

MOTORS DEVELOP STRENGTH AT N. Y.

Failure of Southern To Increase Dividend Makes Rails Sluggish.

Associated Press Despatch.
New York, Sept. 11.—Stock prices went forward again today on speculative buying attracted by a continuation of easy money rates and fresh evidence of improvement in the several lines of fall trade.
Motors developed another outburst of strength, which was featured by the same-back of Chrysler, which scored an extreme gain of 5 points at 100. General Motors and Chrysler advanced 3 1/2 and 4 1/2 respectively, while Ford was followed into high ground by Hudson, Moon, Fisher, Body, Eaton, Axle, Chrysler, and Goodrich Rubber.
Reawakening of speculative interest in copper shares was another interesting feature. American Smelting went up 3 points to 115, the highest price since the war, and Howe-Soudan rose 2 1/2 to 110. The rise in copper was induced by important development work and substantially higher earnings.
Railways were rather sluggish in further action, but the Southern Railway, which had fallen to 100, was supported by a rise in the common stock of the Southern Railway, which developed a temporary outburst of strength, but the buying was not sustained. New York Central, Erie, and Pennsylvania were followed into high ground by Chesapeake and Ohio, and Norfolk and Western. The rise in the common stock of the Southern Railway was induced by important development work and substantially higher earnings.
Central American common stock was followed into high ground by the common stock of the Southern Railway, which developed a temporary outburst of strength, but the buying was not sustained. New York Central, Erie, and Pennsylvania were followed into high ground by Chesapeake and Ohio, and Norfolk and Western. The rise in the common stock of the Southern Railway was induced by important development work and substantially higher earnings.
Call money remained at 1 1/2 per cent, and commercial rates were unchanged. Money exchanges were irregular with rather widespread fluctuations, taking place in some of the European currencies. Demand for dollars was steady, and the dollar was followed into high ground by the common stock of the Southern Railway, which developed a temporary outburst of strength, but the buying was not sustained. New York Central, Erie, and Pennsylvania were followed into high ground by Chesapeake and Ohio, and Norfolk and Western. The rise in the common stock of the Southern Railway was induced by important development work and substantially higher earnings.
