S. MILLEY.

GOES TO HALIFAX.—The Seal goes to Halifax after discharging. Her sailing crew were landed at Channel.

A BIG CARGO.—The men, on the Seal, expect to land 700 tons of fat from their ship, which no doubt will be the heaviest cargo of seals for the season. This should be valued at \$25,000.

MR. TURNBULL LEAVING.—Mr. Turnbull, Superintendent of the Reid Mill Co.'s machine shops, will leave for London on the 15th inst. He has been with the company 8 years, and will go to Britain, Columbia with his family.

TOBACCO TO L. S. P. U.—The members who were present at the L. S. P. U. meeting last night were each given a plug of tobacco, all of which was supplied by Mr. C. Tessier, whose act of kindness was appreciated by the Union.

C. L. B. "AT HOME."—A meeting of the ex-members and non-coms of the C. L. B. was held in their armory last night in connection with their "At Home," which comes off April 16th. The committees reported that all matters had been finalized. The C. L. B. band are now preparing new selections for the affair, which promises to prove a great success.

Cable News.

Special to Evening Telegram.

BERLIN, April 9. A severe storm raged in Central Germany last night. Two freight steamers sank and a third went ashore off Heligoland. Two crews were rescued. A four-masted schooner also went ashore; the fate of her crew has not been ascertained.

Special to Evening Telegram.

CANZO, April 9. The British steamer Mohacfield, 7,000 tons, of West Hartlepool, struck the shoals near Whitehead yesterday morning in a dense fog. She was bound from Bremen and Dover for Loughsbury in ballast, under charter to the Dominion Coal Company. She was found successfully and the damage is slight.

Special to Evening Telegram.

CAIRO, April 9. A large number of passengers were drowned last evening by the sinking of a Nile excursion steamer, after collision near the Great Dam, 15 miles N. W. of Cairo. She carried 300 East- or excursionists. The accident occurred about 10 p.m. The passengers were thrown into the water, many being saved by the steamer with which the boat collided. All the passengers are believed to be Levantines.

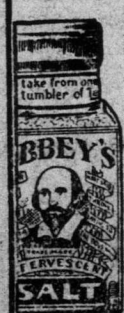

Special to Evening Telegram.

LONDON, April 9. A Constantinople despatch to the Morning Chronicle relates the story of the thrilling escape of former Foreign Minister Jovanovich, with other ex-ministers, who were his fellow-prisoners in the fortress of Podgoritz. They made their way out of the fortress by digging a subterranean passage. They were condemned in 1907 to 15 years' imprisonment for complicity in a plot against Nicholas I. of Montenegro.

Special Evening Telegram.

SYDNEY, April 9. The first coal cargo ever sent to England from Cape Breton leaves here to-night by the steamer Muirfield. She takes 5,000 tons for London. The steamer Magrez is also loading 4,000 tons for the coal station at Buenos Ayres.

GETTING BETTER.—The friends of Mr. Gordon Bulley, who was stricken with a very serious illness the early part of the winter, will be glad to hear that he is recovering slowly.

A bottle of prevention is better than a deranged stomach.

To-Day's News.

Special to Evening Telegram.

BELFAST, To-Day. Bonar Law in the course of a stirring speech said: "I have come here to give you the assurance that we Unionists regard your cause as the cause of the Empire. We will do all that men can do to defeat the conspiracy, the most treacherous that ever has been formed against the life of a great nation. If we defeat Home Rule now it will be defeated forever." Resolutions were put from four platforms simultaneously refusing to accept Home Rule under any circumstances. This was carried unanimously and the immense gatherings sang the National Anthem before dispersing.

Special to Evening Telegram.

MEMPHIS, Tennessee, To-day. 2,000 square miles, including more than 500,000 acres rich in farming land in North Eastern Arkansas, in St. Francis land, are affected by the break in main line levee system and inundated, many other villages are threatened. No loss of life occurred, so far as it is known, the damage amounts to millions.

Special to Evening Telegram.

CHICAGO, To-day. Roosevelt beat Taft by 30,000 in this city and in most other counties by 3 to 1. Champ Clark lead Wilson by nearly 100,000 in Chicago, 3 to 1 in other counties.

Special to Evening Telegram.

WASHINGTON, To-day. The States will call an international convention of the world's expert paper money makers to meet at Washington in June to consider means to circumvent counterfeiting by perfect mechanical devices. All nations will be invited to participate.

A Religious Ceremony.

At noon yesterday, Easter Tuesday, the Oratory of the Presentation Convent, Cathedral Square, was the scene of an impressive and interesting ceremony of religious reception, when Misses Anna Elizabeth Bane, of Worcester, Mass., U.S.A., and Miss Margaret O'Connell, of Tralee, Ireland, were clothed with the dress of the Presentation Order. His Grace Archbishop Howley officiated, assisted by Rt. Rev. Mons. Roche, V.G., and Rev. J. J. St. John, P.P., Torbay, and in a lengthy and instructive address explained to the young aspirants the best way to lead the life and the honor conferred by our Saviour on those whom He calls apart to serve Him in cloister. Entering the Oratory, the young ladies, in white robes, these young ladies reminded one of the spotless lilies whose freshness and beauty are spent in adorning the Tabernacle, the home of P. Eugene, the last God. The ceremony having been concluded, the young ladies retired to change their shimmering robes for the sombre garb of religion, expressive of the life of the detachment from the world, mortification and labour, on which they were entering. The ceremony was brought to a close by the singing of the "Gloria Quam tuum," which tells how sweet it is to dwell together in union. The music was supplied by the Convent choir.

St. Thomas's Easter Meeting.

The Easter meeting of the congregation of St. Thomas's Parish was held last evening in Canon Wood Memorial Hall with a large number present. Rev. G. R. Godden, M.A., occupied the chair and opened the meeting with a prayer. The People's Warden, Mr. R. F. Goodridge, presented the financial statement for the year, and the Rector read his annual report which was a most gratifying one, it being a record year financially and numerically. Hon. M. G. Winter was nominated as his Church Warden by the Rector, and the people unanimously re-elected Mr. R. F. Goodridge as their. Hon. R. Watson and Messrs. A. J. Harvey and J. A. Clift, K.C., were appointed to the Cemetery Committee. Mr. W. S. Monroe was appointed to the Diocesan Synod replacing the late Sir J. S. Winter, K. C. M. G. A resolution of condolence with the family of the late Sir James Winter was passed on motion of Mr. H. W. LeMessurier, seconded by Mr. A. J. Harvey. Hon. R. Watson proposed a resolution expressing the sympathy of the congregation for the relatives of the late Mrs. Arthur Wood and recommending a memorial to the deceased lady to be placed in the Parish Church, Mr. J. A. Clift seconded the proposal which was passed and a committee was appointed by the Rector to arrange for the memorial. The committee will consist of the Rector and Church Wardens, Hon. R. Watson and Messrs. J. A. Clift, T. Lawrence and J. C. Oke. Other committees on various matters were appointed, and votes of thanks passed. After the singing of the Odoxylogy and the imparting of the Benediction by the Rector the meeting closed.

Hr. Grace Notes.

The lady of the C. C. C. attended service at the Cathedral yesterday morning, attended by their fine band.

The funeral of the late Miss Alice Pumphrey took place yesterday afternoon, and was attended by a very large number of citizens, and also by the young ladies of the Society of the Children of Mary, of which Miss Pumphrey was a prominent member.

Mrs. Nath. Davis and her daughter, Miss Irene, intended leaving by tomorrow's train for St. John's, there to join the Bruce en route to Boston. Mrs. Davis' many friends wish her a pleasant passage.

The Electric Light Company are building a switch house (or sub-station, if it would sound larger) at the top of Bannerman Street, where the lights for the streets and residences will be controlled. Mr. Arch. Pym is the builder.

Mr. H. C. Watts had some very nice fresh codfish on sale at his store of last week. Fresh fish, fresh beef, and fresh groceries and provisions are Mr. Watts' specialties.

Mr. Dugald Munn arrived from St. John's by train on Saturday night. He returned to the city again this a.m. accompanied by his son, Master Bert, who will spend the balance of his Easter vacation with friends there.

Capt. Harold Bartlett, of Brigus, came to town by train on Saturday night to spend Sunday with friends here. His visit here will, no doubt, forcibly remind him of his school days.

The schol. Antigonette, Capt. George Webber, arrived in port at 11.30 on Saturday night. The Antigonette left Gibraltar on November and after 40 days or so being buffeted by storms she was forced to put back to

Battling Snow.

The two rotary plows now on the railroad are meeting with great success. No. 1 is working west from the Quarry and No. 2 is working west from Millerton Junction. The snow is from 10 to 15 feet deep in some of the cuts and the progress of the rotaries is very slow, as the snow is hard and ice also covers the rails. If possible the Reid Co. will have the line open by Sunday, when it is expected a cross country express will leave here.

Here and There.

SEALERS GO HOME.—The express which left for Bonavista last evening took out a number of the sealers of the Nascope and Adventure who were returning home. They went to different parts of Bonavista Bay.

HE WAS EJECTED.—Before the train left yesterday a sealer who had taken too much rum on being refused a ticket, wanted to clean out the place. He created such a furore that Officer O'Neill had to be called and only ejected the man after much trouble.

CREW PAID OFF.—The crew of the s.s. Nascope were paid off yesterday afternoon. The turn out of her cargo was mentioned yesterday. The average weight of the young harps was a fraction over 50 pounds, and young hoods 46 5-8 lbs., which was considered excellent. Her crew of 270 men shared \$43.71 each. It was indeed gratifying, as the owners remarked, to see the men make such a bill considering that the ship was crippled at the early stage of the voyage.

Danderine

Makes your hair grow long, heavy and luxuriant and we can prove it

Get a 25 Cent Bottle Now and Forever Stop Falling Hair, Itching Scalp and Dandruff

Hair Becomes Soft, Fluffy, Lustrous and Abundant After a Danderine Hair Cleanse

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

Immediately after applying a little Danderine all dandruff will disappear, all itching of the scalp will cease and there will be no more loose or falling hair.

If you wish to double the beauty of your hair in ten minutes surely try this—moisten a cloth with a little Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil—in a few moments your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health.

If you care for beautiful, soft hair and lots of it surely get a 25 cent bottle of Knowledge's Danderine from any drug store or oil counter—A real surprise awaits you.

THE TWO POLES.

By WALT MASON.

The Poles, which had been lost for ages, discovered are at last; brave men toiled on by weary stages, through snow and howling blast, with frozen feet and cheeks they hurried, with frozen hands and ears, and solved the problem which had worried the world a thousand years. And terrors dire came forth to meet them, and dangers thronged the way; and polar bears oft tried to eat them, as horses eat their hay. The arctic night came down and found them intrepid in the gloom; and arctic phantoms shrieked around them, and wailed of death and doom. Yet uncomplaining and undaunted did these explorers roam, until they found the poles they wanted, and shipped the blamed things home. Thus victory comes to the bidder who pays the price of toll; and I'm ashamed when I consider how I raise huge turmoil o'er little obstacles that face me when I my task pursue; I plainly see it must disgrace me to raise a howdydo. So after this I'll be like Peary and Amundsen the bold, and struggle on, though heart be weary, and both my feet are cold.

Copyright, 1911, by George Matthew Adams. Black Mason

Here and There.

THE NEXT SEALER.—The Ranger will likely be the next sealer to arrive owing to shortage of coal. She was compelled to throw coal overboard early in the spring.

NEW BANK OPENS.—The first deposits under the new banking scheme of the Star of the Sea Association were made last night and were many. The amounts deposited exceeded all expectations.

SEALER HURT.—A sealer belonging to the Nascope fell in the archway leading to Job's premises yesterday afternoon, a bad cut was inflicted on the left side of his face which bled profusely. He was brought to a drug store for treatment.

Why Should a Chicken Lay a Soft-Shelled Egg?

Because, Willie, the chicken don't know how to create a hard-shelled egg unless it has some food with lime in it.

So chicken-raisers often provide limestone gravel, broken oyster shells or some other form of lime.

Let the chicken wander free and it finds its own food and behaves sensibly.

Shut it up and feed stuff lacking lime and the eggs are soft-shelled.

Let's step from chickens to human beings.

Why is a child "backward" and why does a man or woman have nervous prostration or brain-fag? There may be a variety of reasons but one thing is certain.

If the food is deficient in Phosphate of Potash the gray matter in the nerve centres and brain cannot be rebuilt each day to make good the cells broken down by the activities of yesterday.

Phosphate of Potash is the most important element Nature demands to unite albumin and water to make gray matter.

Grape-Nuts food is heavy in Phosphate of Potash in a digestible form.

A chicken can't always select its own food, but a thoughtful man can select suitable food for his children, wife and himself.
