APIOL

OF DRS. JORET AND HOMOLLE

APIOL is a specific for Menstrual disorders: it relieves Suppression, regulates the Periods, and prevents or removes the pain which accompanies them. It is without danger, even in cases of pregnancy. But the trade issues, under the name of APIOL products more or less adulterated; among others, a greenish preparation which physicians should reject. In a state of purity APIOL is an oleaginous liquid, of an amber color and denser than water. This is the character of that supplied by Drs. Joret and Homolle, the discoverers of this valuable emmenagogue, the great efficacy of which has been established in the Hospitals of Paris.

It is prepared only at the PHARMACIE BRIANT, 150 Rue de Rivoli, PARIS.

Dose.—One capsule morning and evening, during 6 days at the presumed period of the monthly courses.
