

TO TAX INCOMES IF RULE PASSES

City Will Collect If Teachers
Are Forced Into
London.

Tanner Says Legislation Not
Aimed at Veteran School
Masters.

If the proposed legislation to compel public school teachers of London to reside within the city limits is passed by the board of education at the next meeting of that body those teachers affected will be confronted with more than the mere task of moving their baggage into London.

It was announced at the city hall, Friday morning, that as soon as these teachers transfer their place of residence to London they will be assessed for income tax, and that steps will be taken to pay them with the necessary income tax forms next September.

Under existing regulations those persons residing in the county but earning a living within the city are assessed for income tax at their places of residence. As there are eleven public school teachers of London resident in the county, according to the secretary of the board of education, these "wielders of the strap of discipline" will be called upon to boost the city's revenue, according to the amounts of their respective incomes.

Secretary Tanner of the board of education states that the proposal to compel public school teachers of London to reside in the city or resign their positions will be up for discussion at the next meeting of the board of education.

He declares that it is not the intention of the sponsors of this legislation that veteran school teachers who were born in the districts where they now reside be compelled to move, but merely to enforce the ruling on junior teachers and those to be appointed in the future.

While definite proof is not forthcoming, it has been intimated that in many cases residence outside the city limits has been taken up by some public school teachers of London in order to escape payment of civic income tax.

NEW ZEALAND BEATING CANADA IN CHEESE MART

Supplies 802,021 of 1,089,797 Hundredweight Imported by United Kingdom in Five Months.

Ottawa, July 14.—(By the Canadian Press).—Canada is finding New Zealand a dangerous competitor in the cheese market of the United Kingdom, according to a report from the Canadian trade commissioner in London. While for many years Canada virtually monopolized the import trade of Great Britain in cheese, Mr. Watson reports that for the five months ending May 31 New Zealand supplied the United Kingdom with 802,021 hundredweight of cheese out of a total of 1,089,797 hundredweight.

During the same period according to the Canadian trade commissioner the receipts of Canadian butter in Britain totalled only 170 hundredweight out of 2,075,195, and receipts of Canadian eggs accounted for only 500 great hundreds out of 4,944,098 great hundreds.

Claims No Possibility Of a Catholic England

MONTREAL, July 14.—"There is not, in my opinion, the slightest indication nor possibility of England turning to Roman Catholicism," declared the Rev. W. J. G. Ward, pastor of Newcourt Congregational Church, Tointon Park, London, in commenting upon certain statements that were made at the recent convention of the Catholic Truth Society in a western city.

"The country is weary of ancient authorities and autocracy of every kind, and the democratization of government, of religion, and of social life is apparently the aim of the whole body of people in this world, and restlessness is the proof of it."

FIVE CONTENDERS FOR POLICE POST

London Commission to Name
Sergeants At Next
Session.

More than likely two police officers will be appointed sergeants when the police commission meets in the near future. One will be appointed to fill the position of sergeant, which was left vacant by the death of Sergeant Thomas Fish a few months ago.

Several members of the force have been prominently mentioned for sergeant's stripes. Police Constable Malcolm McRae, who has been mentioned for a post, has been a member of the force longer than any of the other contenders.

Constable Percy Last, another nominee, has been acting sergeant since the first of the year, when Sergeant John Monahan went on sick leave. Sergeant Monahan is still absent, and is in a serious condition.

Constable George Tomblin and Walter Pope, who have also been named as candidates for a position as sergeant, have seen considerable plainclothes duty.

Constable Louis McCaughy may be the commission's choice, it is predicted. McCaughy was recommended for the position of chief of police at Brantford by Police Chief Robert Birrell, and many other prominent residents of Ontario. Of more than a score of applications from outsiders, McCaughy was the only one considered. A Brantford man was awarded the post because of 26 years' experience in Brantford.

U. S. FISHING VESSELS MAY USE CANADA'S PORTS

Reports in United States to Contrary
Proved To Be Unfounded.

Ottawa, July 14.—Reports in the United States that Canada has adopted new regulations regarding the terms under which United States fishing vessels use Canadian Pacific ports are quite unfounded. This was stated definitely this morning at the department of marine and fisheries here.

The order-in-council to which reference was made in American dispatches was passed on May 9 last, and has been in force ever since. This order-in-council is limited in its application to United States fishing vessels visiting points in British Columbia during the calendar year 1922, and its effect is to allow American fishing vessels to secure bait, and supplies and to ship crews in Canadian ports, providing they land their catch at a Canadian port.

To Motorists.

Yield In All Crops.

FINANCIAL AND COMMERCIAL

Indications will likely go somewhat lower. No reaction in values such as experienced during the past three years is expected, and the correspondent states the Dominion live stock market only continue on the basis of further reductions in cost of transportation. The cost of sending a carcass from Toronto to Glasgow, is about 60 per lb. and 3½¢ per lb. on a 1,300-lb. steer, a total cost on an animal of \$42.25. Such a cost is out of line with British selling prices, and will ultimately prove a prohibitive condition.
