WHAT you want WHEN you want it

No farmer wants to buy a flash in the pan, the kind of fertilizer that starts and stops, or the kind that begins to work next year. What he wants for his crop is a supply of plant food that once applied in the right amount and form will feed the crop from seed to harvest. It is not a question of being available at the start, or available at the finish, but being available all the way through.

The A. A. C. Fertilizers are made that way, timed to be available at each stage of the growing season.

We have a number of factories, all located at convenient points, and wherever you live, we can reach you with the **right fertilizers, the right service, and the right price.** Write today for copy of "Plant Food," a practical hand book on fertility. No advertising in it; sent without cost, while this edition lasts.

Agents wanted in unoccupied territory. Liberal terms and goods that sell. It pays to sell our fertilizers as well as use them. Ask for agency proposition.
