The Town Election.

In a very few weeks now we shall be having our civic election for May or and Connellions. This is an occasion of more than ordinary interest and should is no way be neglected by the patriotic citizen. In the long-run the success or fallure of our Canadian form of government will depend upon the kind of city and town government will depend upon the kind of city and town government will depend upon the kind of city and town government will depend upon the kind of city and town government which we have. This is the place where government comes near cit to the individual, and this is the place where the good or ill of the system will appear in the clearest way. The tendency is recent years in many. The tendency is recent years in many of the goods as a despread indifference on the part of a large number of the goods as to the council elected and the work that is afterwards per formed by it. Basy with their own affairs they are inclined to allow those who are interested to do what they will in town politics. The result has been to make this the weakest part of the system. Some cities have government in the long-run will be good government. While Wolfville so tar in its history line that can redeem a situation which many always become bad is the real interest of all the wakes of a light continued in the selection of the mes who have conducted its after, it is undoubtedly the days to the Provincial Server large states of the system. Some cities have government will be good government. While Wolfville so tar in its history long-run will be good government. While Wolfville so tar in its history long-run will be good government. While Wolfville so tar in its history every citizen to take the keenest in that vicinity. On motion it was accided to place at light as desired returning officer and a. E. Coldwell poli clerk for the ensuing excellon. It is have a considered to place at light as desired returning officer and a. E. Coldwell poli clerk for the ensuing ment make the adesired returning officer and
