Opposition Leader Declares Union of Mines and Crown Lands To Be a Mere Makeshift.

[Special to The Advertiser.] Toronto, May 15. - Premier Whitney received a well-deserved castigation from Hon. Mr. Ross today for his palpable evasion of one of the promises made by the Conservative leader during his campaign. Following up his rechristening of the crown lands department as the department of lands and mines, Mr. Whitney today introduced a bill creating a soft office for himself, to be known as that of president of the council, and relieving him of the labors of a departmental portfolio. The leader of the Opposition in a brief but trenchant speech, gave the Premier to understand the light in which the people of Ontario would view his change of front. Mr. Ross also more seaworthy type of craft in international races in the place of raccabinet in general, and at the Provincial Treasurer in particular.

Hon. Mr. Ross, commenting on Mr. Whitney's bill, said that it was certainly a radical divergence from what people of Ontario expected. All New Ontario especially looked forward to the fulfillment of the promise made so repeatedly by Mr. Whitney, and Mr. Ross showed that the change of political opinion in New Ontario had been due in no small measure to Mr. Whitney's assurances that he would appoint a minister of mines from that district. The people would be greatly

disappointed. "Because we have done what we promised?" asked Mr. Whitney. "Because you have not done what you promised-the creation of a distinct department of mines, with a minister from New Ontario. The joint department is a makeshift, a make-believe. What the people expected is not being done." Mr. Ross agreed that the duties of the First Minister were exacting and demanded that the holder of the office should be relieved of other departmental work.
