A Rich Field For Investigation

On Wednesday next, St. Valentine's day, the Legislature will meet for the despatch of business.

There is a change in the membership of both branches. The Legislative Council has lost the ability, the experience and the geniality of the late Hon. D. J. Greene. The late Councilor was in many ways a free lance. His position has been taken by a keen supporter and partisan of the present Administration. A change of a somewhat similar nature has taken place in the personnel of the House of Assembly. Mr. Edward Davy passed to his rest at the end of the session of last year, and his place has been taken by Mr. Le Focure, whose candidature for the Burin District was unopposed at the bye-election last fall. This gives an additional supporter to the Government on the floors of the House of Assembly. This is of no importance whatever, as everybody realizes that the standing of the Government in the Island has been undermined by their carnival of grab and extravagance. There has never been an administration in charge of the affairs of the Colony which has directed so much of its energy to divide patronage and fees among its supporters and which has mixed up the private advantage of members of the party with public business.

There is an abundant field of enquiry and investigation at the disposal of the Opposition.

Second Hand Govt. Cable.

The editor of the Chronicle yesterday essayed a defence of the Government's second hand cable, shipped to Gaultois by the Portia. In answer to the strictures of our morning contemporary we stated that the cable was

the "bunniest" thing in cables we ever had seen, and we adhere to the assertion. We would put the same question to Mr. McGrath as we put to his brother editor, Mr. Robinson, "Did he see the cable?" We opine he did not, in fact we know he did not; therefore, what does he know about it, anyway? As a joker, who read the Chronicle's article yesterday, remarked, "That the cable is about as useful to the Government as P. T. McGrath's book is to the country." This pretty nicely sums up the value of the Government's latest "bargain" in "second-hands," and the Plenicians have already received the added title from several of the "Second-Hand Government."

Not a Bad Batch.

The following batch of libel suits have been instituted as a result of the late civic elections in Montreal:—
1.—The majority and aldermanic candidates have thrown caution to the wind, and as a result Marcell has two actions, each claiming \$50,000, for alleged libel, one against Lavallee and one against La Presse; Editor Fournier is suing Lavallee and La Patrie for \$15,000 each; ex-Ald. Giroux is after the Star for \$10,000, because of a cartoon; Trenholme, candidate for Council, is suing an opponent for \$10,000, and it is reported that Mayor Guerin will claim \$5,000 from La Presse.

Giroux is the recognized leader of the "23," and the biggest point brought against him in a charge that he is the owner of premises for years used for disorderly purposes."

Hurt at Messrs. Shea & Co's.

While taking freight from Shea & Co's sheds to-day a young man who acts as teamster for McCarthy Bros. had his knee dislocated. As he worked, a pile of sacks toppled over and struck him, throwing him to the ground. The handle of the truck he was using was broken by the weight. The injured man was taken to a doctor and treated, and was then driven home.

The Durango left Halifax at 6 o'clock Friday night.

Shield for C. L. B.

We learn to-day that when His Lordship Bishop Jones was in England he was given a handsome shield for presentation to the Church Lads' Brigade of this city. This very beautiful present was made by Lady Musgrave, widow of His Excellency Governor Musgrave, who occupied the Governor's chair here in the late sixties. This lady takes a deep interest in Newfoundland affairs and especially in the C. L. B. The shield, we understand, will be formally handed over to the Brigade Thursday night next.

The Missing Kamfjord.

Capt. Salvesen, of the missing steamer Kamfjord, was a married man and leaves a wife and family in Norway. The ship's charter expired at the New Year but was renewed for one month, and her disappearance is a proof of the dangers of the sea. After discharging here she was to take a fish cargo to Europe and the captain looked forward to a reunion with his family and friends with great pleasure. He was well known and liked in St. John's, as were most of his officers and crew.

Another public meeting was held and a local Council established, when a large number joined. On Wednesday night he was at Port de Grave and received a reception never before equalled in the settlement. A public meeting was held and about 70 joined. On Thursday he visited Cupids, where another reception was accorded him, a public meeting held, a local Council established and 76 enrolled. Last night a public meeting was held at Brigus in the Orange Hall, which was packed. A local Council was established and 50 enrolled. Brigus also received Coaker splendidly. The bands of the C. of E. Guild and the Orange Lodge turned out and paraded the town, while after the public meeting splendid music was rendered at the hall. Port de Grave now possesses five branches of the Union and 1,000 will be enrolled in them within two months.

BOVRIL IS ALL BEEF.

Questions we are often asked.

Q.—What is the sediment at the bottom of a cup of Bovril?
A.—That is a valuable portion of the nourishment, and should never be left.
Q.—Are you serious when you say that Bovril is more nourishing than ordinary Meat Extract or Home-made Beef Tea?
A.—Certainly! and we have for years offered large rewards to anyone who can prove the contrary.
Q.—But can you prove your statement?
A.—Yes—from the pen of Baron Liebig himself, who told the world that the man who managed to get the nourishing, as well as the stimulating properties of Beef in a liquid form, would produce something far better than Liebig's Extract, and would be a public benefactor.
Q.—And you have done this?
A.—Yes. By a special process, the entire nutritious constituents of prime ox beef are separately treated, pulverized and added to specially-prepared Meat Extract, and that is Bovril.
Don't experiment with artificial imitations of dubious quality (which are dear at any price) when such a tried and proven nutritious food-beverage "made in England" is within your reach.

At the City Hall

Mayor and full Board present last evening's meeting.
A note was received from J. Goodridge saying that he would longer let his field at Newtown Road to the Council as a dumping ground. Bishop & Sons asked for some of the Council's patronage in the plying of hose to the City Council, the use of the Sanitary Department. They say they can supply it at a moderate price.

Some residents of Prescott Street who were reported by the Inspector to have allowed their taps to run the winter will be ordered to conform to the regulations.

At the request of Councillor Channing 400 feet of fencing and 200 feet of hose will be supplied to Victoria Park.

An order will be placed for 50 feet of 6 inch water pipe for general use.

On motion of Councillor Mullaly, seconded by Councillor Channing, Messrs. Grace and Larkin were allowed \$35 each for extra services, paying employees the past season working at water cuts and snow shovelling.

A warm debate took place over a proposal of Councillor Ryan to increase the salaries of Messrs. Focarty & Farrell increased to \$50 and \$45 respectively. The Mayor said that "timidities" would not permit doing just now. Councillor Ryan thought that the increase might come from estimates of the Water Department. Councillor Mullaly said that, amounted to the same thing, as money all came from the same pump. If these men were to get the increases they would be seeking it, and Council had decided yesterday, no increase would be granted. Councillor Myrick thought that both applicants were deserving of this increase. He believed that Councillor Mullaly opposed the resolution out of feeling towards an employee. After a stormy altercation between last two speakers, Councillor Channing suggested that only Parrell's salary be increased, as he was an exceptionally competent official. On being put to the meeting this was lost 3 to 2. Councillor Mullaly would
