THE MERRY RATE WAR

Two Boats Leave Loaded to the Guards

Creeks Being Visited by Representatives of the Different Steamer Lines.

The rate war which was precipitated Saturday by the smashing of the steamer combine is waxing merry today and there is more excitement on the water front than has been seen for many moons. Saturday night after Manager Calderhead's announcement of his determination to sell tickets for \$20 and \$25 good on any of his boats until October 1 he dispatched six agents up the creeks for the purpose of supplying the out of town trade with cheap transportation. The next day the White Pass followed suit, so the war is not con-fined to town alone but extends all over the district.

Two boats are leaving this evening and both are sold out solid. The White Pass people are dispatching the Victorian, their rates to White are dispatching \$20 and through horse being \$10 an to Skagway \$25 and \$35. As the railway fare is \$20 it is insisted that for the opposition to meet those which, however, is not being done. night is \$10 and berth of any description left. It is thought the two boats will take out fully 300 people, number that doubled by the end of the week. The Tyrrell has pulled out of the fight last week were either refunded their

money or transferred to the Sifton. There are in p today six un without undue river boats which crowding can carry 1000 people at one trip, and still others are expected down in a few days. The steamers in now are the Whitehorse, Sifton, Victorian, Casca, Dawson, and the Bonanza King. The nesday. The sailing date of the Casca has not yet een fixed. All

ness. For full particulars see CRIBBS, The Druggist King St., next to Post Office

Lone Star Looks Good.

The Lone Star quartz mine at the head of Victoria guich con-tinues to look better to the proporters as work progresses. At the present time a crew of nine men is at work night and day sinking directly on the ledge. They are now down a depth of 53 feet and the ledge continues to increase in width, the greater the depth the present time there is six feet of pay rock and the indications are that it will improve as they go down. Fifty pounds of samples were brought down on Saturday taken from the bottom of the shaft and almost without exception free gold may be seen upon them without the aid of a glass.

Contractor Hepron is in charge of the work and will continue sinking until a depth of 150 feet is reached. If the present showing continues it is announced that a plant will be placed on the ground nced that a plant will be placed on the ground mmediately and the Klondike as a quartz camp will be firmly established. A provisional board of directors is now in charge of the property and a regular company will not be organized until the shaft now being sunk is completed.

The owners are enthusiastic over the outlook, however, and say

that the Lone Star s a big thing beyond question.

to one of the opposing element.

The pivot of the scheme is expected to lie in the magnetis presence of Lord Roslyn, who sexpected to have as large a following here as lie

have as large a following here as ife did at Monaco, notwithstanding his inability to break the tank. His sys-tem will be exploited so the fullest extent. The news that he is travel-ing along the well known lines that on'y gamblers know is that should William C. Whitney succeed in forming Saratoga into an "American Newmarket Heath," they will found an American Monte Carlo that shall ******************

amaze the world. Nor will the men at the head of it conceal their enterprise behind the green doors. It will be systematically advertised. Men who go there will know exactly why they are going. There will be no subterfuges. Lord Realyn and his plunging tendencies will receive due publicity, and at the proper time, it is said, the great gambling Englishman, whose opera-tions at Monte Carlo received world wide attention, and who received from the Paris papers cusation that he was a "hireling,"

tile at irregular intervals for many Western Federation. months past, has at last turned over a new leaf. She was committed to the county

jail by Police Judge George six weeks ago, and had served just half her sentence, when she yesterday sent a message to the judge asking for her release, on the ground that she was about to be married and would in the future steer a course away from the cup which cheers and inebriates. Judge George was a little doubtful about the stability of Kitty's information, but 'finally concluded to grant her release under a suspended sentence. When the word reached the jail late in the afternoon the brideto-be arrayed herself in all her finery and started out in baste to find the happy man, who she stated was Jens Jenseh, a truck driver. The couple is expected at the court house today in search of a marriage licer

Relinquishes Control of Islands.

New Orleans, July 30 .- The steamer Condor, which has arrived here Puerto Cortez, Honduras, brings news that the British government has withdrawn all claim to sovereignty over the Bay islands of Utilla, Ruatan, Bonacca or Guanaja, Felna and Barbarat, and acknowledged that they belong to the Republic of Honduras.

Great Britain's formal acknowledgements was carried to the islands by the cruiser Psyche, which sailed from Havana under sealed orders on July 17. The British residents at Ruatan were assembled and a proclamation was read to them by the captain of the Psyche, declaring that under treaties made between Great Britain and the United States in 1850 and with Honduras in 1860 His Majesty's government could no longer regard the islands as a British possession and would henceforth withdraw all exercised jurisdiction or

The population of the islands is almost exclusively of British origin, coming from Jamaca, but there are some Americans from the western states who have recently come in. English is the only language spoken. The islands do a large fruit trade, mainly with New Orleans. The United States government is the only one having a consul in the islands.

Washery Destroyed by Fire.
