

SUMMERHILL HERD OF Large English Yorkshires

HEADQUARTERS FOR THE IDEAL BACON HOG.

Our winnings at the large shows for 1901, are as follows: At Toronto six possible first prize and five second, two silver medals, and first for pen of pure-bred bacon hogs, also sweepstakes on bacon hogs over all breeds; at London every possible first but two; while at the Pan-American, where our herd was divided, half going to Toronto, we won six out of ten possible firsts, also sweepstakes on boar any age. At the Pan-American (Buffalo), Toronto and London there were thirty-six first premiums and medals given; all the medals and every first prize but six won by the Summerhill Yorkshires. When in need of the best write D. O. FLATT & SON, MILLGROVE, ONT. on Telephone: Millgrove, Ont.

Farmers Know a Good Thing When They See It

Which is the reason there is such a large and increasing demand for

U.S. Cream Separators

They have many points of superiority, but the three following are sufficient to make them

The Most Desirable to Own:

- CLEAN SKIMMING—**
Hold the world's record.
- SAFETY—**
All gears entirely enclosed in iron case.
- DURABILITY—**
Most thoroughly and substantially made.

Read the testimony of one. We have hundreds of similar ones:

THE U. S. SKIMS CLEAN AND IS DURABLE.

PLUMAS, MAN., MAY 27, 1903.

I have had a No. 7 U. S. Separator about a year and one-half, and during that time have paid out nothing for repairs, aside from a couple of bowl rings, and it runs as well to-day as ever. There is nothing worn about it. Some of my neighbors who have purchased other makes of machines, ask me every now and then if I am not troubled with boxes getting hot and cutting, thereby implying that they have trouble. We have never been troubled with anything of the kind. The U. S. skims clean, is durable and gives the best of satisfaction. The enclosed gear is much better than open gears.

J. H. HAYWOOD

For further information write for illustrated catalogues.

For Manitoba and the West we transfer our separators from Chicago and Minneapolis, and for the Eastern Provinces from Quebec, Sherbrooke, Montreal and Hamilton. Address all letters to Bellows Falls, Vt.

VERMONT FARM MACHINE CO.,

HORSE BOOK FREE.—Dr. B. J. Kendall Co.'s book, "A treatise on the horse and his diseases," is written from a scientific standpoint, yet in practical so that anyone can apply its. The horse and his handling and there is hardly a the horse which is and cause sug-

gested and treatment suggested. It is published by the proprietors of Kendall's Spavin Cure, that world-known remedy for horseflesh ills, and contains the gist of their many years' experience. They send this practical book free of charge, and our readers should address the Dr. B. J. Kendall Co., Freeburg Falls, Vt. for a copy, mentioning the "Farmer's Advocate".

In answering any advertisement in this paper, please mention the FARMER'S ADVOCATE

GOSSIP.

Arthur Johnston, Greenwood, Ont., has recently sold to the Messrs. Challand, Carlton, Ill., three very fine Shorthorn cattle of the very finest Scotch breeding, including an imported four-year-old cow of the Kilblean Beauty tribe, now so very popular in Scotland and England, where they have within recent years won the highest honor in the national shows and made very high figures in the sale-ring. The next in importance is a yearling heifer of the Marr Princess Royal family, a most excellent heifer and like winning in good company. She is a daughter of Imp. Princess Royal, for which Mr. Johnston says he was offered more money than he ever sold a Shorthorn for. The third is also a yearling of splendid proportions, excellent quality and first-class Scotch breeding.

The recent death, from milk fever, is reported of the noted show cow, Imp. Missie 165th, owned by Mr. E. W. Bowen, Delphi, Indiana. She was the second-prize cow at the International Show at Chicago in December last, and was generally considered the best Shorthorn cow in America. She was a roan cow, born in March, 1899, bred by Mr. W. S. Marr, Uppermill, Aberdeenshire, and imported in October of the same year by Mr. C. L. Gerlaugh, Osborn, Ohio. Her sire was Captain Inglewood, by the Duthie-bred Captain of the Guard, and her dam was Missie 156th, by Golden Ray. She had produced two living calves, a bull, now a yearling, and a heifer a few days old at the time of the cow's death, sired by Imp. Lord Banff.

The Ohio State College of Agriculture, under the direction of Prof. C. S. Plumb, Professor of Animal Husbandry, in laying the foundation of an up-to-date herd of Shorthorn cattle, has recently made some notable purchases at public sales, and has secured the services as herdsman of Alex. Argo, a Scotchman, once on the herdsman staff of the sage of Sittytown, Mr. Amos Cruickshank. Among the purchases at the sale of Mr. Wood, of Williamsport, Ohio, was the bull, Imp. Bapton Lovat, a rich roan of unusual quality, bred by Robt. Taylor, of Pit-livie, Scotland, sired by Bapton Ensign, selected by Mr. Taylor from J. D. Willis' crop of 1899 calves, as the first choice of the lot, and later bought and imported by N. P. Clarke, of Minnesota. The dam of Bapton Lovat is Caroline, and she was sired by Ringleader, of the Broadhocks family, a bull sold at a long price to go to South America. At Mr. Gerlaugh's sale, the imported heifer, Queen Quality, was purchased. She is a two-year-old, sired by Brilliant Star, a son of Star of Morning, Mr. Duthie's famous bull. This heifer had for dam, Queen Victoria, a daughter of Village Archer, by Scottish Archer. Queen Quality was bred by Philo L. Mills, of Nottingham, England, and her breeding is of the richest Scotch character, while as an individual she has high merit. One of the favorites of Mr. Gerlaugh's sale, Beckie's Favorite, was bought by the University. Her sire is Royal Favorite, bred by W. S. Marr, sired by Wanderer, a son of William of Orange. On the dam's side she is a Beck Taylor for five generations, tracing to Young Mary.

BUTTER TEST AT ROYAL COUNTIES SHOW

In the two-day butter test of the above named English show, held last month, fifteen Jerseys competed for the medals and prizes given by the English Jersey Cattle Society. The first-prize gold medal of £10 went to Dr. H. Watney's four-year-old cow, Bluebell, whose milk yield for the day, 137 days after calving, was 37 lbs. 8 ozs. and her butter yield 2 lbs. 4 ozs.; ratio, viz., pounds of milk to pounds of butter, 16.32. The second-prize cow, Mrs. McIntosh's seven-year-old cow, Fairy, gave, 141 days after calving, 38 lbs. 10 ozs. milk, 2 lbs. 24 ozs. butter; ratio 18.04.

In the Guernsey test, the first-prize cow gave, 41 days after calving, 42 lbs. 10 ozs. milk and 2 lbs. 1 oz. butter; ratio, 18.00. The second-prize cow, Mrs. S. J. C. gave, 36 lbs. 10 ozs. milk and 2 lbs. 1 oz. butter; ratio, 18.00.
