

# The Farmers' Market

## WINNIPEG MARKET LETTER

(Office of The Grain Growers' Grain Company Limited July 8, 1916)

Wheat—Closing prices on Saturday were 3¢ cents higher for July than on the previous week-end, 31 cents higher for October and 31 cents higher for December. The market on Monday was strong on account of firmer Liverpool and American markets. For the balance of the week prices were steady within a narrow range and the market appeared to be in a rut and this condition prevailed also for the greater part of Saturday morning session. Then toward the end of Saturday's session prices jumped to such a condition. Winnipeg futures advanced 1 1/2¢ to 31¢ and closed at 31 1/2¢, the greatest advance. Weather conditions warrant these sharp advances will be shown by later advices from affected districts.

Oats—Closed 1 lower for July and 1 higher for October. Prices were fairly steady for buyers during the week, but the premiums for cash oats declined to 1 cent over July price for two Canada Western grades and 1 cent under July for Three Canada Westerns. There are large stocks of oats in our terminals, and a large number of cars imported each day so that buyers have little difficulty in filling their requirements.

Barley—In good demand now and offerings are light. As a result prices are advancing quite steadily for the week above a gain of from 2 to 4 cents.

Flax—Advanced from 9 cents to 9 1/2 cents on the week's business, with considerable inquiry for the cash article indicating revived interest on the part of the exporters.
