A rumor is current at Belfast that

the West Kents and Yorkshires from

Dublin and Manchester from Cur-

ragh are under orders to proceed

there immediately. It is understood

that this movement of troops is a pre-

lude to the proclamation of martial

law in the disaffected territory. It was

stated at Salisbury last night that

troops, probably cavalry, would be

sent to Ulster to act as mounted police. It is reported that the Govern-

ment is entirely ready to meet any

emergency. The Telegraph, editori-

ally fears that the coup may harden

the heart of the Pharoah of the Cabi-

net. It warns Ministers that any at-

tempt to discover the hiding places of

arms will result in their immediate

destruction, and asks whether noth-

ing but bloodshed will convince the

Government that there is no way of

its just demands. The Morning Post under the caption, "On the slippery

Edge of War", refers to the news as

it is obvious that the Government can-

not ignore such a breach of its pro-

find in the event ample justification

conflict and demands that every per-

son should be punished who participated in Friday's rebellion. The Daily Chronicle says that the Ulster Council

of violent crimes which show Carson-

#### THE GREATER QUESTION.

At this season of the year for Farmrs with up-to-date ideas is, what are he best means to use to get the best eturns from the land.

Fertilizers must be used liberally large returns are looked for. There are several good chemical fertilizers which may be recommended, but Sulchate of Ammonia has been proved to give the best returns, and is the most aluable and economical source of Nitrogen for agricultural purposes.

For vegetables, grass, and all leafy rops, about one and a half cwt. per acre is the best quantity to use, and is making it's growth, as well as be-

fore sowing the seed. If a liquid manure is preferred, a 14 oz. of Sulphate to one gallon of water should be used, and applied once a week for a month. This quantity should not be exceeded. It is a good plan to reduce the Sulphate to a fine powder, and mix with four or more times its own bulk, for the purpose of diluting the manure,

which is very powerful.

For potatoes the following mixture ard."-Extract from A. P. J. Apri 40 lbs. Superphosphate. 26 lbs. Fine bone meal.

Ibs. SULPHATE OF AMMONIA. Apply at the rate of 10 to 11 lbs. to 43 square yards.

The use of Carbonate of Magnesia, in conjunction with Sulphate of Ammonia, is of great importance in po-

For turnips use the following:-20 lbs. Sulphate of Ammonia.

Apply at the rate of 10 to 11 lbs. to self, or that you had seen somebod, else wear, just take your design to Trapnell; there is nothing impossible along these lines for his talented workmen. A splendid assortment of anset stones can be seen if your design calls for a Gem Ring. Ask to be shown the new White Saphires. They are hard and brilliant like diamonds, so much so that they puzzle experts.

Sulphate of Ammonia of excellent grounds. There was a poor sign of codfish this week and bait is very scarce, there being only sufficient for another week's fishing. The weather to another week's fishing. The weather sign calls for a Gem Ring. Ask to be shown the new White Saphires. They are hard and brilliant like diamonds, so much so that they puzzle experts.

Sulphate of Ammonia of excellent grounds. There was a poor sign of codfish this week and bait is very scarce, there being only sufficient for another week's fishing. The weather is very stormy with drift ice on the grounds. There is no fishing on the offer bank, the catch this week having heen taken from 2 to 3 miles off shore, the boats getting from 1 to 1½ qtls. and consequently upon her arrival here she was examined by Dr. Camphare, and the condition of the cond square yards.
Sulphate of Ammonia of excellent
