Stocks in Store At Head of Lakes Remain About Same.

Canadian Press Despatch.
Fort William, Feb. 2.—There was a slight falling off in both receipts and shipments of all grains at the head of the lakes last week, leaving the net increase of stocks in store almost exactly the same as was recorded during the previous week, 1,885,000 bushels. The total stocks of all grains here now are 56,534,060 bushels. A slightly heavier demand for flax for eastern mills caused shipments of this grain to exceed receipts but was the only grain stock which were lowered during the week. The forward movement of oats and barley were considerably less.
Following are the figures of stocks, receipts and shipments for the week at the head of the lakes:
In store—Wheat 49,218,720 bashels; oats 24,603,551; barley 658,334; flax 754-731; rye 1,298,724.
Receipts — Wheat 416,642 bushels; oats 271,378; barley 104,352; flax 22,913; rye 557.

Grain Markets WINNIPEG

Canadian Press Despatch.

Winnipeg, Feb 2.—The wheat market was inclined to be draggy today, aithough the undertone remained firm. Some good buying developed shortly after trading opened, but after May touched 103½ considerable wheat was offered, the market closing unchanged to ½c higher.

Early buying suggested that further business had been completed overnight in wheat already across the lakes, while exporters were also buying in hedges against sales made overnight. The selling was scattered. A few selling orders from country interests and a fair amount of profit-taking was noticed.

Both future oats and barley was a selling to the selling was some ordered. noticed.

Associated Press Despatch.
Chicago, Jan. 4.—Wheat ran up rapidly today to new high price records for the season, with buying active and offerings light. Unflavorable weather was a bublish factor, and so likewise was a statement from President Coollidge regarding proposed assistance for wheat farmers. The president's stand was construed as likely to result in material curtailment of spring wheat acreage. Opening prices, which ranged from ½c to ½c to ¾c higher, were followed by a decided further gain.
Corn and oats derived strength from wheat. Country offerings of corn to arrive here were small. After opening ½c to ¾c dower to ½c advance, the corn market scored a moderate general upturn.
Oats started ½c off to ½c up, and later showed grips oil execution.

Our February Bond List

With the Dominion Guaranteed 5% Loan practically disposed of, and as most recent Provincial and large Municipal issues have been sold in the United States, (due to the strength of that market) it is probable that the shortage of highgrade bonds in Canada will become even more pronounced.

Fortunately, however, our February Bond List offers, at attractive prices, an even wider and more comprehensive list than usual, and we suggest that you write immediately for an advance copy.

It will be gladly mailed upon request.
