

Find Out Whether You have KIDNEY Trouble.

Almost every case of Bright's Disease could have been prevented by taking "Bu-Ju" in the earliest stages. The Kidneys became weakened—there was Rheumatism—pains in the back and chest, stiff neck, neuralgia, swollen hands and feet—yet no attention was paid to these danger signals until it was too late.

Kidney Disease is so insidious and gradual in its progress that one is too apt to disregard these signs of defective Kidneys, and attribute it to "feeling a little out of sorts."

Are YOU sure that YOUR Kidneys are well and strong? Make this simple test:

Bu-Ju

The Gentle Kidney Pill

Collect the morning urine in a vessel or glass and allow it to stand for 12 hours. When your Kidneys are healthy your urine should remain perfectly clear; but if the Kidneys are affected in any way, the urine on standing may throw down a brick dust deposit of a reddish color, or it may become milky or cloudy. Sometimes there will be shreds or particles floating around in it. If any of these conditions are present, DO NOT DELAY, but commence taking "Bu-Ju" at once.

If there is the slightest indication of Kidney Trouble, take the one remedy that will cure you—"Bu-Ju." Steady treatment with these Pills will give new strength and vitality to the Kidneys—neutralize uric acid—and so tone up the Kidneys that they will do their full share of the work.

"Bu-Ju" is guaranteed to cure or money refunded. At Druggists, or sent on receipt of price, 50c.

THE CLAFLIN CHEMICAL COMPANY, Limited, WINDSOR, Ont.

Wet-Proof—Cold-Proof—Almost Wear-Proof

When you want a pair of rubbers that will last until you're tired of them—rubbers that will keep your feet bone-dry though you wade all day in slushy snow—rubbers that will wear like flint and fit like slippers—go to a live dealer's and buy a pair stamped "Duck Never Break" on the soles. Up in the lumber camps they swear by Duck Never Break Rubbers. Prospectors and miners wear them, too. So do people who want rubbers that will stand pretty much any abuse. It simply isn't possible to make rubbers any better than we make Duck Never Breaks—in it possible to make them any stronger, any stancher, or any more wear-proof. They're made for service and give service—great service. Get a pair and see how a pair of really good rubbers can last.

THIS IS THE GEORGIAN DUCK NEVER BREAK

The Georgian is lined with tough tan-colored cotton. Latched with heavy canvas duck between the rubber upper and the tough cotton lining. Outer rolled sole and heel are double-heavy pure gum, compounded. Inside is an insole of solid leather, so you can have this shoe re-soled.

DUCK NEVER BREAK

Double Wear In Every Pair

STRENGTH LUMBER CURE

Guaranteed to Cure Lame Back or money refunded!

An excellent remedy for Rheumatism, Lame Back, Etc., Etc.

Read the following testimonial from a man you all know:

Mr. W. A. Singleton, Forfar, Feb. 6, 1906

Dear Sir,—Being laid up with lame back, I thought I would drop you a line to tell you that your St. Louis Lumber Cure will do all you claim for it, as I have only used a part of the bottle and I feel as returning symptoms of the disease. I say I have been troubled with lame back for the last ten years, and tried several other patent medicines but without results. I can testify to my own mind to any trouble with my back, and I feel safe in saying that it's the best medicine on the market.

Yours truly,

JAMES McCUE

If your dealer does not keep this medicine, kindly ask him to order same for you as any sized order will be filled promptly.

First order, eight propyl

Yours truly,

W. A. SINGLETON

A Specialist's Prescription for women

Who Feel Tired and Run Down.

A Remedy that Gives New Life and Vigor and makes Women Feel Good.

Dr. Hugo's Health Tablets for Women are the prescription of a specialist. We don't say that no other living physician could prescribe so good a remedy for women. But we do say this. The ordinary practicing physician cannot prescribe so good a one, and no living physician can prescribe a better one.

Dr. Hugo put into the prescription all the knowledge, experience and skill which he had acquired in forty years' practice as a specialist in women's diseases, and included as well the discoveries of all other great physicians. All that is latest in medicine—all that has been found useful to women, is contained in them. Nothing useless has been included. Nothing useful has been left out.

The result is, that every requirement of the female system in any possible condition is met by them.

And this fact has been certified to by leading physicians and chemists on this continent, to whom Dr. Hugo's prescription was submitted.

If you are in a run-down condition and don't feel as well as you would like to, or suffer from any menstruation difficulty, or weakness peculiar to your sex, avail yourself at once of the prescription of this great and good physician.

The cost of 72 tablets, enough for an extended treatment, is only 50c.

Dr. Hugo's Health Tablets Make Healthy Women.

In Westminster Abbey. In the west cloister of Westminster Abbey is a gravestone to John Broughton, once champion prize fighter of England.

London Streets. Miles lane is a corruption of St. Michael's lane; Mark lane for Mark (market) lane; Sermon lane for Sermonier lane, the locality of the "sermoniers," who sheared or clipped bullion into shape for coining at the exchange near by; Sise lane for St. Oystin's lane; Gutter lane for Gutthun lane, from a Dane who owned the property there.

Perspiration. Human perspiration if injected into dogs or rabbits acts like a deadly poison. Perspiration secreted during hard muscular work has more toxic power than the ordinary kind, while that obtained from subjects whose secretion has been checked by cold is very poisonous.

Venetian Glass. Venetian glass is not made in Venice, but in the island of Murano.

Snappy Seeds. The seed vessels of wild peas and beans when dry open and curl up with a sudden snap which expels the seeds sometimes to a distance of twelve to twenty feet. Indications of this habit are seen in the cultivated varieties, the seed pods of which often curl with a snap when opened.

Discovered by Accident. The vast collection of the state papers of Thurlow, Cromwell's state secretary, which make about 700 volumes, was discovered by accident. They had been hidden in the false ceiling of a room in Lincoln's Inn. By accident, the fastenings having rusted away, the ceiling fell, and this precious collection came to light.

The Flounder. The flounder is an industrious fish and lays 7,000,000 eggs in a year.

AN ITEM OF HONOR

At Harlem, last Sabbath, after the weekly service in the Methodist church, the following address was read to Mr. and Mrs. W. B. Percival, who are now settling their family in Athens. Accompanying the address was a purse contributed by many of the residents of Harlem and Chantry and which was handed to Mrs. Percival at the proper time by Ethel South, a young Miss about seven summers. Although taken by surprise Mr. Percival very suitably expressed the thanks of Mrs. Percival and himself for the interest and good wishes thus shown by their many friends.

To Mr. and Mrs. Percival.

Dear Friends,—The people of Harlem and Chantry feel that we can not let you go to your new home without expressing our regrets that circumstances remove from us two people with whom we have had such pleasant associations. We trust that the fates of Providence may soon bring you to mingle with us again as members of the same community, and hope that the distance to your new home will not prevent us from frequently enjoying the benefit of your company and advice.

We present you with this small purse wherewith to purchase some memento to remind you both of the halcyon days we have spent together in the solution of the various problems of life, and the service of the Master. This is not intended as a reward for your esteemed assistance and diligent labor in connection with our Sabbath school and church work; but as a mere symbol of our appreciation of your intense anxiety and self-denying labor for the benefit of our young people.

Whether our paths run in unison or are divided in the future, we think while saying adieu, of the reunion in that beautiful land "Where the wicked cease from troubling and the weary are at rest."

SIGNED BY COMMITTEE.

The Reporter joins with the many friends of Mr. and Mrs. Percival in welcoming them to Athens and wish them a long and happy residence here.

LOCAL ITEM

The British army estimates for 1907-8 are \$10,000,000 less than they were for last year.

Mrs. Morgan King returned home Friday from St. Vincent de Paul hospital where she has been a patient for some time.

The work of double tracking the C. P. R. between Smith's Falls and Montreal has been commenced. Men are at work on the cut east of Merrickville and at once a number of gangs are to be put on.

"The People's Column" for small ad's affords the public a cheap and effective means of buying, selling, renting or changing. If you have any unsatisfied want or if you want to satisfy the want of some wantor, make the fact known through this column, it will do you good.

Premier Whitney now declares that he did not tell the Temperance deputation that he would not make any change in the three-fifths clause of the local option act, but had said "no hasty change" would be made. There is a gleam of hope for prohibitionists in the present situation. With the Liberal leader in favor of abolishing the clause and the Conservative leader regarding it as an experiment, its lease of life will probably not extend to the next general election.

Lawyers and Our Public Life.

Without stopping for statistics, which have been so often collated, it is enough to say that in the public life of this country the lawyer has been the conspicuous factor. The judiciary, of course, is altogether composed of members of the profession. In executive offices and legislative halls the law has predominated and still predominates over every business and all other professions. Yet the public life of this country has been of the highest character. Acting for the public as the lawyers have done in these various fields of official labor, they have proved true to their employment, and it may safely be said that the scandals which have sometimes been found in official life have seldom been attached to them. How can this be accounted for except upon the theory of a general personal integrity? It is no sufficient explanation to say that, although the great mass of the profession is corrupt, there are a few who are reliable, and they are the ones whom the public select for official life. The truth is their very prominence in public life, their fidelity to the trusts therein imposed, is evidence which cannot be ignored that the profession has and maintains a character for honesty and uprightness which attracts general confidence.—D. J. Brewer in Atlantic.

The "Danger" of Home.

"Home is the most dangerous place I ever go to," remarked John Muir, the famous geologist and naturalist. He was on the train returning from Arizona to his home in Martinez, Cal., after the earthquake. "As long as I camp out in the mountains, without tent or blankets, I get along very well, but the minute I get into a house and have a warm bed and begin to live on fine food I get into a draft, and the next thing I know I am coughing and sneezing and altogether miserable. Outdoors is the natural place for a man. Walk where you please, when you like, and take your time. The mountains won't hurt you, nor the exposure. Why, I can live out for \$50 a year for bread and tea and occasionally a little tobacco. All I need is a sack for the bread and a pot to boil water in and an ax. The rest is easy."—World's Work.

Export Whip Crackers.

"The French," said the sailor, "have whip cracker competitions. A French caddy or tricker is as proud of his whip crackin' ability as a young man is of his drinkin' powers. There ain't no driver livin' what can crack a whip like a Frenchman. Walkin' along the streets of Paris is like walkin' through a battle on every side, bang, crack, blif, go the whips. The thing makes you mad. It scares you. It's as if a gun was continually bein' shot off alongside of your ear. But at the competitions it ain't only the loud cracks that count. They have artists there—men what can play a tune on a whip. Yes, sir, a tune. I've heard 'em. I've heard the 'Mar-slays' and 'Hiawatha' and 'Foller On' played with whip cracks, and played as delicate and sweet and lovely as the ear could wish to hear."

Meaning In Oriental Rugs.

Not only the design but the colors of the rugs woven in the orient are full of significance. They represent national or individual traditions and stand for virtue, vices and social importance. Red was regarded by the Egyptians as symbols of fidelity. Rose tints signify the highest wisdom and black and indigo sorrow with the Persians. Preferences for duller tones of color among the Persians give to all their embroideries and other products of the loom a certain richness and dignity. Tyrian purple is almost universally regarded as royal. Green has been chosen by the Turk as his gala color, but he would not approve of its use in rugs, where it would be trodden by the feet.

THE Greatest of Tonics

PSYCHINE

(Pronounced Si-KEEN.)
FOR ALL THROAT AND LUNG TROUBLES

TWENTY-FIVE YEARS' SUCCESSFUL RECORD

MONEY can buy advertising space, but it can't buy a quarter century's successful record of wonderful and almost miraculous cures of the most difficult and intricate cases of throat, lung and stomach troubles. Such is Psychine's record. Thousands of cases given up by leading doctors as hopeless and incurable have been quickly and permanently cured by Psychine. It is an infallible remedy for coughs, colds, bronchitis, pneumonia, consumption, indigestion, loss of appetite and all wasting diseases.

"My son had a terrible cough and was wasted to a shadow. Doctors said he could not live. He used Psychine, it cured him."—Mrs. J. R. B. of Brockville.

"After taking \$5.00 worth of Psychine my lungs are well and life is again worth living."—Mrs. L. Richards, Marietta Cove, N.B.
