## RESTIGOUCHE FARMERS MUST GROW WHEAT

Every Effort Should be made to Grow Sufficient for Use of Own Inhabitants—Seed Wheat.

Restigouche farmers must grow more wheat this year. This is the advice of the local government, and it is a sound one. The wheat crop is the mainstay of the local economy, and it is essential that we have a sufficient supply for our own needs. The local government has made arrangements to provide seed wheat for the farmers, and it is hoped that this will encourage them to grow more wheat. The wheat crop is also important for the local economy, as it is the main source of income for many of the farmers. It is therefore essential that we have a sufficient supply of wheat for our own needs.

## BRITISH MAKE ANOTHER AIR RAID INTO GERMANY

Bombs Dropped at Offenburg—Many German Planes Brought Down—Prisoners Taken.

London, Feb. 12.—The official statement from the war office to-night reads: "A few prisoners were brought in by our patrols at different points along the front." "Our airplanes carried out a raid into Germany and bombed Offenburg (in Baden, south-west of Karlsruhe). Details have not been received." "French pilots bring down four German airplanes." "German airplanes were active in Champagne in the regions of the Meuse and at several points in the Vosges. There was no infantry action." "On February 11th, four German airplanes were brought down by our pilots. In addition our aviators, carried out various bombardments. Nine thousand kilos of projectiles were dropped on enemy establishments, depots, railway stations and communications." "Eastern theatre, Feb. 1st: There was reciprocal artillery activity west of the Varadar and northwest of Monastir. Enemy reconnaissance were resumed in the Upper Skumbi Valley. "Belgian communication: On the night of February 9th and 10th one of our patrols penetrated shelters for machine guns near Kippe. "After a hand-to-hand struggle they put the occupants of the shelters out of action and returned to our lines, bringing back a German machine gun. Along the whole front there was limited artillery activity this morning; it was quite marked during the afternoon near Ramscapelle and Merckem."

## KILLED MOOSE OUT OF SEASON

Two Athol Men Pay High for Moose Meat—Warden on the Job.

Two Athol residents recently discovered that a cow moose was "warden" back of the sugarbush, and planned to get it for fresh meat. The game warden of the district, Mr. Gray, evidently learned of their intentions as he was not on their trail. One day recently the men proceeded to the spot and killed poor defenceless Mrs. Moore and hauled the carcass home. The next morning before they were out of bed the game warden, with Chief of Police Mann visited their houses armed with a search warrant, and without much trouble found the meat. The two men were placed under arrest, brought to town and later appeared before the Hon. Magistrate charged with killing a cow moose. They were proven guilty and each fined \$100.00 and costs, or three months in jail. One paid his fine, but the other had to go to jail. We are glad an example has been made of these two pot hunters, and hope this will be a lesson to others. The Warden Mr. Chas. B. Gray is determined to protect the game in his district, and he is doing excellent work.

## ENGLAND'S EARNESTNESS IN WAR IMPRESSES ITALIAN MINISTER

Rome, Feb. 12.—The Minister of War, General Alfieri, has returned to Rome from a visit to England. "The impression I received," he said, "may be summarized in the words 'earnestness' and 'discipline' which apply to the whole British Empire. My observations of the English people confirm the impression I received when I saw the British troops on our own front. "The object of my journey was to place myself in contact with the directing organizations of the British army. This was accomplished most satisfactorily. All England is standing together against the enemy in this just cause."

## LOOKS FOR DROP IN POTATO PRICES

St. John Valley, Getting Lots of Cars for Shipment to U. S.

(Frederick Gleaner.) During the past ten days developments in the potato situation are such as to cause some considerable concern to food administrators and agriculturists of the Maritime Provinces of Canada, and States in the United States. The greatness of the crop, both in the United States and Canada, has been frequently referred to. In spite of the largest crop ever known, prices, from the time of digging to the present, have ruled higher than of any previous years of record, with the exception of last year, when the crop was abnormally short. Prices today in the larger centres of the States are high. Figured on the 10 pound basis they are, locally, worth \$3.55 per barrel. From all information available it appears that not more than one-half of the marketing surplus of the crop of 1917 has been moved up to December 31. Mr. Smith interviewed. Hon. B. Frank Smith, of the P. F. Smith Company, Limited, who was in the city yesterday was interrogated on the potato situation, by The Gleaner. "From the St. John Valley," says

## AMERICANS LIVENING UP GERMAN FRONT

Artillery Makes Things Lively For Huns—Aerial Activity Over American Lines.

With the American Army in France Feb. 12.—Aside from increased aerial activity the American sector has been normal for the last 24 hours. Harassing artillery fire and patrolling operations have been kept up, but there have been no clashes. Airplanes were overhauled everywhere. The enemy late in the day sent over a considerable number of machines in battle formation. They were met and driven back by a French squadron. Mr. Smith, "potatoes are going forth, about equally, between United States and Northern Canadian points. Probably not more than one-half of the marketable potatoes have gone forth. With liberal car supply, which I have reason to believe is coming, I am inclined to the belief that there will be a considerable reduction in prices. North America had a very large production, far more than she can consume, and with a free movement, prices must topple."

## WAR SITUATION HAS NOT CHANGED BY RUSSIAS ACTION

Russia as a Practical Factor in the War Has Been Inert for several Months—Separate Peace No Advantage

Paris, Feb. 12.—The news that Russia is laying down her arms and has declared peace with the Central Powers is not considered here to have changed the war situation in its essentials. It is pointed out that Russia as a practical factor in the war has been inert for many months, and the allies have long since adjusted their plans and calculations to that condition.
