He still maintains that the street lighting by-law was dectored after the aldermen had dealt with it, and deelared that he was going to instruct City Solicitor Waddell to make a search and

Solicitor Waddell to make a search and see if he could not find the riginal contract in an effort to disever whose handwriting it is in.

The Mayor still holds the the Cataract Company's claim that it is selling power at \$10 and \$11 here is a chestnut. "I am prepared," he sad, "to bind myself hand and foot to the Cataract Power Company if it will rake a contract to supply the city win power at \$13 per horse power for wenty-four hours, and to be paid just forthe amount of power used." He thin's General Manager Hawkins would bek down if this proposition were put to him.

The Mayor has the whole ower question nicely settled to his own satisfaction. The Government is gong to build a first class, up-to-date line, he says, and he interprets this to mean a high tension transmission line of 19,000 volts and claims this is what the figures are based on. This is more than any of the engineers or members of the Power Commission have yet claims!. Last night Mr. McNaught said the Government expected to have a line of 120,000 volts instead of 60,000. This of course, will cost considerably more and must will cost considerably more and must necessarily mean a revision of the fig-ures. And still they argue the fig-ures are reliable and final.

The following stump speeches were then given: "Friendship," "The Unemployed," "Lake-side Park," "A Gymnasium," "Cheap Power," "The Disarmament of the Nations," "Love." Some of the speeches were very good indeed. The oysters then appeared on the scene, and the boys made quick work of them, after which carpet hall, chess and other games were indulged in. The club is going to have an oratorical contest near the end of the month, open to club members only. in the school room. There has been a
