THE NORMAL SCHOOL.

The Advertisers is glad to learn that the views of the deputation which met the Ontario Cabinet at Toronto yesterday were so favorably entertained by the able leader of the Government and his colleagues.

At various times during the last few years deputations had watted on the Minister of Education respecting this matter, but yesterday for the first time did the London deputation meet the Premier, the Minister of Education and the Cabinet collectively.

All educationists now admit that additional and more advanced Normal School facilities are imperatively demanded, and the only question was the location of the new school. The Toronto school is overcrowded; while the anachronism of 50 per cent. of the Normal School attendance at Ottawa being from Western Ontario needs no comment.

When the additional Normal School is Located in London, the Minister of Education will be able to cope with the new domands in a satisfactory manner.

The Advertisers expects to see the new Normal School at London, the Minister of Education will be able to cope with the new domands in a satisfactory manner.

A GRATIFYING CHANGE

Those who remember the unnecessary bitterness with which elections were at one time fought, must be convinced that the world really moves. Whatever our temporary differences as citizens politically, it is well for us all to remember that we have to live together as fellow townsmen after the elections as well as before, to promote jointly, according to our several lights, the moral, educational and material literests of the elity.
