If You Have 10 Cows— Or More.

COME in and let us tell you why we believe you should have an Empire Milking Machine. We have found the Empire to be the best of the different makes, and we sell it because it always gives great satisfaction.

An Empire will not only save your labor and time, but it will increase the flow of milk, and lengthen the period of lactation. Easy to operate and to clean, and possessing certain characteristics which make it even more uniform and agreeable to the cow in its action than the natural action of the calf.

It will save its cost in a short time and improve your milk output immeasurably. Come in and see it or ask us to come out and see you.
