BOVRIL

IS ALL BEEF.

Questions we are often asked.

Q.—What is the sediment at the bottom of a cup of Bovril?
 A.—That is a valuable portion of the nourishment, and should never be left.

Q.—Are you serious when you say that Bovril is more nourishing than ordinary Meat Extract or Home-made Beef Tea?
 A.—Certainly! and we have for years offered large rewards to anyone who can prove the contrary.

Q.—But can you prove your statement?
 A.—Yes—from the pen of Baron Liebig himself, who told the world that the man who managed to get the nourishing, as well as the stimulating properties of Beef in a liquid form, would produce something far better than Liebig's Extract, and would be a public benefactor.

Q.—And you have done this?
 A.—Yes. By a special process, the entire nutritious constituents of prime ox beef are separately treated, pulverised and added to specially-prepared Meat Extract, and that is Bovril.

Don't experiment with artificial imitations of dubious quality (which are dear at any price) when such a tried and proven nutritious food-beverage "made in England" is within your reach.

Among the most common and most contrary of eye ailments is that condition where lines or objects extending in some certain meridians are blurred and indistinct. Headaches, indigestion and many other bodily ailments follow in the wake of this astigmatic condition. We correct astigmatism in all its varied forms.
