QUIET AT MEXICO CITY.
Mexico City, May 26.—Owing to the fact that Mexico City was orderly through the night despite the magnitude of the crowd which celebrated the change in administration, businessmen this morning prepared to resume their occupations on a normal basis. Shutters were re-

moved from the windows for the first time in weeks in many instances.
WIPE OUT BY AVALANCHE.
St. Petersburg, May 26.—Word has reached here that the village of Orchover, situated on Pamir Plateau, in West Central Asia, has been overwhelmed by an avalanche. One hundred and twenty-eight persons were killed.

ANOTHER FASHIONABLE OLD LONDON WEDDING

Former Toronto Man Married to Niece of Lord Furness.

London, May 26.—Another large and fashionable wedding of special interest to Torontonians was celebrated yesterday at St. Mark's Church, North Audley street, by the Rt. Rev. W. Boyd Carpenter, Bishop of Ripon, assisted by Rev. H. R. Cronshaw, vicar, when Mr. Claude Glennon Bryan, eldest son of the Rev. Bernard Bryan, rector of the Church of the Epiphany, Parkside, Toronto, and canon of St. Alban's Cathedral, London, dressed in white, and Charles I. Edmonds, son of the Rev. Canon I. Edmonds, vicar of St. John's Church, London, dressed in black, were united in matrimony. The bride, Miss Mary Furness, a niece of Lord and Lady Blyth, was dressed in a gown of white tulle and lace, and carried a bouquet of white flowers. The bridesmaids, Miss Astrid Furness, sister of the bride, Miss Ada Brown, and Miss Isobel Blyth, were dressed in white. The groomsmen, Mr. Harry Wallace, and Dr. Badgerow were the groomsmen. The bride was given away by Lord Furness, with whom she has lived as a daughter for years, wore a dress of old needlepoint lace, an heirloom in the family, mounted in a crown. Her full court train was of silver brocade lined with satin, and the long veil of the same old lace, which was lent by Lady Furness for the occasion, reached almost to the end of the train, and was held by a coronet of myrtle and orange blossoms. Her bouquet was of roses and lilies of the valley.

After the ceremony the guests drove to Claridge's Hotel, where they were received by Lady Furness. Later Mr. and Mrs. Bryan left for Paris, and will spend the honeymoon in the south of France, Switzerland, and the Italian lakes. The bride travelled in an embroidered gown of palest oyster grey marquisette, with hat to match.

LINKING UP EMPIRE WITH THE WIRELESS

Message Flashed From Canada to Western Africa in Sixty Seconds.

[Canadian Press.]
Gloucester, C. B., May 26.—One hour by wireless from Glace Bay, C. B., to Dakar, on the coast of French West Africa, is the astonishing feat that has just been accomplished at the Glace Bay wireless station. The message was flashed from here to the Eiffel Tower station in Paris, and from there relayed to the Dakar station, the whole operation taking but 60 minutes. So successful was the experiment that it is announced that the British dependencies will be linked together by wireless, and plans to this end are now being made. Between 70 and 75 new stations will be required to put this globe around the world.

DIAGNOSIS SAYS FAREWELL QUILTS PRESIDENCY

Aged Mexican Ruler and Vice-President Corral Resigned.

DE LA BARRA IN CONTROL

News Greeted by Wild Manifestations of Delight by Populace of the Capital.

Mexico City, May 26.—President Diaz, in a pathetic letter read by the president of the Chamber of Deputies, this afternoon resigned the presidency of the Republic of Mexico, which he had occupied for seven terms and a half. The resignation was accepted by the Chamber of Deputies, and the Vice-President, Francisco Leon de la Barra, was chosen provisional president to serve until a general election can be held. Everyone had expected an upheaval when the announcement should be made, but within the chamber the words announcing the event were followed by silence. The deputies seemed awed by what had taken place.

BOOK-MAKING ON THE BASEBALL GAMES

Odds Openly Posted on All Results in the Major and Minor Leagues.

Memphis, Tenn., May 26.—That a general plan has been made to attempt wholesale bookmaking on major and minor league games was indicated here yesterday when odds were openly posted on results of all American, National and Southern League games. Special prices were provided when requests were made, but 8 to 1 was offered that the public could not pick four winners in any one league. This follows a trend that bookmakers, formerly well known on race tracks, had opened a general agency at Hot Springs, Ark., for the purpose of making odds on baseball games. Little business was done locally.

BALLOONIST DROPS INTO LAKE ERIE

Aerial Craft Disappears About Ten Miles Off Sandusky.

[Canadian Press.]
Sandusky, O., May 26.—A balloon, apparently in distress and drifting northward over Lake Erie, was seen late yesterday by a group of fishermen, who fired a shot at it. The balloon, which was a small, light-colored one, was seen about ten miles off Sandusky. It was seen by a group of fishermen, who fired a shot at it. The balloon, which was a small, light-colored one, was seen about ten miles off Sandusky. It was seen by a group of fishermen, who fired a shot at it.

MAYOR BEATTIE REFUSED

Continued From Page One.

and declaring that there was absolutely no power to name one.

The board of education had the power, he said, to name one, but he was not a member of the board.

"I think it would be better," said his worship, "if the board of education would devote their energies to improving conditions. Let the parents of the boys and girls be taught the responsibility they have with their children. They should be taught morality in the home. Playgrounds should be provided, properly supervised, where the youngsters, after they are out of school, may be looked after. Steps should be taken to prevent them congregating on the streets, and above all, the parents should keep their children off the streets at night. If they would do this, rather than to ventilate the state of things said to exist, much better results would be accomplished, to my mind at least. We would not elevate the moral tone of this city one iota by a commission. A lot of fifth probably would be brought out and published, and as a result, the minds of the children would be corrupted worse than they are now. It would not remedy the evils complained of, but it would make them worse. The worthy, but pardon me for saying it, are misdirected."

BOER WAR VETERAN IN MEXICAN STRIFE

Leading an Expedition Against Rebels of Lower California.

[Canadian Press.]
Juarez, Mexico, May 26.—Senor Madero today announced that his brother, Major Raoul Madero, and General Vilhena, a veteran of the Boer war, would lead an expedition in Lower California next week to silence the revolutionists there. About seven hundred men and artillery will be taken.

THE FIRST SUICIDE FROM NEW BRIDGE

Man Leaps From Centre of Span of New East River Structure.

New York, May 26.—The new East River bridge, which spans across the East River just north of the original Brooklyn bridge, received its baptism of suicide today. John Dolan, of Brooklyn, aged 35, jumped from the centre of the span and was dead before he could be hauled out of the water, not from drowning, but from the shock of the long fall.

FLYER VEDRINE REACHES MADRID

Gilbert and Garros, His Rivals, Stalled in Mountains.

KISSES FOR THE VICTOR

Delivers Message From Paris and is Congratulated by King Alfonso.

[Canadian Press.]
Madrid, May 26.—Pierre Vedrine, the French aviator, arrived at the Spanish capital from Burgos at 8:06 o'clock this morning, being the first contestant to complete the third stage of the Paris-to-Madrid aviation race. He covered the distance of 140 miles between Madrid and Burgos, where he landed yesterday from St. Sebastian, in two hours and forty-five minutes. Gilbert and Garros are still stalled in the mountain fastnesses, and it is not thought probable that they will be able to finish within the time limit.

Vedrine, on landing at the Getafe aerodrome, was so tired after his voyage he jumped from his aeroplane and flung himself on the ground to rest. A frantic crowd, on rushed up, however, and bore the victorious aviator on their shoulders to the judges' platform where he was kissed repeatedly by women.

Later, on complaining that he was still numb from his flight, he was removed to an infirmary where he received medical attention and a short rest. On reappearing at the aerodrome the Frenchman smilingly delivered the message which he had brought with him from Paris, and was congratulated on his magnificent flight by the civil governor of Madrid on behalf of King Alfonso.

Vedrine left the suburbs of Burgos in ideal weather this morning and flew over Aranda De Duero, 48 miles south of Burgos at a good height, and at a great speed.

The Paris to Madrid race was begun on May 21 under the auspices of the Petit Parisien, which offered a prize of \$20,000. In addition to this, the Spanish Aero Club gave prizes amounting to \$10,000, and King Alfonso offered a special prize for the fastest flight over the Spanish section. The journey was divided into three stages, Paris to Angoulême, Angoulême to St. Sebastian, and St. Sebastian to Madrid, a total distance of about six hundred miles.

Twenty machines were entered for the race, but as a result of the tragic accident, when the start was made from the Les-Moulineaux aviation field, which resulted in the death of M. Bertraux, the French minister of war, and in serious injury to Premier Monis, all but three of the aviators withdrew. Of these three, Pierre Vedrine, who reached the Spanish capital this morning, was the favorite. He covered the first stage of the contest, 275 miles, in 5 hours and 39 minutes, breaking all records for a long distance country flight. The running time of the southern express between Paris and Angoulême was beaten by Vedrine by 1 hour and 39 minutes.

Dominique tonight said that the troops would remain at their present stations until they should be needed in Mexico City to control the situation.

The President's far-well letter was as follows:

"The Mexican people who generously have covered me with honors, who proclaimed me as their leader during the international war, who patriotically assisted me in all works undertaken to develop industry and commerce of the republic, establish its credit, gain for it the respect of the world and obtain for it an honorable position in the concert of nations; that same people has revolted in armed military lands, stating that my presence in the exercise of the duties of this position is the cause of this insurrection."

"I do not know of any fact imputable to me which could have caused this position, and I am, therefore, permitting, though not admitting, that I may be unwittingly culpable. I come before the supreme representatives of the nation in order to resign, unreservedly, the office of president, which I do with all the more reason since, in order to continue in office, it would be necessary to shed Mexican blood."

"I hope, gentlemen, that when the passions which are inherent to all revolutions have been calmed, a more conscientious and just study will bring out in the national mind a correct acknowledgment, which will allow me to die carrying engraved in my soul a just impression of the estimation of my life, which throughout I have devoted, and will devote, to my countrymen."

A POET'S DIVORCE SUIT.
New York, May 26.—Richard Le Gallienne, the poet, did not oppose his wife's divorce suit yesterday when it came to trial. He was present but the suit was tried as an undefended action.

Mrs. Julie Norregard Le Gallienne is living in Paris. Her suit is based on statutory grounds and involves a young New York woman whose name she says she does not know. The Le Galliennes were married in London in 1892, and have one child, a daughter 12 years old.

SCIENTIFICALLY PROPORTIONED

Are the two pure ingredients of Strong's Baking Powder—cream of tartar and soda. That's why Strong's Baking Powder invariably produces the desired results—lightness and whatever baked food is leavened with it. Costs but 25c a pound.
