NEWSY LETTER FROM FLORIDA

Mr. D. R. Leavens Tells Of Good Times in the Sunny South

Block Built in 45 Days

Wide-Awake Business Men—Fishing for Mackerel and Sharks.

Editor Ontario.

Just a few lines to let you know how we are enjoying ourselves here. We have had a delightful time so far. There has not been a day without the sun shining, nor have we been kept in doors.

On our arrival here I rented a bungalow. They all say I made a great bargain. I only paid \$50 per month. When I put down the Pino the agent of the lady owner said "we all get the rents in advance". It was final and I had to come to time.

We have windows open at night, and open doors all day. We don't like the plan of screen doors as we might waken some beautiful a.m. and find one of us missing.

New we are in a "dry" city but they have a nice way of getting around the "open bar". There are some 400 fishermen here, some of whom are colored gents, who just sip some small flask in their boots and retail it out at \$2.00 per can. They have numerous ways of doing a large trade as the records kept for the past three years show there were more arrests made this year than in any of the three years prior to this, so you see the record so far has not been so good as we would like to see. I will say that while the law has so far been well obeyed the city has not advanced as it did before it was a "dry" place, owing to it being a port of shipping and four hundred or more fishermen who go out to sea catching Spanish mackerel every morning.

We tourists go out in larger boats costing \$2 per trip with, say, four persons, tackle furnished. You ought to see as come back at 4 p.m. with from 20 to 30 King mackerel weighing as much as 20 pounds. Grouper 15 to 20 lbs., but the grouper will bite you. When we want sharks we have to take shark tackle and they weigh from 200 to 1200 pounds. We shoot them with a rifle when we get them near our boats. I might say that we have a large number of boats which come down here every year and follow up the tourists as they come south. They go on down to Texas and other sea-ports, then back to New York and do the same thing around that city.

As to the game here, I have been out shooting deer in an auto-car and also quail, ducks and woodchucks, called groundhog here. They are the same as we have out north, only some are larger. Turkey, buzzards and many other kind of game birds are here, including the Mocking Bird which comes out at evening time into the garden and sing the same as the Whip-poor-will in the back woods. He has all sorts of songs that we can enjoy, not as the Whip-poor-

will with only one song. As to this Magic City which is so well advertised, the merchants are a live, wide-awake lot. They have fine salesmen and saleswomen and cannot do too much to please customers. It is worth much for a business man to come here just to see how they manage their shops. We often wonder why Old Belleville does not wake-up. This place is about 20 years old, I arrived here for the first time nine years ago and when I see it today and return home and tell of the growth people say to me "how can you state such things?" I enclose a photo of a four story building which was erected in forty-five days under contract and for five days in which he failed he forfeited \$200 per day. This, I think, would open the eyes of our builders in Belleville. The building cost \$20,000 to \$30,000. I was watching them finish it. I supposed they would work Sundays and nights, but all was closed on Sunday before closing I might say we don't grasp the idea that we ought not to venture in money. Our chance of making money by taking a venture, as any business man can tell you, is that no investment of get-rich-quick is a large chance game to play. As a venture some 10 or 15 years ago I got up a plan of the River Moira, called a meeting at the City Hall, explained how Belleville could use its water in the back lake, where I have hunted now over thirty-four years, and also showed how, if my plans were carried out, we would have in place of the Seymour Electric Power and Water Company a guarantee to the citizens of Belleville that no more flood would take place, and a bona fide guaranteed in bonds would have been given. Did those few persons give me any encouragement? No. I offered to take \$2000 stock and in this way prove my faith in the water power. But there was no result. We pay a much larger rate for our light and will, I fear, have to pay also for power and heat, whereas, if I had been given any encouragement we would be a manufacturing city today, and from Belleville to Tweed would have water power, which is the cheapest on earth, and the river would be dotted with factories down to Old Belleville. Later on Mr. Editor I may show you how Belleville may induce the boys to remain at home and not leave it as I did in 1864 with only \$30 in my pocket.

—D. R. Leavens.

Montreal, April 26.—While much discussion has recently been carried on at Ottawa and elsewhere on the best method of dealing with the returned soldiers after the war, both our Canadian soldiers and the British veterans are not unlikely to come here in considerable numbers, a few practical suggestions have been made.

With the object of finding whether the Canadian Pacific Railway had any proposal under consideration, a representative of a Montreal newspaper approached Lord Shaughnessy. The visit was evidently opportune.

"As a matter of fact," said the C. P. R. president, "we have been giving this question the most careful consideration and have just decided on a comprehensive plan of colonization which will be the largest in the history of the Canadian Pacific Railway, and as you know we have done more colonization work probably than any other transportation or other corporation in the world. The details of this colonization plan, are being worked out just now and when I tell you that it involves the preparation of perhaps as many as a thousand farms in Western Canada for occupation next spring, you may realize the size of our undertaking."

Our duty, however, demands that this great problem be met with the energy that it deserves. One of the most serious problems facing Canada today is the matter of handling the hundreds of thousands returned soldiers after the close of the war. The military service will have unsettled and unfitted many of them for a return to ordinary life and something will have to be done to enable them to obtain outside employment. The problem is further complicated by the fact that without a very large number of men, who will be mustered out from the British Army will want to emigrate to the overseas dominion and provision must be made to properly take care of them and colonize them in suitable employment. The problem is one of such magnitude that it must be faced and solved by the Dominion Government but the Provincial Government and the large Canadian corporations must also do their part. Realizing that the necessity must be met and desiring to take its share of the burden of trying to solve this problem and assist the men who have fought the battles of the empire the Canadian Pacific Railway Company has decided to establish in Western Canada colonies which for the moment we are calling "returned veterans' colonies" where men who wish to go in for farming can obtain improved farms on easy terms which will in time enable them to become land owners and create homes for themselves and their families. These colonies will be given distinctive names probably with military associations and will contain a sufficient number of families in each to insure social, school and church facilities and in each case will include a central instructive farm under a competent agriculturist, so that advice and instruction may be available for the colonist. Our experience in connection with the ready-made farms has been invaluable and will enable us to avoid mistakes which are inevitable to new undertakings. The burden which we propose to carry will be no light one as human nature is such that there are always fault finders, always square pegs which will not fit into round holes. We have had such cases in connection with our ready-made farms scheme that have been highly successful, for instance, Sedgewick which has a group of settlers of which Western Canada may well be proud.

"But we are prepared to face all the troubles; all the petty annoyances which may occur in connection with this still greater scheme, realizing that it is our duty towards the empire to which we are proud to

belong."

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Mr. Roosevelt in a statement, declares for a protective tariff as one of the big issues in the Presidential campaign.

New York State Senate passed a bill for military training in public schools.

She Did Not Heed the Danger Signals BUT DODD'S KIDNEY PILLS CURED HER DIABETES.

Mrs. McDonald Might Have Saved Herself Months of Pain, Sleeplessness and Anxiety by Using Dodd's Kidney Pills Earlier.

Grand Narrows, Victoria Co., N.S., April 24th, 1916.—(Special).—That Dodd's Kidney Pills will cure Kidney disease in its worst form is evidenced by the case of Mrs. Roderick McDonald, an estimable resident of this place. Mrs. McDonald suffered from diabetes for two years, and found her first relief in Dodd's Kidney Pills.

"I am sure I would be in my grave to-day but for Dodd's Kidney Pills," Mrs. McDonald states. "The doctor attended me for five months for diabetes, but I was worse when I stopped taking his medicine than when I started. I could not get a wink of sleep."

"As soon as I started taking Dodd's Kidney Pills I fell in a solid sleep for one hour, and soon I got so that I could sleep fine."

"Dodd's Kidney Pills have done so much for me that I feel like recommending them to everybody."

Mrs. McDonald states that her earlier symptoms were shortness of breath, dizziness, backache and a bitter taste in her mouth in the morning. All these are symptoms of kidney trouble—danger signals that no one can afford to neglect. Had she heeded them and taken Dodd's Kidney Pills she would have saved herself months of pain and anxiety.

Mr. Roosevelt in a statement, declares for a protective tariff as one of the big issues in the Presidential campaign.

New York State Senate passed a bill for military training in public schools.

FOR SOLDIERS WHO COME BACK

C. P. Railway Will Establish the Returned Veterans in Colonies

PRESIDENT'S PROPOSAL.

Practical Method of Dealing With What Will Become A Serious Problem.

Montreal, April 26.—While much discussion has recently been carried on at Ottawa and elsewhere on the best method of dealing with the returned soldiers after the war, both our Canadian soldiers and the British veterans are not unlikely to come here in considerable numbers, a few practical suggestions have been made.

With the object of finding whether the Canadian Pacific Railway had any proposal under consideration, a representative of a Montreal newspaper approached Lord Shaughnessy. The visit was evidently opportune.

"As a matter of fact," said the C. P. R. president, "we have been giving this question the most careful consideration and have just decided on a comprehensive plan of colonization which will be the largest in the history of the Canadian Pacific Railway, and as you know we have done more colonization work probably than any other transportation or other corporation in the world. The details of this colonization plan, are being worked out just now and when I tell you that it involves the preparation of perhaps as many as a thousand farms in Western Canada for occupation next spring, you may realize the size of our undertaking."

Our duty, however, demands that this great problem be met with the energy that it deserves. One of the most serious problems facing Canada today is the matter of handling the hundreds of thousands returned soldiers after the close of the war. The military service will have unsettled and unfitted many of them for a return to ordinary life and something will have to be done to enable them to obtain outside employment. The problem is further complicated by the fact that without a very large number of men, who will be mustered out from the British Army will want to emigrate to the overseas dominion and provision must be made to properly take care of them and colonize them in suitable employment. The problem is one of such magnitude that it must be faced and solved by the Dominion Government but the Provincial Government and the large Canadian corporations must also do their part. Realizing that the necessity must be met and desiring to take its share of the burden of trying to solve this problem and assist the men who have fought the battles of the empire the Canadian Pacific Railway Company has decided to establish in Western Canada colonies which for the moment we are calling "returned veterans' colonies" where men who wish to go in for farming can obtain improved farms on easy terms which will in time enable them to become land owners and create homes for themselves and their families. These colonies will be given distinctive names probably with military associations and will contain a sufficient number of families in each to insure social, school and church facilities and in each case will include a central instructive farm under a competent agriculturist, so that advice and instruction may be available for the colonist. Our experience in connection with the ready-made farms has been invaluable and will enable us to avoid mistakes which are inevitable to new undertakings. The burden which we propose to carry will be no light one as human nature is such that there are always fault finders, always square pegs which will not fit into round holes. We have had such cases in connection with our ready-made farms scheme that have been highly successful, for instance, Sedgewick which has a group of settlers of which Western Canada may well be proud.

"But we are prepared to face all the troubles; all the petty annoyances which may occur in connection with this still greater scheme, realizing that it is our duty towards the empire to which we are proud to

belong."

New York State Senate passed a bill for military training in public schools.

WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y.—"For two years I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation."—Mrs. JOHN A. KOENIG, 502 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were advised and were not performed, or if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

If you want advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

CLAIMED DAMAGES FOR KISSES. Fair Plaintiff Said Strenuous Lover Left Imprint of Teeth.

A most unusual case heard before Judge Huycke at Havelock was that of an action for monetary damages brought by a Mrs. Ida Johnson of Campbellford against Mr. John Elias Thomas of town. Mrs. Johnson's action was based on an alleged assault said to have occurred at her mother's home at Healy Falls in November last, and which, she swore, was for the purpose of improper relations. The evidence of the fair plaintiff disclosed the interesting statement that Thomas hugged and kissed her so strongly that the imprint of his teeth were left in her cheek for an hour afterward. All this occurred she swore, within a few feet of her mother and sister-in-law, but she did not cry for help, nor did she tell her husband until three weeks later. Thomas denied her story emphatically, and recounted an attempt of plaintiff and her husband to force him to pay for the alleged kisses, which he said he never gave, as he wasn't that kind of a man. Judge Huycke in summing up, said that a case of this nature was usually a matter for a criminal instead of a civil court. The defendant, he said, was very fortunate in having some evidence to corroborate his own, which usually is not the case. The case must fall from the evidence of the plaintiff as he could not reconcile her statements of the events she swore to. The object, apparently, Judge Huycke said, was blackmail, and C. A. Ghent appeared for the plaintiff and F. D. Kerr for the defendant.

She Did Not Heed the Danger Signals BUT DODD'S KIDNEY PILLS CURED HER DIABETES.

Mrs. McDonald Might Have Saved Herself Months of Pain, Sleeplessness and Anxiety by Using Dodd's Kidney Pills Earlier.

Grand Narrows, Victoria Co., N.S., April 24th, 1916.—(Special).—That Dodd's Kidney Pills will cure Kidney disease in its worst form is evidenced by the case of Mrs. Roderick McDonald, an estimable resident of this place.
