**ON 40 DAYS' TRIAL
THE GREAT SPIRAL TRUSS**

The Pad is different from all others. It closes Healed as if your extended hand was drawn together and one finger pointed in the centre. Rupture is held positive day and night with the slightest pressure, and healed same as a broken leg. You will be allowed three exchanges during the 40 days. There is no duty to pay when received or returned, which many Canadians found more expensive than the truss. It is the easiest, most durable, and cheap Truss. Sent by mail. Send stamp for illustrated book. CHAS. GLUTHE, Surgical Mechanist, 184 King St. W., Toronto

THIRD EDITION!

Indispensable to every live Teacher.

Practical Problems

IN

ARITHMETIC.

For First, Second and Third Classes.

By **JAMES WHITE, Public School Teacher**

EDMONTON, ONT.

This book has been prepared specially to suit the convenience of Public School Teachers. It contains about 700 Practical Problems suitable for First, Second and Third Classes in Public Schools. It is very carefully graded, and each principle required to be taught is introduced in logical order. It receives the hearty approval of Teachers and Inspectors.

Read their Opinions.

From **ALLAN EMBURY, ESQ., Inspector, Peel.**

I have examined this little book of Arithmetical Problems, and can give it an unqualified endorsement. The questions are carefully graded, and are specially suited to the wants of our over-worked teachers who have not always the time to devote to the preparation of exercises upon the various subjects of the school curriculum. The questions are not stated in the form of propositions; but their statement is incidental, leaving the inner connection of the problems to be discovered by the pupil himself; and in this important feature lies their special adaptability as an educational forte. I heartily recommend this book to all teachers wishing to economize time and labor in their preparation for ordinary school work.

From **E. TROUGHT, ESQ., Teacher, Member County Board of Examiners, Inglewood.**

I have examined with some care Practical Problems in Arithmetic for First, Second and Third Classes, by Mr. White, Edmonton. Without the slightest hesitation I say that they are the best I have ever seen—the best in selection, the best in grading, and above all, the best for developing the reasoning powers of the child, and for exercising his ingenuity. A special feature of the grading is that principles which have been introduced are being constantly made use of in the succeeding problems which are in their turn introducing new principles, so that the whole work may be said to be one unconscious review. It is a great boon to Teachers.

Price, Bound in Cloth, 25 cts.
