

By Electric Telegraph SPECIAL TO THE DAILY BRITISH COLONIST

Eastern States. NEW YORK, May 25.—Latest Cretan advices say a battle was fought on the 4th April on the plains of Haraclion, three thousand Cretans repulsing a vastly superior number of Turks supported by regular Cretan cavalry. On the 6th the Cretans achieved another victory. Sixty thousand Cretan refugees are in Greece exposed to great misery. The Greek Government have spent \$300,000 to save them from starvation.

CINCINNATI, May 23.—Adams' Express was robbed of from \$38,000 to \$40,000 last night at Warsaw, on the Jeffersonville and Indianapolis railroad, by four men, who overpowered the messenger. CHICAGO, 23.—In the Methodist general conference on Saturday Bishop Jones, a negro of the African conference, was present. He desired to unite with the Methodist Episcopal Church, if allowed to do so, on terms of perfect equality. He represented some 960 ministers of thirteen annual conferences: The Methodist conference will consider the proposition.

Europe. BERLIN, May 23.—The Zollverein Diet had adjourned. The session was closed by King William of Prussia, who made the customary speech, in which he said he hoped the results of the session would strengthen the sentiments of mutual trust between the people of the various States of the Confederation. He hoped that the prejudices which have been excited in portions of the country might be abated, and so prove that Germans, though apart in some interests, were one people in warm, brotherly feeling. The King closed by saying the rights entrusted to him by Germany would be earnestly exercised as his highest rule of action.

LONDON, May 23.—In the House of Commons Disraeli moved a vote of thanks to the commander of the Abyssinian expedition. Reardon, member for Aithlone, gave notice that he would propose the following question to Government: If the health of the Queen be such as to detain Her Majesty from London why do not the Ministry advise her abdication? The question was ruled out of order.

Advices from Sydney, in anticipation of the overland mail, say Prince Alfred had left for England in command of his ship, the Galatea. He was well. The attempted assassin of the Prince was executed on 22d of April. Official despatches from General Napier received to-day say the army has reached the seaboard, and will soon embark for England. A portion of the native infantry had then already sailed for Bombay.

LONDON, May 24.—The efforts to prove an alibi in the case of Barrett, the Clerkenwell conspirator, failed, and his execution will take place at the expiration of the week for which he is respited.

Arrived, May 28, bark Bronies from Seabeck. Sailed, May 28, steamer Continental, Portland; ship Mary Glover, Port Discovery; bark Christmuth, Port Madison. No Eastern news.

DELAYED DISPATCHES.

Eastern States. CHICAGO, May 15.—The Methodist General Conference yesterday passed resolutions regarding the impeachment, and appointing an hour this forenoon for prayer and invoking God to save Senators from error, and to influence their decision according to truth and righteousness, so that it shall increase the security and prosperity of our beloved Union. Bishop Pantham, of the English Conference, was officially received yesterday and delivered a most eloquent and interesting address. The Conference voted to admit the Southern delegates. The vote was more than ten to one. A large meeting of lay representatives was held last night. The speeches strongly favored the project of lay delegations, and an address was prepared to the General Conference, urging their prompt attention to this subject.

A report has been in circulation to-day, that General Grant has written a letter declaring that he will not accept the nomination for President on the platform of general negro suffrage, but after careful inquiry it cannot be verified. The Republican members say there is no truth whatever in the rumor.

NEW YORK, May 16.—Western Union Telegraph stock 38 1/2@38 3/4. The Universal Peace Society was addressed to-day by Lucy Stone, Cora Hatch and others. Resolutions were adopted expressive of the views of the Society. Horace Greeley wrote a letter indorsing the views of the Society. In the Equal Rights Association officers were elected with Lucretia Mott for President. A lively discussion occurred between Fred Douglass and Susan B. Anthony, Lucy Stone and several other women, who denounced the Republicans because they would not adopt the Women's Rights Platform. Fred Douglass said the Republican Party was far in advance of the Democrats on this subject.

The trial of Theophilus Callicot, charged with defrauding the Government of \$6,000 by a fraudulent removal of whisky from bonded warehouses, has commenced. Chittenden, the president of the Central Railroad has tendered his resignation.

Mexico. GALVESTON, May 16.—Mexican intelligence of the 25th ult., reports the arrival from Havana of three ex-imperial officers. It was rumored that Santa Anna was there in concealment. Spies from Matamoros were watching his movements. General McCook has left for New Orleans to obtain an additional frigate.

HAVANA, May 18.—The steamer Nevada, from Vera Cruz, brings dates to the 6th. The reported capture of General Magrath was premature. The national troops are still in pursuit of the rebel on the border and the remnant of his force. The diligence between Vera Cruz and Orizaba had been stopped by brigand and the passengers robbed. Tranquility had been restored in the State of Sinaloa. The pacification of the State of Guerrero is still doubtful.

The State Legislature of Teacateca has appropriated \$200,000 in aid of Working Canals. General Amadriada was shot by Senor Aspierrez Mechineta, and Senor A. Guerrero, of the Imperial army, was executed at San Tibitche, for acts contrary to the law of nations committed by him during the reign of Maximilian. All the plantations and property of Miramon having been seized under the Confiscation Law, the Government has disapproved of the seizure declaring the sentence against the law which does not include the confiscation of his property.

The reported attempted escape of Juarez turns out to be a canard, originated in the removal of some specie in consequence of fear of an outbreak by the partisans of Ortega within the Capital. The estimates of the different ministers with some slight exceptions are approved. The funding plan proposed by Romero, minister of the Treasury, does not meet with the approval of Congress. A subscription of \$1,000,000 has been granted to the peaceful Indians of Coahuila. The Government of Yucatan has pardoned all persons who took part in the recent rebellion whose rank is below the grade of Major.

Latest advices from New Granada report that General Orejuela has pronounced against the Government. A movement is on foot to revolutionize the province of Antigua. The Bishops of Panama and Bogota will assist at a Council of the Prelates of the Church. It is reported that President Salave has taken refuge in Port au Prince. He reached that city with only one hundred and fifty men, the balance of his army having deserted. It is also said that he has declared that he will burn the city before surrendering. The latest rumor

At an early hour this morning, April 30th, a man was lying dead at Playa Prieta, stabbed in two places. He was one of the boiler makers of the railroad, and about 45 years of age.

By way of Panama we have Valparaiso dates of April 12th and Lima dates of April 21st. CHILE.—The yellow fever still rages in Callao and Lima; it was thought to be diminishing in the former, and on the increase in the latter place. The interments in the cemetery in Callao averaged about 50 daily; but it is said that many deaths occurred among foreigners who were not interred in the cemeteries. Great fear was felt in Lima that the disease would prove still more fatal. Travel on the coast was considerably diminished, owing to a fear of the epidemic.

General news from the coast is unimportant. The American ship P. G. Blanchard, Capt. Thomas Yarnoth, Maine, had arrived at Callao from Aden, in 162 days; 18 of her crew died on the voyage.

West Indies. HAVANA, May 17.—The Herald's special advices from Hayti to the 8th, state that President Salave escaped from Cape Haytien April 22nd, and managed to reach Port au Prince. He and Gen. Delorm, who acts as Secretary of State, Interior, War and Navy, arrested many citizens and ordered some to be shot. The stores of six American merchants were robbed by the troops. Salave threatened to seize the town and burn it to ashes. At the same time he used violent measures towards the foreign consuls. Many Americans had been shot at through their own windows and forced to seek refuge in the American consulate. Hollister and his attaches had an interview with Salave and Delorm. They demanded protection, but were refused defiantly and with threats. The American Minister at once sent a dispatch to Havana for some American men-of-war. He also sent to Jamaica for a British war steamer.

A second dispatch has dates from Port au Prince to the 12th inst. They state that the whole country is reported to be in arms against Salave, except Goncalves, Jackmel and Cahé. The revolution in the north has been successful under Leod, General Loyt and Cacus. The entire south is now in arms against the Government. At Jackmel the merchants and shopkeepers were closing their stores. The national forces had blockaded Miragon. The British steamer gunboat Phoebe has sailed from Jamaica to the assistance of the American Minister at Port au Prince.

Venezuelan dates are to the 22nd ult. They state that the Venezuelan Congress did not assemble on the 20th. Everything is in an unsettled state. Private property is being seized and stored in arsenals and customhouses, to insure the payment of Government debts. A later dispatch states that the Congress had come together to complete the amnesty offered to the rebels, the president being allowed discretionary power to treat with them only stipulating that the existing government must remain intact.

Central America. NEW YORK, May 14.—The steamer Rising Star brings Panama dates to May 6th, and news from Australia to April 8th. The news gives details of the attempted assassination of Prince Alfred. A destructive fire occurred at Sidner, Holdsworth was the principal sufferer. His loss is \$200,000. The Central American Republics are tranquil. A malignant fever, embracing thousands of cases, prevails in Nicaragua. From the Panama Star and Herald we summarize the following:

In Guatemala on the 8th of April a very sharp shock of earthquake was experienced; the shocks were repeated for days in succession, but no damage was done to the buildings. The work of building the wharf at San Jose progressed. It now extends upward of 700 feet. The table of imports and exports of the three ports of Salvador for the quarter ending 31st March are very favorable. The total imports for the half year have been \$1,021,488, and the exports \$2,453,372 being immensely greater than during any previous year.

The Gazette of Nicaragua complains of sickness in that State. It says that there were about 1,000 cases of malignant fever in the capital alone, although the mortality was not over 3 per cent. In Costa Rica, although some rain had fallen, the country was suffering greatly from drought. The entire coffee crops would go to the port of Punta Arenas during the present week.

The Star and Herald complains that Panama is invested with a lot of California thieves, and suggests that extreme measures be resorted to, to get rid of them. The French war steamer Guiscard arrived in our bay on the 27th instant. She came from Tinit, and has on board the French Governor of that Island, which is under the protection of the Emperor Napoleon.

At an early hour this morning, April 30th, a man was lying dead at Playa Prieta, stabbed in two places. He was one of the boiler makers of the railroad, and about 45 years of age.

Utah Territory. CHICAGO, May 15.—A dispatch from Cheyenne says that Generals Sherman, Augur, Terry, and Col. Tappan, Indian Peace Commissioners, returned from Fort Laramie to-day. They report that they have concluded a treaty with the Crows, Sioux, Northern Cheyennes and Arapachoes. All have agreed to keep the peace and settle on reservations. Generals Sanborne and Harney are arranging for the removal of a large party of Indians from Laramie to a reservation on the Mission. About 100 Sioux, who are believed to have committed the late depredations on the line of the railroad are still on the war path. Red Cloud sent word that he and his warriors are in the mountains waiting for the evacuation of the military posts, and when abandoned they will come down to meet the Commissioners. General Augur goes to Fort Bridger to meet the Snakes, and Sherman and Tappan to New Mexico to meet the Navajos and to Forts Randall and Sully to arrange for the reception and location of the Indians on the reservation.

SIXTH INDUSTRIAL EXHIBITION. THE MECHANICS' INSTITUTE, SAN FRANCISCO, CALIFORNIA. THE BOARD OF DIRECTORS OF THE MECHANICS' INSTITUTE hereby give notice that the Sixth Industrial Exhibition, which was originally to be held some time in August next, in a building to be erected for the purpose in Union Square in this city. Every preparation will be made to accommodate exhibitors and visitors with a view to make the Exhibition profitable, instructive and pleasant to all parties. During the three years which have intervened since the holding of the last Exhibition in this city the manufacturing, mechanical, scientific and useful and ornamental arts have made unprecedented progress on this coast, and it is believed that the proposed Exhibition will exceed any other in value that has ever been held on the shores of the Pacific.

The plan of building to be erected, which has been adopted by the Board of Directors, it is believed will prove to be the best adapted, both for display and convenience of the public, of any building ever erected in the State. The building will be perfectly water tight, being covered with a shingle roof, so that no damage from the elements can be anticipated. All parties who are interested in any of the branches of Manufacture, Mechanics, or the Arts and Sciences are invited to exhibit in the proposed Exhibition, and to share in the publicity and consequent advantages which always attend such enterprises. Suitable premiums will be offered, and the specific date of opening the Exhibition will be published at some future time. By order of the Board of Directors, HORACE D. DUNN, Cor. Secretary.

In the Hawaiian Islands we find some further interest some further interest great eruption. These given by Dr. Hillebrand the volcanic district in M. Beranger, French and Consul. The lava made sketches of some important volcanic app are said to possess great scientific value. The lava fissure at Kahuku to the public.—Sir, returned from a journey scene of the late volcano on Southern Hawaii, I you a statement of what there. Let me state here I started from Hilo with for Kilauea on April 17th the crater on the 18th; extensive fissures near on the 20th; the sea on the 21st, and the lava hknk on the 23d. I crossed the lava stream Kona, and reached K on April 26th. First I find, what it is important a matter of science, that quake waves all moved to northeast, and over objects standing at right that line. A heavy Rev. T. Coan's library, lation to the wave, while another heavy of shells and minerals, which to it remained stationary.

KILAUEA must be noticed particularly the changes that have which render the district almost unrecognizable familiar with it. The crater, particularly and western sides, is a number of fissures, one road more than two and very deep; others parallel to and across the as to render travel on itous. The look-out from the mainland by crevasses, and stands now overhanging rock, which severe concussion, must the pit below. Many are hidden by grass and ing so many traps for The Volcano House, however, suffered, nor is the growing it broken in the less walls of Kilauea large have been detached and On the west and north the fire had been most the great earthquake of falling masses probably once melted by the lava off in its stream, for the remain as perpendicular before, but that this part has lost portions of its too evidently by the along the western edge and the partial detachment of large prisms of is on the east and north particularly that the crater has undergone a descent on the south
