Be advised in the choice of your Soap. Some soaps are dear at any price because they hurt your hands and ruin your clothes. But Sunlight Soap is a pure soap, and, therefore, a harmless soap. It does all the work in half the time, at half the cost.

### Examiners' Report.

We have before us the general comments of the C. H. B. Examiners on the work presented by the candidates. The reports are on each subject in each grade. We purpose to give the pith of these remarks. To-day we deal with the Associate Grade. English Composition again reached a fairly high standard. The quality of the answers in English Literature varied greatly. Similar comments are made in regard to English History. A slight improvement is noted in Geography. The answers of many candidates in Algebra indicated they possessed "little more than a mechanical knowledge of the elements." In Geometry, a number of answers were unsatisfactory. A large number were "thoroughly satisfactory." Navigation proved fairly satisfactory. The translation of the French pieces was not well done on the whole, few getting the sense and very few writing in good English. The best satisfactory part in the whole set of papers was the translation into French. High commendation is given in good English. The least almost in every case was excellent. The work in Light and Heat was of a very fair quality. A very satisfactory standard was shown in Chemistry. The papers in Hygiene were, on the whole, only mediocre. In Theory and Practice of Education the average marks was considerably higher than in previous years.

### Bankers in Port.

The banker, Armenia, Capt. Nosenworthy, of St. Jacques, arrived in port yesterday looking for bait. She has been doing poorly and has only 600 qts. to her credit for 4. dories. The Regal, of Fortune, also arrived to look for bait. She has done fairly well. The Sentinel, from Jersey H.R., also came here and is doing well. The Lucania, of Lunenburg, arrived here yesterday with nearly a load of green fish and to get a supply of salt to cure it. She got 800 qts. since leaving here, three weeks ago. She left a Newfoundland vessel near where she was getting all the bait she wanted. The Lucania has now 1,200 qts. to her credit for 7 dories and will make a record voyage this season.

### Regulus to Blame.

We learn from Mr. Gerald Harvey that he had a short message from New York yesterday stating that the Marine Court of Inquiry held in connection with the ship's collision with the steamer Karema held the Regulus accountable for the accident, a fact which occasioned the much regretted. Marthens generally, both here and in New York, from the reports published, premised that the Regulus would be held blameless, and that, at least, both ships would be held equally liable. What the damages are is not yet known.

The engagement is announced of Miss Margaret James, B. A., only daughter of the Rev. T. H. James, to the Rev. F. T. Mayer Wakes, M. A., P.H.D., of Biddulph, Coughlen, England, now of Berlin, Mass. The marriage is to take place Sept. 9, at Hubbell, Mich., the home of Mr. and Mrs. Wm. Harry, the latter being a sister of the Rev. T. H. James.

## Notes From Harbor Grace.

Mr. Isaac Benson, referred to in my notes on Monday as being very ill, passed to the Great Beyond on Tuesday night after a short but very painful illness. Deceased was in his 66th year, and his quiet, pleasant manner, endeared him in all his acquaintances. To the widow and sons and daughters, we extend our sympathies.

Among the visitors to town yesterday, we were pleased to notice two of our old acquaintances, Councillor J. J. Mulhally, and Mr. P. J. Walsh, foreman of the Royal Gazette. Both thoroughly enjoyed the visit to the second city.

Mr. James Martin, son of the late Mr. E. J. Martin is here from Canada on a visit to his mother. It is 14 yrs. since Mr. M. last paid a visit to his native town, and his friends and former school fellows, your correspondent among the number, were all pleased to see him.

Mr. W. H. Thompson had a marconigram from Mrs. Thompson at Battle Harbor last evening, conveying the news that their son, Master Ian, who is undergoing treatment at the hospital there, was all right, and that Mrs. Thompson was returning by steamer to-day. Master Ian will likely remain till the next trip of the steamer.

The train bearing the Shamrock Excursion Party reached the station here at 11:45 yesterday morning. A large number of citizens were waiting to receive their friends. The day was delightful, the air being cool and pleasant. At 2:30 the wharfbots were drawn up on the harbor for the race for the silver cup presented by the Shamrock Club last year and won by the S. O. E. Society in the Edith. This society purchased the new boat Maggie on Tuesday night last, and as her record was so good on Regatta day, it was generally thought that the S. O. E. would take the cup again this year. But not so, the Edith, rowed by members of the Orange Society, coming in a wee bit ahead of the Maggie won the cup this season. Great interest was taken in this race, and crowds lined the different wharves. The second race was for medals presented by Mr. McGrath, and was an all-comers race. The old Myrtle, coxswained by Mr. Frank Archibald, and manned by employees of the enterprising firm of Archibald Bros., came in a long way ahead of the other boats. The weather conditions were most suitable for the races.

The next item on the programme was a football match on Shannon Park between teams from St. John's and Harbor Grace. The former team showed their superiority by scoring three goals to one. A large number of spectators were present to witness the match.

The citizens and visitors were treated to a high-class entertainment in St. Paul's Hall at 8 o'clock. Our local talent, assisted by some of St. John's favourites, were seen and heard to advantage by a large audience. The dance in the Academy Hall was well patronized and dancing was kept up until 2 a.m. to-day, when, quite satisfied with the day's sport all wended their way to the railway station on the hill to return to the city. And now from a quiet corner near the station we hear the customary conversation, "Good-bye." "Write soon." (Hope you'll have a pleasant time home). The Shamrock Club are jolly good fellows, but conductor Howlett, put an end to it all so far as we are concerned, when he for the last time shouted "all aboard," and gave the signal to the engineer that all were ready for the start. Our citizens much enjoyed this last holiday for the season, and we feel sure will all join us in wishing the Shamrock Club every success in future.

CORRESPONDENT.

Mr. Lemesurier and a wife from Catalina to-day stating that the banker Kuvera, Capt. Thos. Lodge, had arrived at Catalina from the Banks yesterday with 430 qts. fish. She reports that on the 26th August she picked up James Brien of Catalina, Earnest Follett of Grand Beach, Fortune Bay, astray from the ship, Geo. E. Rose, Capt. Thos. Farrell, of Grand Bank, for 24 hours. The men were landed at Catalina.

## Cable News.

WILL BE BUILT IN GREAT BRITAIN.

Special Evening Telegram.  
LONDON, Aug. 31.—American and Continental shipbuilders who expected to compete for the construction of the new Chilean warships probably have been frozen out. The plans have been drawn up by Sir Philip Watts, chief naval constructor of the British navy, and specifying that the guns and certain machinery must be of English design and manufacture. It is believed that the terms of the recent Chilean loan, which was floated by the Rothschilds, stipulated the advantage to British builders.

LONDON, Aug. 31.—Returned today the recent Parliamentary elections with the exception of such as were invalidated by fraud or otherwise, showing a small majority for the Liberals, 90; Monarchists in opposition, 40; Republicans, 14. This is a Republican gain, the party having elected but five candidates in the elections two years ago. The Republicans charge extensive frauds and made frequent contests of the returns.

Special Evening Telegram.  
PARIS, Aug. 31.—In his monoplane flight of last Monday, Leon Morane, the French Aviator, reached a height of 2,150 metres or 7,054 feet according to the official figures determined by day. This constitutes a world's record height eclipsing the mark set by J. A. Drexel at Lanark, Scotland, on Aug. 12, when Drexel rose 6,752 ft.

OSAWATOMIE, Kas. Aug. 31.—In clear and emphatic fashion, Theodore Roosevelt announced his political creed to-day. It was a creed of progressive republicanism. It alighted him definitely with the progressive movement with the party as a whole. It placed him on record as an advocate of some policies which find favor with the insurgents and as an opponent of every special interest which he believes exercises a sinister influence on the affairs of the people. Col. Roosevelt declared himself in favor of a wide increase in the power of the national government, so that it might assume greater activity in control of corporation and in working out the policies which he believes should be adopted. He declared for the new Nationalism as he termed such an increase in government power. Col. Roosevelt characterized the issue of the day as the struggle of free men to gain and hold the right of self-government against the special interests which twist the methods of free government into machinery for defeating the popular will.

### Fever and Diphtheria.

A case of scarlet fever, the patient being a young woman, was removed yesterday from Cook Street to Hospital. A case of diphtheria was reported from No. 2 Brazil's Square yesterday and the patient is being nursed at home. A young woman was taken to Hospital yesterday for observation from Pouch Cove. It is believed she is developing diphtheria. A young man developed diphtheria at his residence on LeMarchant Road this morning and was taken to Hospital.

### How He Was Drowned

Though it was reported that the young man Walsh, of Outer Cove, who was drowned while poeie fishing, was swept overboard, we learn to-day that this is incorrect. Mrs. Carroll, his aunt, had a letter from men who fished with him yesterday saying that he was stepping from the pogie steamer into a seltzer alongside when he went overboard and sank, never again coming to the surface. His cap floated on the water. It was believed that he was eaten by sharks, which infest the place. Though every means was tried to recover the body it could not be found, and this is what leads to the belief that he was killed under water by these fierce fish.

### Bad Labrador News.

Yesterday morning the Minister of Marine and Fisheries, Mr. Piccott had these messages from Indian H.R. via Cape Ray which speak for themselves.  
From Capt. W. C. Winsor:—"Arrived from Ryan's Bay. Worst fishery for past 20 years. No improvement from last time."  
From Capt. W. R. Bartlett, from the same place:—"Traps ashore; bait scarce. When fish and squid obtainable secure 2 or 3 qts. daily if good weather; nothing fishing; weather unsettled."

### Lack of Hospital.

Isaac Benson died at Harbor Grace on Tuesday. He took sick suddenly from appendicitis. He had two doctors attending him. He was too sick to be removed to St. John's and it was impossible to operate with any chance of success in his home. It shows the great necessity of the Guy Memorial Hospital in H. Grace. That man in all probability would be alive to-day if only the common humane necessity was to be had in an important centre like the second city of Newfoundland.

### POLICE COURT NEWS.

In the police court to-day a drunk was fined \$1 or 5 days, and another who has appeared before, \$2 or 7 days. A couple of others were discharged.  
Two charged with disorderly conduct were dismissed with a caution.  
Fred Miller summoned Martha Oldford for besmearing his fence with mud. The case was a trivial one and was dismissed. Mr. Ayre, for plaintiff; Mr. Higgins, for defendant.

### Fire at Bell Island.

MEN ESCAPED SUFFOCATION.  
A couple of days ago at Bell Island a fire started in the pump house down in the D. I. S. Co's slope, and before it could be controlled the house was badly gutted. Fifteen men were working in the slope at the time and narrowly escaped suffocation from the dense smoke which filled it. They were imprisoned there from the late forenoon until 3 p.m., and so badly overcome were they by the smoke that they were almost suffocated when they were brought to the surface. The escapees to leave the pit several times by means of a ladder but could not get through the smoke and fire. One man, named Churchill, in rushing up the ladder fell a distance of ten feet severely injuring his spine and receiving injuries which it is feared may prove fatal. How the fire occurred is not known.
