showed an increase. A glance at the pormits, he said, showed that the right kind of con-struction had been going on, not big xpensive office buildings, as we have mough of them, but more of the cheap-r class of buildings, such as tene-ments for the poor man to live in. A great deal of this kind of building had been going on in the east end of the tity.

physical defect or ailment, it would let the man know that he was not normal, and although he might not be alarmed he would know that he should take special care of himself. Asked if the free examination pro-mise had attracted many people to take out the society's policies. Mr. Stearns said that he did not think so far it yad had any effect in this way, as this was not the purpose for which he examination was being conducted. **Real Estate and Trust Companies** DECREASE IN VOLUME OF Quotations for to-day on the Mont- Mont. Lachine Land Syn., eal Real Estate Exchange, Inc., were Ltd. . . . . . . . .

**PROGRESS MADE** 

Mr. C. L. Scofield Tells of Progres Which is Being Made in Montrea and What Has Been Done in Past.

Commenting on the action of the New York Court of Appeals in sustaining the conviction of manufactur ers who refused to obey orders of the Fire Commissioners to install sprink-lers, Mr. C. L. Scofield, manager of view with a representative of The Jour-nal of Commerce, stated yesterday that the free health examinations of the Society to its policyholders would soon commence in Montreal, and he thought the result and he thought thing if Montreal had some one who had the power to force owners of cer-

tain buildings in the city to install sprinklers. Great Faith in System.

Mr. Scofield is a firm believer in the nodern sprinkler, and he says that it has already proved its value to such

has already proved its value to such an extent, that underwriters are ready to reduce premiums wherever the surfactor is installed, to such an ex-tent that if practically reduces the ex-pense of installation to nothing. There are comparise which are ready to install spains reveaters fo-mothing, providing that owners of buildings are ready to go out puving the same inter of insurance as they were before and allow them to get the tendth between the old and new rates. **Progress Being Made**. Progress Being Made.

The number of spinkiered buildings increasing every year in the city, though last year, owing to the gen-ral business conditions there were not eite so many systems installed as wring the previous year.

Tanks Not Dangerous.

The objection to water tank being baced of the top of buildings, which used so much discussion at the time the Herald Building disaster, is now tirely gone. New buildings are built to support a tanks, while where tanks are us old buildings, they are resting eir own supports, and the weight t left to the old walls to bear.

ity. "I don't consider the state of the real estate market as being bad, I con-tider, it as good," said 'he. "We know where we stand, pričes are nearer their properdevels and the boom in the mar-real of the bast fow years is at an

New System 'Best.' <sup>3</sup> "The ability of the modern appinkler put out a fire is well known,' said it. Scoffield, 'and the great damage by ater, which the old perforated pipe pe of sprinkler is greatly reduced by it new valve system." Chief, Tremblay in Favor. nd.". Regarding the big new office building will by Mr. Versailes and known as its Versailles building, he stated that here had been no trouble in reating, her offices in it, and at the present time dere were only two small offices no wated.

Chief Tremblay in Favor. Chief Tremblay, of the Fire Depart-ient, is also strongiven favor of the prinkler system, and the department as rendered much assistance in put-ing on new valves after a fire has curred in a building, so that the sys-em would be again in readiness. to acet a second emergency. Water messure in the city is sufficient to arry water up to the reserve tanks a the root, in most cases, although in few buildings special pumps have ad to be installed. any in examining a prospect had urned him down on-account of some hysical defect or ailment, it would le

Tanks Secondary.

Tanks Secondary. Tanks Secondary. In the average case the water from the tank is never needed, but at the time last winter, when, owing to fluc-trouble with the pumping station, the greater part of the city was without vater, much importance was attached to the reserve tanks, and an examina-tion was made to see that everything was in order. In several cases at this time the water from the tanks, through seeme defect in the valves, was empty-ing out into the city supply, and the tanks were useless, but all these things were repaired and put in order. Plans are drawn up and an examina-tion was reformed and an examina-tion was reformed and an examina-tion may entities the owner states his readi-ness to install a sprinkler system. The first sprinkler was installed in the United States in 1851 and since the united systems have been her reasing every year, and improve-ments have been me effectives in states in in-

If you want to keep the dollars pouring into your strong box you must have **real** salesmen-salesmen who can make an intelligent, tactful, and force-ful presentation of your goods. To a business house the difference between salesmen and mere "order-takers" or clerks is the difference between success and failure. If your salesmen are incompetent find producing salesmen cheaply and quickly with our Want Ads.

Or, if you are a real salesman or saleswoman and you want a position or a better place than you now have, you will find our little Want Ads splendid position finders- Scores of employers and hundreds of employees read and

babit. Write your Want Ad like those below. Make it definite and to the point. Then send it an interview with the Journal of Com. Make it definite and to the point. Then send it merce to-flay that it would be a good to us promptly. You will be pleased with the results.
