LIBERALISM AND GOOD ROADS.

Deliberate misstatements from end to end mark an editorial appearing in the London Free Press concerning the appropriation for good roads proposed by the Borden Government and thrown the Liberal Senate because the Government refused to pay to the respective provinces their proportion of the fund according to pop-

The Free Press is even bold enough to state that the sum proposed was two millions; and a half instead of one million and a half. It evidently secured its information from Hon. A E. Kemp, who at the Conservative convention made the same blunder, or told the same falsehood. The amount was first a million, and to this was added a half million. If the Senate should have thrown out the bill for ten years in succession, for instance, the Free Press and Mr. Kemp would have made the amount ten millions or

The misrepresentation is of a kind with the mass of misinformation and blundering appearing in the columns of the local Government newspaper on

The Free Press charges that an appropriation for good roads was held up by the action of the Liberal Senbecause of the Senate's of fair play to the provinces. Sir when it first came up, but reto give it his sanction unless the money was turned over to the different provinces to be expended by them as they saw fit. Hon. Frank the material. The defeat of reciprocity Cochrane refused to release this vast source of patronage

In the present campaign, no doubt if Mr. Cochrane had been given his way, spellbinders would be in East Middlesex at the present time offering the farmers roads for the whole riding. The Liberal Senate acted wisely and with the country's approval when it refused to permit the fund to be poured into a huge vat of patronage

SEX AND CIVIL WAR.

There is no want of logic in Mrs. Pankhurst's warning to the Ulster Unionists that if the constitution which they propose to set up does not provide for votes for women, the women suffragists will resort to violence to enforce their demands.

The movement headed by Sir Edward Carson, if it goes to the lengths he advocates, will be open rebellion against King and parliament. It might lapse from sheer economic pressure if the Imperial Government chose the weapon of commercial isolation.

A blockade by land and sea would suspend the great industries of Belfast in a day and bring the city to its knees. While there is little likelihood of Sir Edward Carson and his colleagues carrying their threats to the The sun comes up and the sun goes point of civil war, their speeches condone the past conduct of the militant suffragettes, and will be used to sanc- The year grows green and the year tion future violence. Women have been sent to prison for using language no more incendiary than those of public men who preach forcible resistance with impunity. A Liberal lawyer, writing to the Nation, contends that there is ground for the prosecution of Sir Edward Carson for treason-felony under section 3 of the Treason-Felony Act of 1845, as follows:

"If any person shall, within the United Kingdom or without, compass or intend to levy war against His Majesty within any part of the United Kingdom, in order by force constraint to compel him to change his measure or counsels, or in order to put any force or constraint upon, or in order to intimidate or over-awe, both Houses, or either House of Parliament, and such compassings or intentions shall express, utter, or declare by publishing any printing or writing, or by any overt act or deed, every person so offending shall be guilty of felony."

No one denies that the speeches of scribe to campaign funds. The fact Sir Edward Carson are intended to that a man is willing to give prizes used to accommodate the over-awe or intimidate the House of for airship flights doesn't put him Commons, but he counts, with good reason, on the forbearance of the Government because of his high station. and because of the Government's fear of further inflaming the Ulster Unionists. The immunity he enjoys, contrasted with the imprisonment of suf-Eragettes for violent speeches, is a scandalous instance of sex discrimination in the administration of justice. Meanwhile the amazons of the woman suffrage movement find their pattern and their inspiration in the leaders of the party which pretends to stand preeminently for law and order, for the

King and the constitution.

"AND THEN HE DIED."

things have died!

This was the last line of a verse written by one of our reporters to go before the story of Albert Hughes. A boy from the slums of Old Lon-

don was sent to Canada. A farmer secured him, and later on ill-treated him by beating him with a pitchfork. The boy suffered dreadful results of this brutality. First one of his arms swelled and stiffened, then the other. He suffered pain unspeakable and was driven to attempt suicide. Then setence cut one of the troubling arms off his body. This was as new life for him. For next we saw him with his

pasket of household detail trying o make a living. The legess piper of Dargai was no greater hero than this armless, cheerful, courteous youth. The brave piper played his defiance to a few thousands; the maimed, agony-torn boy played his independence to the world. But who thinks of the case of Albert Hughes, except to indulge his pity? Who thinks of what should be done? Who really

mourns him? There was murder done here! That's what we were trying to say in softer words that wouldn't shape. Murder that lost its identity in the veil drawn by kind hands and skilled surgeons. but murder none the less.

Do you suppose that if a son of one of our leading citizens had been killed in such a manner the crime would go unpunished, as it has in the case of this one who died "as thousand other wounded things have died"?

The Thaw case is now helping to re-United States.

Mr. Borden still insists that his navy olicy is a temporary one. "Temporzing" is the right word.

President Huerta promises an elecion in Mexico. Perhaps he intends to count the ballots himself. We must creep before we walk as

citizens of the Empire, says Mr. Borden. Most of us thought we had learned to creep, but Mr. Borden thinks

NEW SCHOOL

London West Folk To Ask Board

For a Four-Roomed

Structure

TO RELIEVE CONGESTION

A petition praying the board of ed-

acation to erect a four-roomed school

in West London is being circulated

today among the residents of that

section of the city. The petition is the

outcome of a most spirited meeting of

the Empress Avenue Mothers' Club,

held Tuesday evening in the Empress

of the board of education, was pres-

ent, and addressed the large gathering

on the school problem in West Lon-

don. The subject was one of intense

interest to parents at the present time

and many of the mothers at the meet-

ing aired their views in a manner

that left no doubt as to what was

Too Far for Tots.

The plan to erect a school on the

south side of the river when the new

bridge is erected is not meeting with

favor among the parents of the young-er children. Tots in the lower grades

who live in the northern section of

West London, and there are many of

them, will find it too far to walk, in

the opinion of the parents. The sug-

gestion was made that a four-roomed

school capable of accommodating the

smaller children, might be built

somewhere on the north side of the

This met with approval, and a petition

asking for the erection of such a

Statement Filed Against Commission

Four Charges of Negligence Made Over Death of Herman Pocock.

A statement of claim on four differnt counts of negligence has been filed against the water commissioners of he city of London by Mr. E. A. Pocock, of West London, father of Her-St Peter's school yard on the Sunday ollowing Easter, by coming in contact with a dangling hydro wire. Mr. Pocock claims \$10,000 damages for the death of his son. Messrs. Ivey & Ivey are acting for him in the matter.

"ROAST" OR "FROST"

Wild Adventure of a Springbank Outing Party Last Night.

What was supposed to be a corn oast ended up as a hard times' party for a number of young Londoners who ourneved to Springbank Tuesday evening. The high cost of living was the cause of all the trouble. A most excellent menu was provided, the feaures of which were boiled green corn and toasted marshmallows, but when this had been disposed of the question of transportation back to the city came up, and to the dismay of the male members of the party a serious inancial stringency made itself The proposal to return he London street railway had inforsed all over it the familiar banking erm, "Not sufficient funds."

Decided to Hike. Only one gentleman had a penny to is name, although another had pretty nearly that. And so the romantic roposal was made that the whole earty foot it home in the moonlight. This was agreed to, and in high problem. About thirty of the children spirits the eighteen adventurers set out on their march. The march soon slowed down to a walk, and finally became a straggle. Of only one young lady could it truthfully be said that he was a walker. Enough corns were bridge and the street railway tracks developed to almost justify another roast. Whenever a hill was reached the ladies sat down and slid. It was not a graceful method of locomotion. but it was at least a change from 71 walking. And thus, like Longfellow's oupils in the first grade and 55 in the steed, "barked at by dogs, and torn kindergarten. The other grades are by brier and thorn" they continued also considerably above the average in point of numbers. Last term the Sun- until the city was reached at a late

day school room of the Kensington Mission on the Wharncliffe road was Was It a "Frost." Some of the young people are still trying to figure out whether the outuse was discontinued as the trustees ing was a "roast" or a "frost," but found that the facilities were inade- the majority stoutly maintain that it their support. was an enjoyable experience, and The mothers of West London are feat of pedestrianism to be proud of. determined to get ample accommoda- General Rosalie Jones' hike to Washtion as soon as possible, and the ington fades into insignificance compared with it, according to the young ladies, all of whom were, up to Tuesday night, ardent suffragettes.

Ingersoll's Fair

Fruit, Cattle, Horses and Fine Arts Break All Records,

[Special to The Advertiser.] Ingersoll, Sept. 17. - It has been said, and truthfully, too, that the In-

gersoll Fair brings rain, and the proof was furnished yesterday. Despite the adverse weather for the opening day some records have been established and fine weather on Wednesday will make the fair a record-breaker in many respects.

The improved prize list and the energy that has been put into all departments of the show has been productive of gratifying results. Last night saw the upper part of the palace filled. The display of ladies' work and fine arts would do credit to a much larger exhibition.

Hundreds of articles of fancy-work are to be seen and scores of fine pieces are in the department. These two sections have shown a wonderful improvement, and every visitor was quick to note the change over former years. Fruit is also an excellent exhibit. While not as extensive as in some former years, the judge, Mr. J. C. Harris, remarked that he never saw

better quality here. n the cattle and horse departments entries have been coming in from prominent breeders throughout this and neighboring counties, and a big exhibit is looked for under favorable weather. Already there is much that the directors and the people of the Ingersoll district have reason to feel

TIGHT MONEY

eturn. For the 12 months ending May 000,000, our exports of domestic produce only \$358,000,000.

On the business of one year alone therefore, the balance of trade against us was \$327,000,000; if we go back for ten years the total adverse balance amounts to \$1,051,000,000. This we have had to pay in cash, and not having the money ourselves we have had to borrow it. Industrial Bonds.

In the effort to secure capital we have rown industrial bonds by the millions, unicipal debentures by the tens of nillions, and railway securities by the undreds of millions on to the markets London, Paris and Berlin. In the atural course of events it could only b matter of time till our credit abroad vould approach its limit, and this pas year the inevitable happened, supplies were in part shut off, carrying charges had still to be met, and the result was tight money.

Since the commencement of this string ncy a good deal of criticism has been evelled against our banks for their aleged failure to provide the funds necessary for the business of the country. To that they have refused to pro money for speculative ventures or fo the financing of new enterprises is to that they have chosen cknowledge rather to reserve their resources so as to be the better able to take care of legitimate business,

Call Loans. quidating, temporarily at least, a subdebtedness, In this connection it is any excessive oil—in a few minutes just get a 25-cent bottle of Knowlstantial portion of our foreign trade inorthy of note that the amount of money paned by our banks on call outside of Canada was \$28,000,000 less in July this year than in the corresponding month a year ago.

A Record Crop. From now till Jan, 1 our banks will reuire to provide in the aggregate a sum sufficient to purchase a grain crop in he West valued at \$200,000,000 It speaks volumes for the banking sysem of Canada that so large a sum will be provided for so useful, so necessary a urpose, with no little disruption to other

No Need for Alarm. I am not, and never was, one of those inclined to view the situation with alarm or even anxiety. Under Providence, nothing can stop the progress of the conderful country we boast as our

beritage. Our tariff has undergone very little change since we met a year ago. In this connection it is interesting to note that tariff have syncronized fairly closely with the general revisions of the United States' tariff. The United States' tariff was juggled, one set of items would be carried under a high duty one year and low the next, while another set would be raised from a revenue basis to a prohibitive basis. For the resultant unsettling of business which we would have secured thereunder, but whereas then we would have secured these concessions only in return for similar concessions on our part, now we are to secure many and some of the most substantial of them without an embarrassing considera-

tion of any kind Enter Duty Free Cattle, swine, pulp, paper worth up to 2½c per pound, dressed lumber, staves standpoint of the employer, therefore, the and coke will all enter the United States duty free: subject to favorable interpretation, fish, coal and wheat will also be highly skilled labor is always in demand, free; even under the most unfavorable in terpretation of which the foodstuff sched ule is capable, wheat will be subject to a duty of 10 cents only, as against 23 cents at present, while on fruits there will be material reductions. The judgment of those who opposed reciprocity on the ground that sooner or later we would have the wider market as a result of United States' tariff conditions is thus rindicated; on the other hand I am sure that the prospect of an early enjoyment of these privileges will assuage the disappointment of those who gave reciprocity

Must Be Adjusted. There are many lines of common manu facture on which the United States' duties are still higher than our genera tariff, and even more disproportionate in relation to our preferential tariff.
