IT IS the all-year-round helper that takes the "arm" out of "farm."

Built to last and give thorough satisfaction at every point. Its light weight causes it to run on less fuel than others, and prevents it packing the soil; yet it has plenty of power for its work and is strongly constructed to meet the hard usage a tractor will get.

Applying "Tarvia-X" on Kennedy Road, Scarboro Township, Ont.
Toronto & York Roads Commission.

Making an all-year-round road with tarvia—

ALL the year round this Tarvia road will be smooth, dustless, mudless and ready for business!

As the picture shows, the layer of broken stones has been spread and rolled and now the steam-roller

Made in Canada
Tarvia
Preserves Roads
Prevents Dust—

is drawing over it a tank-wagon of "Tarvia-X," heated by steam from the roller. A man at the rear directs the spray of the hot Tarvia upon the stone.

The Tarvia flows down among the broken stones, filling up the chinks, coating the stone, and cementing it together.

We have booklets about Tarvia which we should be glad to send you if interested.

Behind the tank-wagon other men are spreading over the Tarvia surface a thin layer of fine crushed stone or gravel

which the roller will presently roll down into the Tarvia.

Thus is built a Tarvia-bonded macadam road that defies even our Canadian frosts, and withstands heavy motor-truck and swift automobile traffic.

Such is the ideal road for rural thoroughfares, because it is economical to maintain and will last three to five times as long as plain macadam, although it is only slightly more expensive to construct.
