THE BELL Piano & Organ Co.
GUELPH, (Limited.) ONTARIO
Largest Makers of Pianos, Organs and Player-pianos in Canada.

"Baker" Wind Engines

Are built for hard, steady work, and keep at it year in and year out.

It is the reputation which "BAKER" Wind Engines have fairly won and steadily held ever since their first appearance on the market, 30 years ago, that should be considered. They are famous for their durability, simplicity of construction and easy running. "BAKER" Wind Engines are so designed that the gears cannot wear out of mesh. The wheel is built on a hub revolved on a long stationary steel spindle, requiring no babbitting. It has a large number of small sails which develop the full power of the wind and enable them to pump in the lightest breezes, as ball-bearing turn-table and self-regulating device, and all the working parts are covered with a cast shield, protecting same from ice and sleet. The above is only a few of the many features that have placed "BAKER" Mills in the lead. Let the H. A. Co. agent give you complete information, or write direct for booklet.

We make a full line of Steel Towers, Galvanized Steel Tanks, Pumps, Pneumatic Water Systems, Spray Pumps and Gas and Gasoline Engines.

David Smith, Mgr. St. Catharines, Ont.

TRADE

in your old separator
on account of a new

DE LAVAL

CREAM SEPARATOR

38,796 Users did so Last Year
26,569 in the U. S. Alone

It's come to be an accepted fact that DE LAVAL Cream Separators are as much superior to other separators as other separators are to gravity setting systems, and that an up-to-date DE LAVAL machine will on an average save its cost every year over any other separator.

Aside from the actual saving in more and better cream and butter and in time of separation and cleaning, easier running, greater durability and less repairs, there's the pride, comfort and satisfaction which none but the owner and user of a DE LAVAL machine can feel in his separator.

In consequence, thousands of users of inferior and worn-out separators of various makes take advantage every year of the educational allowances which the DE LAVAL Company continues to make and trade in their old separators.

APPLIES TO OLD DE LAVAL USERS ALSO

While all this applies particularly to the users of inferior separators, it applies likewise to the many thousands of DE LAVAL machines 10 to 25 years old. They are not worn out, and are still superior to other new machines of to-day, but there are so many improvements embodied in the modern DE LAVAL machines that these old DE LAVAL users can well afford to make an exchange, and soon save the cost of doing so.

SEE THE NEAREST DE LAVAL AGENT

He will tell you how much he can allow on your old machine, whether a DE LAVAL or some other make, toward the purchase of a new DE LAVAL. If you don't know a DE LAVAL agent, write to the nearest DE LAVAL office, giving make, number and size of your present machine, and full information will be sent you.

The Firm Behind

the seeds you buy is your only guide to quality. Whether the seeds are good or bad you cannot tell till you have planted them—you must buy on trust. A record of bumper crops for over 40 years proves beyond a doubt that

EWING'S Reliable Seeds

are trust-worthy. They are clean, vigorous, selected seeds, true to type, sure to grow. What's the use of taking chances, when by simply insisting on Ewing's you can get seeds that are sure to turn out satisfactory?

Your dealer should have Ewing's Seeds. If he hasn't, write for our illustrated catalogue and order from us direct.

Wm. Ewing & Co.
Seedsman
McGill St., Montreal.

Extra Serviceable

These 8, 12 or 16 h.-p. engines are extra strong and rugged, because intended for use under the hard conditions often met with on the farm.

The engine illustrated is one of the famous

"Bull Dog" Gasoline Engines

which are constructed especially for outdoor work. Drop a postal to our Canadian agents for our catalogue. It shows the different styles of "BULL DOG" Gasoline Engines, and explains their construction in detail.
