FOR AULD LANG SYNE.

Ladies of Canada:

"Should old acquaintance be forgot?"
The answer comes mechanically from every
Britisher. Nor should new acquaintances be
forgot. Remember that on the bloody fields
of South Africa your brave soldier boys
were on the firing line, flanked by loyal
British subjects from Ceylon and India. In
the midst of danger lasting friendships were
formed, and you, ladies of Canada, have it
in your power to cement those bonds. The
Green teas of Ceylon and India appeal to
your sentiment. By using them you not
only aid your brother colonists, but you get
absolutely the best tea. Those of you who
drink Green Japan teas have a revelation in
store if you make the change. Blue Ribbon,
Salada and Monsoon packets may be had
from your grocer.—Colonist.

Policeman—I hope, sir, you'll vote for
Blinks. Business Man—What Blinks?
The Blinks who just got out of penitentiary?
No indeed. Oh, you mean the Blinks just
arrested for hooding? No; I mean Blinks
the business man, friend of education,
member of the church, and—My stars!
How did he come to get nominated?

Life on the Rail.

Mr. Geo. Cammies, Barrie, Ont., one of
the best known engineers on the G. T. R.,
writes: "For years I suffered from kidney
disease brought on by railroad life. The
doctors called it 'railroad kidney,' but
could give me no permanent relief. A friend
recommended Dr. Chase's Kidney-Liver
Pills saying they had cured him. A few
boxes of this grand medicine completely
cured me, putting an end to the dreadful
pains in the back and greatly strengthening
the kidneys. I am a well man to-day,
thanks to Dr. Chase." One pill a dose, 25
cents a box.

Warwick—I can't help thinking about
old P. Nuisious studying theology. He's
wonderfully enthusiastic over the idea of
being able to separate soul from body.
Wickwire—I don't doubt it. That fellow
would go through a meat chopper if he
thought he could save car fare when he
goes to his office.

Catarrh Assurance.

That's what you want. This is how you
get it. Snuffs won't give it to you, neither
will ointment or washes, they simply reach
the door of the disease. Catarrhizes un-
like all these, reaches the very root, and the
branches cannot escape its power. It is
bound to cure, for it is carried by the air
you breathe; now isn't this common sense?
Here's proof for you: Mr. C. M. Kane
writes Sept. 1900: "I feel assured there is
only one treatment for Catarrh, and that is
Catarrhizes." Catarrhizes is pleasant—
acts quickly—cures absolutely—sells back
if it is not so. J. E. Richards tells it at
\$1.00 or direct from N. C. Polson & Co.,
Kingston, Ont., Hartford, Conn.

Daughter—Father, I wish to marry the
count. Father—But, from the reports I
hear, the fellow isn't worth much. Daugh-
ter—Then, father, if he isn't worth much,
you certainly could afford to buy him for
me!

A Woman's Awful Peril.

"There is only one chance to save your
life and that is through an operation," were
the startling words heard by Mrs. I. B.
Hunt, of Lime Ridge, Wis., from her doc-
tor after he had vainly tried to cure her of
a frightful case of stomach trouble and
yellow jaundice. Gall stones had formed
and she constantly grew worse. Then
she began to use Electric Bitters which
wholly cured her. It's a wonderful Stomach,
Liver and Kidney remedy. Cures
Dyspepsia, Loss of Appetite. Try it. Only
50c. Guaranteed. For sale by J. E. Rich-
ards.

Jungoppe—You have just got to come
out and take dinner with me tomorrow,
I won't take no for an answer. Will you?
Olebach—Certainly. Shall be delighted.
I thought you could. You see, I want you
to come and see baby. The little fellow is
getting so strong. He throws his cup,
saucer and spoon clear across the table at
every meal now.

AFTER A COLD DRIVE a teaspoonful of
Pain-Killer mixed with a glass of hot water
and sugar will be found a better stimulant
than whiskey. Avoid substitutes, there is
but one Pain-Killer, Perry Davis'. 25c and 50
cents.

Parkie—I thought you said you had plenty
of furniture to fill your new house. Lane—
That was before I moved.

Pale cheeks rapidly become rosy when
Miller's Compound Iron Pills are taken. 50
doses, 25 cents.

Visitor (at museum)—I want to see some
of the mummies. New Usher (formerly a
dry-goods clerk)—Yes madam; right this
way; we have all the latest styles.

To Nervous Women.

Mrs. D. W. Cromberry, of 168 Richmond
Street, Toronto, says:—"My daughter's
nerves were so exhausted and she was so
weak and debilitated that she had to give
up work and was almost a victim of nervous
prostration. Dr. Chase's Nerve Food proved
an excellent remedy in restoring her to
health and strength. After having used four
boxes she is at work again healthy and
happy. 50 cts. a box at all dealers.

They say Flippy is very absent-minded.
Yes; his mind has been absent ever since I
knew him, and that's twenty years.

sults by those who are run-down or suffering
from after effects of la grippe. Made by
Davis & Lawrence Co., Ltd.

AT FRACTIVE EXHIBIT.

That of Foods and Their Accessories,
Including Pan-American Spices.

A very dainty pamphlet has been is-
sued by the Division of Foods and Their
Accessories of the Pan-American Ex-
position at Buffalo. The food work at the
Pan-American comes under the gen-
eral department of Horticulture,
Forestry and Food Products, of which
Mr. Frederic W. Taylor is superintendent.
Mr. G. Edward Fuller, as assistant
superintendent, has entire charge of the
Division of Foods and Their Ac-
cessories, and he has prepared himself
for unusual work in this line by special
travel and study such as no one
else probably ever undertook with the
same object. This pamphlet calls the
attention of jobbers of teas, coffees
and spices, and all dealers in food prod-
ucts generally and their accessories to
the interesting, useful and educational
work in for the Pan-American Ex-
position of 1901.

The assistant superintendent, Mr.
Fuller, says: "In the far east there are
foods and condiments of which we are
almost utterly ignorant here, and one
of the aims of the food exhibit will be
to educate the people of the western
hemisphere to the cultivation of the pro-
ducts which flourish in the east. It
will be my aim to show how simple
and profitable it would be, for instance,
to grow in the West Indies what is
grown in the East Indies. The climate
and soil conditions are remarkably
similar, and the conditions are favor-
able."

"The best proof obtainable or desira-
ble that the soil and the climate of the
West Indies is as favorable as that of
the East Indies for the production of
spices is already available. The prod-
ucts now received from the West In-
dies are not equaled by those from any
other section of the world. At the
present time they grow better allspice,
ginger and red pepper there than any-
where else on the globe, and the van-
illa bean, which is queen of spices, as
the nutmeg is king, is found nowhere
in the world in such perfection as in
Mexico. The coffee grown in Mexico
has a flavor obtainable in no other cof-
fee, not even the Mocha or Java sur-
passing it. Emperor William of Ger-
many appreciates that fact, and all of
the coffee used in the royal household
is sent from our nearby republic. Ven-
ezuelan cacao, from which chocolate is
made, is superior to the East Indian
product."

"With the view of massing together
in one effective, instructive and useful
exhibit the economic plants, vines and
trees of tropical Pan-America which
produce teas, coffees, spices and kin-
dred things, it has been decided to
appropriate considerable space at the

SEAL OF PAN-AMERICAN EXPOSITION.

Pan-American Exposition for their dis-
play on a scale never before attempted.
To show this interesting collection to
the best advantage an attractive con-
servatory has been provided, while a
museum, as an annex to this, will con-
tain finished products as well as rare
and curious articles to illustrate a va-
riety of features under the head of
"Foods and Their Accessories."

"It is a fact well known to experts
in exhibition matters that a scattered
display of special articles loses force,
while a condensed exhibit of a line of
things pertaining to a specific subject
becomes educational. Now, as the ob-
ject is to increase the production and
promote the consumption of the things
called for, much trouble and expense
is justified in making this collection
unique and unparalleled."

"It is intended to make the exhibit
of red peppers the finest and most ex-
tensive collection ever made, with the
object of demonstrating by special ex-
hibit connected with the 'accessories
of food' that Pan-America can pro-
duce all the red peppers consumed in
Pan-America. It is perhaps only known
to experts that vast quantities of red
peppers are imported from Europe,
Asia and Africa every year because
Pan-Americans are not actively alive
to their own interest in this important
matter."

One of Many Enthusiasts.

Joe Mitchell Chapple, editor of The
National Magazine, published at Bos-
ton, was in Buffalo recently and be-
came much interested in the Exposi-
tion. On his return to Boston he wrote
to an official of the Exposition as fol-
lows: "I was indeed sorry not to have
seen you when in Buffalo, but I did see
the Exposition and was astonished be-
yond measure. I wish that you would
send on anything that you think might
be of interest to our readers and make
it as attractive as possible, and I shall
keep on hammering away at the Exposi-
tion editorially until it opens, because
I am thoroughly enthused over the
subject."

Brazil to Be Represented.

The Brazilian government early in
the season sent out invitations to all
agricultural and industrial societies to
prepare articles for exhibition at the
Pan-American Exposition at Buffalo in
1901. A large number of coffee pro-
ducers have agreed to send a full line
of samples of the best Brazilian grades
of this commodity.

THE HAY-PANCOFFOTE TREATY

Position of the United States
Stated by Senator Lodge.

Although He Engineered the Treaty to
Supersede the Clayton-Bulwer Treaty,
He Declares Friendliness Towards En-
gland—The Amendments by the Senate
Were Dictated, He Says, Solely by the
Interests of the United States.

Washington, Dec. 22.—Senator
Lodge, in charge of the Hay-Pancoffote
treaty in the Senate, made a
statement, which in part follows:
"Let me first say that the amend-
ments were not dictated by hostility
toward England, and, still less, were
they in any degree a reflection upon
the Secretary of State, whose patri-
otism, purity of purpose, knowledge,
accomplishments and high achieve-
ments in dealing with our foreign re-
lations, especially in China, are fully
and cordially recognized by men
of all parties and all shades of opin-
ion in the Senate."

"The amendments were made by
the Senate solely because, in its opin-
ion, they were necessary for the in-
terests of the United States, for the
avoidance of any question as to the
control of the canal, and, consequen-
tly, for the sake of peaceful and har-
monious relations with the rest of
the world on that subject in the fu-
ture."

"The American people desire to
build, and mean to build and control
the isthmian canal. They recognize
that the Clayton-Bulwer treaty, made
50 years ago, under conditions
no longer existent, stands in the
way. They have no desire to clear
it from their path in a violent fash-
ion, by formally denouncing it, or
by passing laws and taking action
in contravention of its provision.
They wish to remove it by amiable
arrangement, in a suitable and con-
coming manner. The Hay-Pancoffote
treaty was framed for this object.
The Senate is part of the treaty-
making power, and treaties sent to
it for ratification are not strictly
treaties, but projects for treaties."

"Without a shadow of hostility to
a friendly nation, the Senate, con-
tinuing the negotiations begun by
Mr. Hay, offers three new proposi-
tions to England:

"They ask her to omit the clause
inviting other nations to adhere,
which does not touch her at all."

"They ask her to conform to our
desires, by agreeing in unmistakable
language, to the supersession of the
Clayton-Bulwer treaty by the Hay-
Pancoffote treaty, which is the
whole purpose of the negotiation."

"They ask her finally to accept in
this treaty the restoration of rights
in time of war which she granted to
Turkey in the Suez Convention, and
of which, as the present possession
of Egypt, she is now herself the
beneficiary."

"These propositions are all essen-
tial to American interests, and are
fair, reasonable, friendly, and in no
sense offensive."

"We desire to dispose of the Clay-
ton-Bulwer treaty in the most friend-
ly way possible. We are most averse
to any other disposition of it. En-
gland does not intend to go to war
with us to prevent our building the
canal, and if it is physically possi-
ble for us to build it, we mean, in
any event, to do so. Under these
circumstances, we are very clear that
it is as much for England's interest
as ours to accept the new proposi-
tions. The friendly spirit in which
they are offered, and thus end a con-
troversy over an outworn treaty,
which is only a stumbling block to
both nations. It is not to be doubt-
ed that the English Ministers, whose
ability, experience and reputation
are known to all the world, will fully
weigh all the conditions and right-
ly comprehend the purpose of the
Senate amendments, and the spirit in
which they are presented."

THE LOSSES AT HANOVER.

Not So Large as First Reported, But
Serious For the Town.

Hanover, Ont., Dec. 22.—Later re-
ports of the destruction by fire of
the Knechtel furniture factory here
Thursday night, show the loss at a
much lower figure than first in-
dicated.

Here are the losses, with insurance,
as far as could be obtained:
The Knechtel Furniture Company,
loss on building, machinery and
stock, \$150,000; insurance \$300,000.
distributed among the following in-
surance companies: National, Aetna,
Mercantile Fire, Miller's Mfg., Brit-
ish America Assurance Co., Lancash-
ire, Hartford, Royal, Gore District
Mutual Fire, Waterloo Mutual, Eco-
nomic, Wellington, Alliance Fire,
Queen's, Phoenix.

Graf & Weppeler, dry goods and
groceries, loss \$5,000; insurance \$3-
500; E. F. Ahrens, hardware, loss
\$4,000; insurance \$3,500; Thomas
Fochman & Co., flour, feed and gro-
ceries, loss \$2,000; insurance \$500.
Chas. Doppel lost his store, house,
household goods and stock of grocer-
ies and flour and feed, loss \$2,700;
insurance \$1,500; Greutznier Furni-
ture Company, retailers, loss \$3-
500; insurance not known; E. H.
Greutznier, undertaker, loss \$1,000;
insurance not known; H. Maurer,
blacksmith shop and wagon shop
and showrooms, loss \$2,000; insur-
ance \$1,000; E. G. Vincent, inventor,
lost a machine used for manufactur-
ing the diamond bed spring. He
spent 10 or 15 years in completing
it, and it is a total loss; loss \$500,
no insurance.

Piles

To prove to you that Dr.
Chase's Ointment is a certain
and absolute cure for each
and every form of itching,
bleeding and protruding piles,
the manufacturers have guaranteed it. See the
imonials in the daily press and ask your neigh-
bors what they think of it. You can use it, and
get your money back if not cured. See a box, at
all dealers or EDWARDS, BATES & CO., Toronto,
Dr. Chase's Ointment

Connecticut at Pan-American.
The state of Connecticut is getting
together a large display that will re-
present her farm, fruit and dairy inter-
ests at the Pan-American Exposition
next year. Benjamin H. Lee of Hart-
ford is the commissioner in charge of
the work, and he is assisted by a com-
mittee composed of N. S. Platt, chair-
man, New Haven; Professor C. S.
Phelps, secretary, agricultural station,
Storrs; J. A. Dubon, Poquonock; Pro-
fessor A. G. Gulley, Agricultural col-
lege, Storrs; E. H. Jenkins, agricultural
station, New Haven; J. B. Noble, dairy
commissioner, Hartford; B. C. Patter-
son, master of state grange, Torrington.

The Government's Building.
The Government buildings at the
Pan-American Exposition at Buffalo
are being built by Rasmussen & Streb-
low of Omaha. The contract calls for
a group of three buildings connected by
curved arcades. The main structure is
to be 400 by 120 feet, with a dome 250
feet high, and the smaller buildings
each 150 feet square. All departments
of the government will make up to
date exhibits, which the members of
the Government board are now busy
collecting and getting into shape.

West Indians Will Attend.
Louis H. Ayres, United States Consul
to Guadeloupe, says that in the West
Indies the Pan-American Exposition is
considered much more important than
the Centennial Exposition of 1876 and
that hundreds of natives are preparing
to come to it.

Pity and Beauty

The most beautiful thing in
the world is the baby, all
dimples and joy. The most
pitiful thing is that same baby,
thin and in pain. And the
mother does not know that a
little fat makes all the differ-
ence.

Dimples and joy have gone,
and left hollows and fear; the
fat, that was comfort and
color and curve—all but pity
and love—is gone.

The little one gets no fat
from her food. There is some-
thing wrong; it is either her food
or food-mill. She has had no
fat for weeks; is living on what
she had stored in that plump
little body of hers; and that is
gone. She is starving for fat;
it is death, be quick!

Scott's Emulsion of Cod
Liver Oil is the fat she can
take; it will save her.

The genuine has this picture on
it, take no other.
If you have not tried it, send
for free sample, its agreeable
taste will surprise you.
