TEMPERANCE SOCIETY. - The Tuesday evening's performance by the Tilly branch C. of the list. E. temperance society at city hall was well worthy of better patronage. The minstrel troupe in connection are good players and will at a future time no doubt be more highly appreciated.

SPECIAL TRAIN. - A special train was put on the Gibson-Woodstock branch of the C. P. R., on Tuesday. It is under conductor Colwell, and will handle logs and heavy freight principally. Conductor Hoben runs his old train which now carries a daily mail to all stations on the line.

CHEAP HAY .- Tuesday was a great hay day at the market, some fifty loads being on sale. Seven and eight dollars per ton were asked while five and six were offered. Severai loads were taken home, the farmers not being willing to sell at such a low price. Most of the hay came from the islands.

PORK GONE UP. - A few days since conductor Sterling's train on the C. P. R. struck a large hog at one of the way stations. The pig was thrown on top of a snow drift with both hind legs broken. Ere the train had

Going West .- Geo. N. Bookout, who has worked at Edgecombe & Sons' carriage factory for years as a trimmer, has decided to go west. He goes to Los Angelos. Several of the other employes are also considering the advisability of taking a similar step as they have been out of employment since the factory shut down.

COLD BATH .- An amusing though rather severe mishap took place at the Grand Pass, Sugar Island, where the boom company are building piers on Monday. John Barker was unloading his sled of stone when the horse started, throwing him backwards into the open water, where the ice had been cut out. He was speedily got out none the worse for his ducking.

VISITING .- D. H. Ross, with his wife and child have returned from Missoula, Montana on a visit to their friends in Fredericton and vicinity. Mr. Ross belongs to Woodstock. Mrs. Ross is a daughter of John A. Gunter. of Queensbury. Mr. Ross has done well in the west where he has been nine years. The firm of D. H. Sandy was very popular with all. The proprietors and workmen joined in a complimentary address and presented Mr. Haining with a handsome gold ring as a token of their appreciation and best wishes.

MAPLE SUGAR .- The warm days of the last of February set the sap running and sugar makers were a little nonplussed. It was something unusual and they were not prepared for it. The present cold weather has however put things in their normal state again. There promises to be unusual activity in sugar making this season, as last year the products sold well and the demand could not be supplied. Through Queensbury the maple is considered a more profitable tree than the apple and care is taken

that the young trees are not injured. Do You Notice It?—Kingsclear and Prince William appear to be agitated by the rumor of an election for the county of York to the dominion parliament. It arose from a very unsuspicious incident, viz: The passing of Messrs. Ingraham and Golding through the parishes, trying to procure the right of way for the Prince William railway. No one appears to have been paid for his right, the intention appeared to be to let each know that such a thing as a railway was talked about. This unsuspicious incident coupled with the unsuspicious incident of a daily mail on the Gibson-Woodstock line have set election mongers all agog.

The Great Northwest.

The C. P. R. car devoted to the exhibits of the cultivated and natural products of the northwest was at the station here on Thursday. Although the storm eclipsed a Manitoba blizzard, yet all day the car was thronged with representative farmers. The car was divided into four sections, devoted to Manitoba, Assiniboia, Alberta and British Columbia. Among the exhibits were: Ladoga and No. 1 hard Manitoba wheat, buckwheat, barley, white and black oats, flax, linseed meal, oilcake, wild grasses, wild and cultivated fruits, ores of gold, siver, copper, cultivated fruits, ores of gold, siver, copper, iron and nickel, bituminous and anthracite coal and a fine display of polished woods. One astonishing object was a bundle of raspberry vines, some of which were fourteen feet long. The specimens of coal were much admired and the specimen of nickel from the Sudbury mine was a great centre of attraction. The roots do not surpass ours, but the grain, especially wheat, is because of the county court. The prisoners secured bail and were allowed to go.

THE Government give one quarter section (160 acres) to every bona fide settler. A second free quarter section can be pre empted by deferred payments.

The Canadian Pacific Railway Company has a large quantity of the best farming lands for sale at \$3.00 PER ACRE, with easy terms of payment. In Manitoba, 2,000,000 Acres; In Assiniboia, 4,000,000 Acres; In Alberta, 3,000,000 Acres.

Under the Ten Years' Credit Plan, the purchaser pays only one-tenth of the purchase money in cash; the balance is payable in nine annual instalments with interest at only 6 per cent per annum.

SPECIAL TERMS FOR FARMERS. To enable Farmers to meet their payments from the products of the land, they can have their instalments fall due in each

REDUCED PRICES. The Company are making a special effort to secure the settlement of their lands, and are offering a REDUCTION in the price of those listed at \$4 per acre and upwards; in most cases amounting to FROM 25 TO 33 PER CENT.

Do not purchase Lands until you know OUR PRICES AND TERMS. If you do not intend purchasing write for the NEW PUBLICATIONS just issued by the Company. These will show you how and where to

SECURE A FREE HOMESTEAD OF 160 ACRES;

And give you facts regarding successful Farmers that will surprise you.

The Canada Northwest has the most productive soil in the world. Its wheat fetches the highest price; its live cattle are admitted to the English markets, while United States cattle are not. There is a market for the farmer at every station; and there are schools and churches wherever there are settlers. It is not subject to drought nor floods, to grasshoppers or to cyclones or tornadoes. Ask any Canadian Pacific Railway agent for books and maps concerning it; ask for "Farming and Ranching in Western Canada," or the "Free Farms" map, or "Actual Experience," and read the testimony of men who have gone there from Eastern Canada. Young women are in great demand; they find occupation as domestics directly they arrive, and readily get married to prosperous young farmers. Young men or young women can start life there almost without money. They make the money there; an independence is gained in a very few years by the thrifty.

The old settlers of New Brunswick should use their influence with the young men who intend emigrating to keep them within the Dominion, where there are offered better advantages than in the United States and they do not lose their nationality.

Lose no time in getting to the West and choosing your location. First come, first served. Apply to any Ticket Agent, to C. E. MacPHERSON, A. G. P. Agent, St. John, N. B., or to J. HEBER HASLAM, Special Agent C. P. R., Moncton, N. B.

What is this "Melissa" we hear so much about?

MELISSA proofed coats or other garments are just what the Inventor and Manufacturers claim them to be, neither more nor less. They are both rain-proof, porous and odorless, therefore perfectly healthful and comfortable. They fore perfectly healthful and comfortable. They are common sense garments and should be treated in a common sense manner. Although rain-proof, they are not waterproof in the sense that a water cushion or bottle made of rubber is waterproof. Being porous, water can be forced through them, either by heavy pressure or by squeezing with the fingers. If they were absolutely waterproof they would be absolutely air-tight and therefore no better than rubber. Herein lies the peculiar value of the invention. Sensible and therefore no better than rubber. Herein lies the peculiar value of the invention. Sensible people do not buy rainproof garments for the purpose of forcing water through them or for carrying water in them, neither do they take shelter under a water spout, nor sit in a pool for pleasure. They buy rainproof garments to wear for the purpose of protecting themselves from the weather, and a Melissa coat or mantle will effectually protect the wearer for many hours in a heavy rain or snow storm. Melissa has a peculiar water-repellent property which prevents water when falling in the form of rain or snow on a garment from penetrating the cloth, claimed snow on a garment from penetrating the cloth, and the true way to test the utility of a Melissa garment is, not by pouring a stream of water on it from a watering can, but by wearing it in a heavy rainstorm. The result will be found eminently satisfactory. Continued exposure to the weather will not impair in the slightest degree the rain-proof quality of Melissa. It is fixed and permanent. These garments, thorough-ly well made from fine materials, are now on the counters of the first-class dealers throughout
