

Never Disappoints Them.

Next to the tailor who promises you a new suit in order that you may go into the country for Sunday, and then disappoints you, comes the friend in female form, who brings home your washing Monday morning instead of Friday night. Now, if you order either a suit of clothes or a half-dozen shirts at Robert Wallace's clothing establishment, you will have them sharp on time, and what is more, they will be gotten up in the best possible manner.

In Memoriam

OF THE LATE MRS. CORCORAN, WHO DIED AT VILLA ROSA, ON MARCH 21ST, 1881.

(From the Stratford Beacon.)

If friendship weeps and sighs to know Again the mourner's pain, Has shaded with its sombre woe, That home where scarce its child Had vanished from, and tears anew Spring fast to friendship's eye, What grief most rends the heart, Who mourns with life should die.

And yet 'tis not dead but sleeping, In that joyful spirit land, Just a little while before us lies, She has joined the angel band, And there her dearest shall partake, In a crown so bright and fair, And her smile shall live to welcome there, Each mourner lingering by.

A Requiem.

(From the Stratford Beacon.)

A mournful requiem on the death of that amiable lady, the wife of Jas. Corcoran, Esq., who died so suddenly in the town of Stratford, inserted in my dear friend, her worthy husband, and to all his numerous friends in both town and country.

The strife is over, death's seal is set, On sunny lips and marble brow, 'Tis over, though faintly lingers yet, Upon the cheek a life-like glow, The feeble pulse has throbbled its last, The aching head is laid at rest, Another from our ranks hath passed, The dearest and the loveliest.

Yet mourns he not the voice of woe, Behits not, nor his triumph flow, Let sorrow's tears no longer flow, For life eternal, the notes of peace, Freed from the earth's corrupt control, The trials of a mortal life are o'er, Joy for her disembodied soul, Drinks at the fount of endless bliss, Chicago, March, 1881. H. W. HENNING.

(Continued from 1st page.)

RECEPTION TO BISHOP CLAREY.

west, as well as those assembled here to greet him. The procession moved up Brock to King, out King to Johnson, up Johnson to the church, where he was conducted into the edifice by attendants between a solid mass of humanity. During the procession a slight rain fell but not enough to even dampen the enthusiasm of the hour.

CHURCH SERVICES.

When the bishop arrived in the city he wore the Cappa Magna, at the palace he donned his Pontifical robes. A procession was formed and walking under a canopy borne by six members of the congregation, the priests singing the antiphonal *Sacerdos Magnus*. At the door of the formal giving over of the cathedral to him took place. The procession then proceeded up the aisle, the choir and clergy singing the *Te Deum*. The bishop having reached the sanctuary went upon the altar of the Blessed Sacrament, and prayed a short time, after which he returned to the middle of the sanctuary in front of the main altar, and the Administrator prayed for his success as Bishop of Kingston.

ORDER OF PROCESSION.

Acolytes (Cloth Bearers) Acolytes, Sacristans, Choir, Priests of the Diocese, Bishop O'Mahoney and Chaplains, Bishop Dunne and Chaplains, Bishop Fahre and Chaplains, Bishop Walsh and Chaplains, Crozier Bearer, Archbishop Lynch and Chaplains, Father Farryell, His Lordship Bishop Clarey, Fathers Lynch and McCarthy, Deacons and Sub-Deacons, Father Twobey, Director of Ceremonies

ADDRESS FROM THE CLERGY.

The Vicar-General read the following address from the clergy: Nineteen months ago the cloud of death cast its sombre shadows over us. The demise of the late and ever-to-be lamented Dr. O'Brien filled our hearts with sorrow, and with filial love we venerate mourned the sad bereavement for never was a bishop more beloved by a faithful priesthood. Our prayers to the throne of grace, in union with our people, have been constant and unremitting, that peace and happiness might be his, and that one worthy of the diocese, who he loved and with such abundant good effect, spiritual and temporal, guided during his episcopate, might be chosen to succeed him.

humble, but she grew space, and a healthy development was hers. When we look back to the days of her first bishop, the pioneer prelate of Ontario, the great Dr. McDonell, with his two priests, laying the foundation of her present greatness, teaching the little flock scattered over a whole province, from the boundary line of Quebec to Windsor, and now behold her the proud mother of four spiritual children, each being with her in the good work of extending God's kingdom on earth, her eldest daughter raised to the dignity of metropolitan, we have good reason to rejoice. We do rejoice, my lord, and rejoice the more, that a son of the ancient and ever faithful Church of Ireland has been chosen to fill the throne of St. Peter, and to still greater spiritual victories. Our joy is moreover, enhanced by having a bishop so well known in the eternal city. We are thereby assured that Kingston's voice through him will be always favorably heard at the Vatican. The Sovereign Pontiff, my lord, has honored you by conferring upon you marks of esteem rarely extended to missionary prelates, thereby showing his appreciation of personal merits. You have also been specially and exceptionally favored by the great Cardinal, who imposed consecrated hands upon you, and the dignities of your native land paid you tribute of the very highest respect. Your honor is the honor of the diocese; it is by implication ours also, and, therefore, again do we rejoice that at the urgent solicitation of the Holy See you have sacrificed the comfort of home and the surroundings of a loving people to become our bishop, and in the sincerity of our hearts we say, "Welcome."

Though, my lord, you have been until this auspicious day personally unknown to a stranger we are long familiar with your rare accomplishments. It required not the grand reception given you, at the court of the Holy Father, nor the unusual deference shown you by the archbishops, princes and dignitaries of man, Irish, English and Scotch, who assisted at your consecration, to convey to us a knowledge of the esteem in which you are held since the day you stood before the Senate of the Catholic University, Dublin, and in the presence of many of the hierarchy of Ireland, were honored by the degree of Doctor of Divinity because of your masterly defence of Catholic dogma, your name has been to us familiar as a profound scholar and learned theologian. Your great success, which has endeared you to the hearts of many of the young men for the priesthood, many of whom are now doing the good work of their lives and their zeal. Their latter President and their Alma Mater, has attached and warmed our hearts towards you and given us the firm conviction that God has more than compensated us for our long bereavement. We, therefore, welcome you with the love, enthusiasm, and the warmth of attached friends. We tender you our obedience and unreserved loyalty. We pledge you the assurance of our best efforts to assist in all your undertakings, and we pray that the days of your episcopacy may be both many and happy.

ADDRESS FROM THE PEOPLE.

Dr. Sullivan read the following address from the Roman Catholic of Kingston and vicinity: To the Most Rev. James Vincent Clarey, Bishop of Kingston. My brethren, your Lordship—We the Catholic laity of the diocese of Kingston, approach your lordship with feelings of profound respect and affection, to give expression to our deep attachment to you, and our warmest wishes for your success in the discharge of your sacred office. The installation of your lordship is to us an event of supreme importance, and we are proud to have you, who have so long and so ably served the diocese, as our spiritual and temporal father. It was, therefore, with great joy that we heard of your selection for this high and honorable office, and we are confident that your lordship will be able to give to the diocese all the benefits which are possible in an eminent degree of all qualities so essential to a ruler of great administrative ability.

Every clergyman in the diocese, with the exception of Rev. Daniel Farrelly, was present at the installation of your lordship, and all of us were glad to see you, and to see that you were so well received by the people. The musical programme was very fine, the full choir, which sang with better effect than we have ever heard, and the organ, which was played by Mr. O'Reilly, and the choir, which was conducted by Mr. O'Reilly, were all very good. The installation was a most successful one, and we are confident that your lordship will be able to give to the diocese all the benefits which are possible in an eminent degree of all qualities so essential to a ruler of great administrative ability.

THE CITY OF BRANTFORD.

How rapidly are our Canadian villages becoming towns, and our towns becoming cities. A short time since we could boast of only a few villages in Ontario, but since Guelph, Brantford and St. Thomas have been allowed by law to wear long clothes, we might be pardoned for evincing a certain degree of pride at the importance which our young country is assuming. Perhaps the most striking evidence of this is the fact that Brantford is now the largest city in Canada, and is rapidly increasing in population. The city is now a manufacturing city, and is rapidly becoming a commercial city. The city is now a manufacturing city, and is rapidly becoming a commercial city. The city is now a manufacturing city, and is rapidly becoming a commercial city.

First we enter the room, where are manufactured the bench stones worked into the boiler room, and all sizes of steam boiler. Perhaps this is music to the boiler maker's ears, about twenty of whom were hammering away with a will each at his particular boiler. One machine was specially destined for some foreign country, seemed to take the part of double-lane. The moulding and wood working departments and machine shops were next visited, and in all these sections gangs of men are constantly employed. The feature appears in the moulding shop. Here we see a large quantity of iron imported from Germany, which is being worked up into machinery to be sent back to that country. The firm give employment to nearly two hundred hands the whole year round. From this it will be seen that their business has grown to be very large. From what we saw, nothing but success could result to the firm.

Everything is attended to in the most systematic manner, and there is evident in every department a large measure of that business tact, enterprise and straightforward dealing which are sure to be rewarded by a large share of public confidence and patronage. Last season they added to their popular Champion Engine a Traction attachment to enable it to propel itself along the road by steam, and draw after it water box, separator and straw stackers, using only one team to guide the engine.

Wishing to thoroughly test and perfect this attachment before offering it to the public, they placed this Traction Engine in the hands of Mr. William Tallman, an enterprising farmer and thresher, of Brantford, Ont. After testing it he writes as follows: "BRANTFORD, December 25th, 1880. "WATERBURY ENGINE WORKS Co. "The Traction Engine you sent me early in October to test has been thoroughly tried on all kinds of roads and in all kinds of weather. It has been given the season of the year to give it a good test, to try its power. Soon after it came we took it to the South Fair, about 7 or 8 miles over the mountain. We run it up the mountain at Jordan, when it showed the horses up to the wonder of many. Next day we climbed the mountain at Grimby. Soon after we cleared the Grimby mountain again with tank wagon and clover

mill behind, and only one pair of smallish horses on the tongue. It was a perfect success. Done some clover threshing on the Twenty Mile Creek, where they have mud smooth and sticky, so you could hardly keep engine on the road. On one occasion we set up on a soft field, and landed ridged up about a foot, with wheels in furrows, settled down till boiler nearly touched ground. Without the Traction, would have been stuck fast; got steam up to 80 lbs., and with a little caution went out all right. Little jobs of clover thresher up there and further west, so that we had a pretty good chance of trying it. After it froze up and snow fell it drew all our machinery—such as a clover mill, tank wagon, rods, wood and water—through all kinds of roads, up hill and down, with one team. Sometimes the horses drew, but most of the time they needed, except in deep mud or snow. The thing took splendidly with the farmers. We had crowds to see it wherever we went, and all seemed pleased. We had no accident with it at all, and everything ran smoothly and well. Shall be glad to give you further information at any time."

WAS THIS A MIRACLE?

Miss Mary Kittell resides in Leavenworth, Kansas. She is a convert. On the 4th of October last she fell down stairs and received injuries to her spine and left limb. For two weeks after the accident she was delirious in St. John's Hospital, where she was treated by Dr. W. Thomas. Her left side was paralyzed. When she recovered sufficiently to return home, which she did in January, she had to go about on crutches. Her thorough cure was pronounced impossible, and she was assured that she would be a lifelong cripple. But she hoped in God. She prayed for relief, and asked to be made whole again. Sister Gertrude, a Daughter of Charity in the hospital, procured for her some cement from Knock, and towards the close of last month she began a Novena to our Blessed Lady. On Sunday, February 27, the nine day supplication ended. She assisted at the eight o'clock Mass in the Cathedral, and at the communion she hobbled up to the altar rail to receive the Sacrament. While there kneeling, she made a final petition for restoration to perfect health, turned to pick up her crutches, and found she did not need them. So, taking them in her hand, she walked to her seat well and sound. Her cure was seen by the whole congregation. Gratitude added fervor to her thanksgiving. In memory of the favor she obtained, she left her crutches in the church.

THE WEIGHT OF WOMAN'S TONGUE.

—Sunday was a field day among the lady Land Leaguers of Philadelphia. The sessions of the board of officers were suspended, and the energies of the entire body were devoted to the organization of ladies' branches, with the result of rallying some three hundred and fifty recruits round the standard of Parnellism. Mrs. Parnell and her daughter were both prevented by illness from undertaking the work of organization, but several active gentlemen took the lead, and all the meetings that were announced were held, with good success. So great was the throng in one instance, that the visitors had to repair, on a moment, to a larger hall, where the ladies were seated. St. Paul's Church, president, and Mr. J. Austin Purcell spoke. The platform of the branch was read, one feature of which is that the endorser binds themselves not to buy, sell or wear goods of English manufacture pending the settlement of the present difficulties. It also imposes the truism that woman's tongue is mightier than either pen or sword, and exhorts all members to make the best possible use of that powerful weapon in the cause of old Ireland. At the close of the meeting, which was terminated in the Annunciation parish, at which Father Elock, of the Cathedral, spoke. Mrs. Margaret O'Neill was elected president. One hundred names were received.

RETRIBUTION.

—The course adopted by the Common School Trustees of dispensing with the merits of William Walsh in the schools, is one which will meet with little favor from the public at large. The idea appears to be to save the salary of a music master by getting the teachers to impart instruction. What nonsense. Who can hear a man talk in this way who pretends to know something about music, we have our doubts as to his sincerity. There is not one School teacher in a hundred who is competent to impart instruction in music in a proper manner, and it is unjust to require teachers to study the profession for this purpose. They have too many studies, even now, to be legally entitled to the miserable pittance penurious trustees, deal out to them. We would not be astonished were some of these trustees to suggest the advisability of teachers being examined in the principles of sawing wood, sweeping the school and drawing water. The proposition to ask a first-class music master to devote his while time to this work for the sum of \$200 per annum is a gratuitous insult to the profession.

THE SPRING TRADE OF HATS.

—For many years Mr. H. Beaton has done a remarkably successful trade in the Hat and Fur business in this city. This arises from the fact that he always keeps the best goods and charges prices which will be found as low as any other house in the country. Those who want anything for the spring and summer trade would do well to give him a call. No retail house in Canada can offer better inducements to customers.

WE DESIRE TO CALL THE ATTENTION OF OUR READERS TO THE SUPPLEMENT WITH THIS PAPER.

Setting forth the merits of that popular medicine, Burdock Blood Bitters, manufactured by the enterprising firm of T. Millburn & Co., Toronto. We learn that this medicine has been scarcely a year in the market and already its sales are pushing enormous; the demand, we are told, is such that it is difficult to keep up the supply. Those who are usually sparing of our countrymen's money, and who are usually of the opinion that we can safely spare our readers, that is that the people may rely upon the integrity of the manufacturers in performing all their preparations have attained by their intrinsic value a permanent place as household remedies, and we predict for this new candidate an unequalled vote of success.

mill behind, and only one pair of smallish horses on the tongue. It was a perfect success. Done some clover threshing on the Twenty Mile Creek, where they have mud smooth and sticky, so you could hardly keep engine on the road. Important to Housekeepers.

On looking through Green's immense stock, housekeepers will find it well assorted in all the staple lines required by them, and at prices as low as any in the city. He is showing a splendid line in bleached and unbleached table linens, napkins, D'Oylies, linen towels, sheetings and pillow cottons, at remarkably low prices. The largest and cheapest stock of lace curtains in London is kept by Green, comprising all the latest and the very newest designs in these goods. Parties requiring lace curtains should not fail to see Green's stock. Just received, one case of colored satins, comprising all the leading shades, and are well worth \$1.25cts. per yard. Green is selling these at 75cts. per yard. They are the cheapest goods in London. Be sure and see them.

THE ADVANTAGE

And convenience of the New York Catholic Agency is that any one can order goods of every kind through it. The writing of one letter, making one payment and one express or freight charge, when one wants a variety, is certainly a convenience and saving. It also attends to the transacting of business or personal matters that require careful personal attention. Its value will be appreciated by all who send their orders to Thomas J. Egan, New York Catholic Agency, 37 Barclay street, New York.

BACK AGAIN.—Our old friend, Mr. J. J. Hanratty, has just opened out a magnificent stock of dry goods on Dundas street, opposite Melbourn Bank. From Mr. Hanratty's well known business ability, straightforward dealing, and his thorough knowledge of every department of the dry goods line, we have no doubt he will build up a very large trade. The present stock consists of new goods of the choicest qualities, and the prices will be as low as any house in Ontario.

COMMERCIAL.

London Markets.

There was a fair market to-day, the bright and beautiful April sunshine persuading many a farmer to come to the city. No change in quotations were noticed, however.

Wheat, Spring ..... \$1.85 to 1.87  
" Do. Winter ..... 1.78 to 1.81  
" Do. Red ..... 1.74 to 1.82  
" Do. White ..... 1.71 to 1.79  
Oats ..... 1.06 to 1.15  
Peas ..... 1.18 to 1.20  
Beans ..... 1.00 to 1.00  
Rye ..... 1.00 to 1.00  
Buckwheat ..... 1.15 to 1.20  
Lard ..... 4.75 to 5.00  
Timothy Seed ..... 2.00 to 2.25  
Fall Wheat Flour, per cwt. 3.00 to 3.25  
Spring Flour, per cwt. 2.75 to 3.00  
Oatmeal, Fine, per cwt. 2.50 to 2.75  
Graham Flour, per cwt. 2.25 to 2.50  
Cornmeal, per cwt. 1.50 to 1.75  
Barley, per cwt. 1.20 to 1.40  
Hay, per ton ..... 8.00 to 10.00

CONSUMPTION

CAN POSITIVELY BE CURED! A WRITER in the Congregationalist describes the edifying death of an American in the south of France, who departed life in the full confidence that a seat already prepared for him in heaven. The departed saint was a fugitive from his own country's justice, but that no difference in his spiritual concept, died, had the annotator taken the time to question him on the state of moral Europe, he would no doubt have still more edifying remarks concerning the benighted condition of the poor Papal kingdom whom he dwelt.—Pilot.
