HAMILTON, SEPT. -1, 1892.

Winnipeg.

Our readers, are, of course, aware that Bro. John McKee, under the direction of leading Disciples in Manitoba, is engaged in the highly laudable enterprise of establishing a church in the capital of Manitoba. It is some what late in the day for such an effort to be commenced, but it is not too late It will serve no good purpose to complain that the work should have been started in Winnipeg twenty years ago, more or less. The fact is that it was not, and another fact is that a start has now been made. Right here let us say, this venture must not fail; and we trust that to this every reader will heartily say, Amen I

It is no small undertaking to found cost of securing a lot and a house is Here it is:considerable, and the current expenses in such a place are not small. The opposition on the part of the denominations, especially the Baptists, is intense. The indifference of Disciples who have lost that fine discrimination between truth and error and that noble zeal for the propagation of the truth which characterized their fathers is a hindrance.

But the difficulty of the undertaking is no sufficient reason for withholding sympathy from it; the more difficult it is, the more cordial should be the sympathy, and the more generous the support. In the July 15th number of this paper, there was an appeal signed by leading members in Manitoba. We are assured that that appeal was made as a matter of necessity. It was requested that contributions should be sent to A. H, Finch, Portage la Prairie, Man. We ask the readers of the Evan-GELIST, to whom indeed many appeals their earnest consideration. We think city of Winnipeg.

A Hopeful Feature.

"A very hopeful feature of the work in the Province is the growing number of growing preachers among us. At our convention were many young men who intend devoting themselves to the work of saving souls. Most of them, if not all, were reated on Canadian soil, and fairly represent the thoroughness and extent of the wors done in late years. When we can produce our own preachers, which we are doing; the perilous period of our history is past. Our strength can be seen in the young men, and the work done by them last year is no unimportant chapter in Rev. W. our history.'

So writes one of our preachers. The cause that does not enlist the sympamen is a dying cause. For the reason Government, and oppose every party

cause we plead is not a dying one in do it. They claimed that an indepenthat the churches are so generally receiving the young preachers, and giving corded our young preachers will compare favorably with that accorded the young ministers of any religious body in Canada. Beginners in all callings have difficulties to encounter which try the stuff they are made of. Young preachers have their peculiar trials, but they have their peculiar compensations. If they are worthy and faithful they will not lack the counsel and sympathy of Christian men and women. A young preacher has, indeed, a trying ordeal to pass through. To stand before a congregation to deliver a discourse on a scriptural theme often appalls the experienced; little wonder if it well nigh unnerves the beginner.

We are glad that the congregations of Disciples in this country, almost without exception, recognize the need of faithful and able preachers to devote their whole time to the ministry of the Word, and we rejoice that the number of talented and consecrated young men who respond to the demand is yearly on the increase. May the Lord bless them richly, and strengthen them mightily for His own work.

Communion Wine.

The recipe for making unfermented wine for the Lord's table which we have published in the Evangelist for two a church in a city like Winnipeg. The or three seasons is called for again.

> To four quarts of grapes add three pints water; put on the fire and let it boil until the skins are broken. Take off and strain as you would for jelly. pound of white sugar. Let boil five minutes, then take off and bottle. If sealed air-tight this will keep for more than a year. Seventy pounds of grapes will make fifty-two pint bottles of wine. This makes an excellent wine, much superior to the fermented, at about one-half the cost. We would highly recommend it to all churches,

Upon the testimony of those who have used this recipe we confidently recommend it to the churches.

The interesting letter from Dr. James Butchart, will explain to our readers, who do not now understand it, the object of this fund.
