CONDEMNS THE PROPOSAL

His Honor Judge Bell Points Out That City Council is Not Acting Within Legal Rights

By Attempting to Close Stanley Ave. They Jeopardize Legality, Injure Property and Inflict Injustice Upon the Whole City.

Speaking of the proposal of the City Council to close up that part of Stanley avenue extending from William street to the river in the interests of the Mineral Co., to the Planet this morning, His Honor Judge Bell expressed the opinion that the proceeding was entirely wrong and could not be justified upon legal grounds.

"In my opinion," said His Honor, "any ratepayer could issue a binding injunction. It would be manifestly unjust and totally without precedent, could a private enterprise engaged in private speculation take over public property and public rights."

"It would also be a serious injury to the city. The foot of the avenue is now the only spot on that side of the river bank where cargoes can be properly landed, and such a proceeding as proposed would undoubtedly depreciate the value of adjoining property. In this, of course, I am personally interested as I own the house on the opposite corner."

"The Council, in my opinion, are seriously overstepping their rights and placing themselves in an indefensible position by their action."

The views held by Judge Bell are endorsed by many other citizens and the matter should receive attention at the hands of their civic representatives.

TACKLED HIS HONOR

Barrister Scane and Judge Bell Have a Lively Tete-a-Tete On the Streets.

The Former Threatened to do Things, But Trouble was Fortunately Averted.

W. W. Scane and Judge Bell had somewhat of an argument this morning on the street.

His Honor met the barrister and desired to know what the Mineral Water Company meant by closing up Stanley Ave. It was, he said, nothing but an effort of a city alderman to get a good big figure for his property.

"Look here," said the Maple City humor manufacturer, who had become suddenly serious, "You are mistaken in several places. George Taylor wasn't at the Council meeting and in the second place, he doesn't want as much for his property as you do for the land across the road."

The Judge thought that if he wasn't there, Ald. Taylor should have been, as his absence made the majority for the resolution closing up Stanley avenue all the greater.

Mr. Scane answered that no member of the Council had opposed the resolution, and further the mineral baths would prove a benefit to the city and nearly every citizen had stock in the company.

The Judge characterized the last statement as a gross exaggeration, and said that the whole council were mixed up in a scheme to steal the street from the city.

This was too much for Walter and he was as ready to resent the insult to his father as he had been willing to disagree with the Judge.

"Look here," he cried, vehemently shaking his hand, "my father is in that Council and don't you be casting any reflections on him. If you repeat your insult I will hit you so hard that you will never come back."

The growth of this institution during the last two years has been wonderful. The attendance has been doubled on account of the thorough course of training which we give. One of our young men is now drawing a salary of \$1,800 a year; another \$900; others from \$400 to \$800. Within the last month two of our students have gone direct from the College to positions paying \$500 a year. WE QUALIFY OUR STUDENTS TO FILL THE BEST POSITIONS.

Young people are foolish to spend the best part of their lives learning Latin, French and the dead languages, when a few months spent in our Commercial or Shorthand Department will fit them to earn salaries like the above.

Eighty-seven per cent. of all our students who have written on the examinations of the Business Educators' Association of Canada this year have been successful.
