

PANOPEPTON

Bread and Beef Peptone

Presents all the constituents of the two great types of food in a perfectly soluble, diffusible and absorbable form.

In sickness the indications and necessities for a comprehensive nutrient are no less plain than in health. The expedient of predigesting or peptonising this food is one of the most rational, scientific and important advancements of modern medicine.

Panopepton conserves and imparts energy, sustains the system, resists the inroads of disease, and quickly enables the digestive functions to resume their normal power, and thus appropriate ordinary foods.
