Girls' 6 to 14 years.

**\$1.60 to \$2.00.**

Women's, sizes 34 to 40.

Price **\$1.30.**

## Winterton Folk Tender Thanks to People of Bay-de-Verde and Captain Roberts of the "Susu"

(To the Editor)

Dear Sir,—Will you please give me space in the columns of your paper to express the thankfulness of the undersigned, to the residents of Bay de Verde, and also Capt. Roberts of the S.S. Susu, who gladly rendered us valuable help while we were in danger of losing our boats and maybe our lives at the North Side of Bay de Verde. Head in the recent storm of August 1st.

Leaving Grate's Cove at the approach of the storm we ran to Bay de Verde (Back Side) in company with four other boats from Winterton and there rode out one of the worse gales we ever experienced.

Just about 3.30 a.m. our boat started to drift and being powerless to do anything to prevent her from driving off towards a lee shore, we saw our only chance of saving our lives was to hold a double reef foresail, which we did, thereby keeping her from going ashore, and when about 20 yards from land our anchors caught, leaving us in a very dangerous position.

The crews of the remaining boats after witnessing the scene quickly started for the harbour to secure the help of some men with the aid of motor boats to try and tow us in safely, help they quickly secured.

All the men (whose names appear below) on learning our condition in such a storm were ready at a moment's notice, but as the storm was violent it was feared that some breakdown would happen the engines, the men considered it wise to interview Capt. Roberts of the S.S. Susu, which was then lying at anchor. As soon as the Captain learned of our state he immediately got ready and was soon on the scene and after three attempts we got his line fastened and were soon towed in safety.

We herewith sincerely thank all the men who kindly give us their help, especially Capt. Roberts. We also thank the sentiments of the other boat crews in thanking the kind friends who made them so welcome to their homes, doing all possible for their comfort when on shore. Words fail to

express our appreciation towards these people, as this act alone proves that the people of Bay de Verde are no mean lot when the lives and property of their fellow fishermen are in danger.

We believe Capt. Roberts, judging from his willingness when called upon, has a tender spot in his heart for his fellow toilers. We wish all abundant happiness and prosperity. The following persons rendered us valuable help.

Thomas Moores, Thomas Riggs, John Green, Thomas Moores, Jr., Robt. Harnum, Moses Blunden, Stephen Lockyer, Edward Lockyer, Michael Kyes, John Sullivan, William Pinhorn, Robert Pinhorn, Andrew Nor-

Yours truly,

ELIOL HISCOCK,  
ROBERT HISCOCK,  
NOAH TUCKER,  
PETER TUCKER,  
JACOB HISCOCK,  
ERNEST HISCOCK.

Winterton, T.B., Aug. 14, 1916.

## America Fears Far East Power

LONDON, Aug. 15.—The "Nation" this week calls attention to the hitherto little noticed clause in Premier Asquith's speech of August 4, in which he referred to the safeguards against war as resting on the common will of Europe, but "not of Europe alone." The "Nation" asks whether this is a reply to President Wilson's speech of May 27 and an invitation to America to pursue a policy of guarantees—and if so, hopes that Foreign Minister Grey will expand it into a resounding exposition of policy. The "Nation" takes the view that America is anxious to mediate because she fears Europe is ruining herself and against a weakened Europe she dreads the advent of a great Far Eastern power.

## Reid's Agent at South Branch Unsatisfactory

(To the Editor)

Dear Sir,—I beg leave for space in your valuable paper for a few remarks concerning the treatment given us here by the Reid Mfd. Co.'s Agent. Parties living four miles from this station, have in this very busy season left their homes four miles from the station, and waited nearly all day for the Agent to unlock the freight shed to get out flour, but had to go home in the evening without it to a large family, the agent being working three miles from the station for his own interest.

Other different cases may be mentioned where freight has been landed for parties and no agent to be seen or found, and people having to take it without knowing whether they were treated right or different. We were never treated by agents of the said company in this manner until this man, as others holding the position gave perfect satisfaction. We are getting tired of being treated in this manner and we wish to make the matter public in order that conditions may be improved, as such has been kept private for too long.

No man can stay regular at his post, attend two fox farms, see to the cultivation of land two miles away and manage another farm, saying nothing of the time he loses repairing smash-ups owing to runaway accidents, while people are anxiously waiting for him to get food out of the station for their children who are hungry at home.

Trusting you will publish those few remarks, as we feel sure the Reid Co. will see that the public are not treated in this manner once they are aware of the facts.

Yours truly,

CAPE HERO.

South Branch, Aug. 13, 1916.

Remarkably unanimous movement of the population to the shady side of the street.

The fellow who pays only a poll tax does not seem to be kicking, because he was not asked to contribute to the patriotic fund.

## FRENCH CORPORAL AND ONE COMPANION CAPTURED HUNDRED GERMAN SOLDIERS

### Corporal Goutaubier Decorated With Military Cross for One of the Most Daredevil Feats of the War—With Private Guillot he Duped 100 Armed Germans to Surrender and Marched Them Back Prisoners—Guillot Met Death a Few Hours Later

PARIS, Aug. 12.—Corp. Goutaubier, of the French Light Infantry, has been decorated with the Military Cross by President Poincare for capturing 100 Germans, including two officers, aided only by a single companion. The curt reference to Corp. Goutaubier's exploit in army orders reads: "For bravery and contempt of danger which struck terror into the trenches and shelter of the enemy. With a single comrade he has made 100 prisoners, including two officers, whom he took to the rear and then rejoined his post."

When Corp. Goutaubier was paraded before President Poincare on the recent visit of the latter to the Somme front, he told the story of his feat at the request of the President.

It was on July 20, before Hem Woods. The French troops had just dashed forward at the German positions. The first wave had swept over the enemy's trenches, and the second had followed to complete the operation. However, from a hollow toward the right, a well-sustained fusillade was being poured on the flank of the attackers.

Goutaubier, who was at the right wing of the second wave, called out to one man, "Guillot, come with me." The two men approached the spot whence the firing came. They glided close to the shelter where a German company was holding out. Guillot threw bombs as fast as he could into their midst, and the fire ceased. "Surrender!" shouted the corporal in a stentorian voice from behind a tree.

In response to his demand 100 Germans emerged from the shelter with uplifted hands led by two officers.

"Pass along this way," shouted Goutaubier from his hiding place. "Get out of the wood at once and march to the rear." Two minutes later the 100 Germans, shepherded by the corporal and Guillot, arrived at the French lines.

The prisoners admitted that some of their comrades remained in the shelter. "Come on Guillot; let us go and fetch them," said Goutaubier. The two men started back but Guillot fell with a bullet in his breast, and the corporal had to abandon his enterprise.

### Oh! Girls Just Read This

BERLIN, Aug. 15.—One curious piece of war legislation is reported from Baden, where the reigning Grand Duke has authorized the Ministry of Justice to permit unmarried women to assume and legally wear the prefix "Mrs." if they can prove a bona fide engagement to marry a participant in the war, and if the prospective bridegroom has been killed or has disappeared as a result of the war. Baden is considered to have done original pioneer work in solving the difficult problem of the world war's new widows.

"Girl Needs \$18,500 a Year." Yes, and if you've ever had a girl you'll believe it.

## Experts Wrestle With Paralysis

### Rockefeller Engages Noted Japanese Scientist to Experiment—Plague is Spreading—Germs Well Developed in Little Animals From Philippines

NEW YORK, Aug. 12.—Backed by the millions of John D. Rockefeller, Dr. Hityo Noguchi, "the starkest of bacteriologists," has set out to find a cure for infantile paralysis.

The disease to-day killed and attacked more than 200 more babies, bringing the total of deaths to 1608 out of 4,842 reported cases. Deputy Health Commissioner Billings said the city could expect 10,000 cases before the epidemic is controlled.

Dr. Noguchi and the country's leading pathologists and bacteriologists are working day and night to evolve a specific. Scientists place their greatest hopes in the Japanese, whose brilliant laboratory conquests in the fifteen years of his association with Dr. Simon Flexner have been notable.

Dr. Noguchi is opening practically all of his working hours in his laboratory at the Rockefeller Institute. His assignment, it is said, was the personal direction of John D. Rockefeller, Mr. Rockefeller, one of his advisers to-day told the International News Service, is willing to spend any amount in the search for a specific.

The informant said the instituter received a shipment of monkeys from South America this week. These are being used by Noguchi and his assistants.

Another shipment is due shortly from the Philippines. Using these little animals as media, Dr. Noguchi hopes to work out the life cycle of the dread polio-myelitis germ just as was done with the malarial germ in the mosquito and the bubonic plague germ in the flea.

Two of the eminent scientists assembled in New York Thursday and Friday expressed the opinion that the chief hope for New York's crippled children lies in exhaustive not speedy laboratory work. They did not place

much faith in the blood serum which was tested with varying results in the Willard Parker Hospital. This treatment has been abandoned, it was learned yesterday. There was an insufficient supply of the serum and results were negative, it was stated semi-officially.

Surgeons of the New York Throat, Nose and Lung Hospital, on East 50th street, cling to their faith in the adrenalectomy treatment, recommended by Dr. Samuel James Meltzer. Dr. E. J. Bermingham, chief executive surgeon at the hospital, to-day issued an invitation to medical men to come to the institution.

A conference of charity, social service and health workers met in Commissioner Emerson's office to-day. It was to enlist the services of as many agencies as possible in a house to house canvass to begin Monday. The purpose of the missionaries will be to give advice to householders to locate news cases quickly and isolate promptly those infected.

## Poisoned in Chicago Hotel

CHICAGO, Ills., Aug. 14.—Morse Davis, of Victoria, B.C., is dead, and his wife Marie, are slowly recovering from the effects of poison which they drank in their apartments at a hotel here to-day.

Davis was the inventor of a high explosive shell, which it is said, he came to Chicago to sell.

According to the hotel physician Mrs. Davis had recovered sufficiently last night to make a connected statement of the poisoning. She said Mr. Davis always carried salts and a poison, which he used in his assaying tests of metals. Tuesday night they had eaten a salad for dinner, which disagreed with them, and Wednesday morning, she was nauseated and awakened Mr. Davis to procure salts for her. He complained also of nausea, and said he would take some salts after he had administered some to her. She said Mr. Davis had made a mistake and procured the poison instead of the salts. Mrs. Davis was greatly concerned at the disappearance of \$3,000 in travellers' checks, which she had seen in his possession recently, the physician added.
